NEW WAR LOOMS; ALLIED CHIEFS RUSH TO PARIS

BRYAN WALKS RIGHT IN DEN OF TREATY LIONS

Tries to Rescue Pact on Senate Floor.

BY ARTHUR SEARS HENNING.

Washington, D. C., Jan. 15.—[Special.]—In bold defiance of President Wilson, William Jennings Bryan, fresh from the plaudits of middle west audiences, invaded the senate today and tried to organize a Democratic walkout against the president's unyielding attitude in the peace treaty controversy.

He called Democratic senators into the lobby and urged them to absent themselves and permit the Republicans to ratify the treaty in any form. Mr. Bryan did not make much immediate headway, but tonight he still seemed hopeful.

The Democrats were in a hub-bub, as was shown by their evenly split vote on selection of a senate leader, but Mr. Bryan's suggestion apparently did nothing more than muddy the waters.

Agree on All but Article X.

Senators Hitchcock, Walsh of Montana, Owen, Simmons, and McKellar held a long conference with some Republican leaders, but aside from reporting "progress" were unable to record any substantial advance.

The Republican senators consulted were Lodge, New, Lenroot, and Kellogg. They were supposed to represent all groups except the irreconcilables. There was a complete willingness to compromise until article X. was reached. Then the deadlock became as tight as ever.

Bryan Offers Solution.

Here is Mr. Bryan's solution of the difficulty:

"Two-thirds of a quorum can ratify if a quorum is present. In other words, a two-thirds vote is two-thirds of those present and voting. The Democrats, simply by refusing to vote, would make it possible for a majority of the whole senate to cast the two-thirds vote necessary to ratification."

Senator Hitchcock thought Mr. Bryan's suggestion would make no appeal to the Democrats, and according to some senators, the Commoner's suggestion was as novel and weird as the 16 to 1 issue of 1896. It was pointed out that if the Democrats should absent themselves on a treaty vote, it would be necessary to establish a quorum to produce action and that the absence of half a dozen "irreconcilables" would prevent a decisive vote.

Would Help Us Abroad.

"I believe an overwhelming majority of the American people want the treaty ratified right away," Mr. Bryan said tonight. "There is a great deal more interest in speedy ratification than there is in phraseology.

"An agreement is infinitely better than any other settlement for two reasons: First, it takes the question out of politics and permits both parties to turn their attention to very important domestic issues. Second, it permits ratification by a larger majority than would be possible under any other plan. That gives the greatest possible weight to our action and has a tremendous influence abroad. These two reasons help us at home as well as abroad and ought to be sufficient to compel an agreement.

"If the constitution were being rewritten in the light of present day sentiment I think that a majority would be able to terminate a war.

Is Jeffersonian Policy.

"If any one thinks this plan I have outlined is a concession to the Republican party he has not thought the matter through. Yielding to the majority in this country does not mean either an approval of what the majority does or the ending of the contest. It is simply the acquiescence in the will of the majority, which Jefferson says is the first rule of a republic, from which there is no appeal except to force.

"An appeal can be made to the country to reverse in the league of nations any action taken by the senate and to authorize the restoration of any provision stricken out. My opinion is the Democratic party can make a much more successful fight before the people for authority to restore than it can for authority to retain if it must share responsibility with the Republicans for fourteen months' delay.

Puts G. O. P. on Defense.

"I believe we can put the Republican party on the defensive before the country by proposing, first, an immediate compromise if a compromise is possible, and, second, by throwing the re-

Call on Dutch Tomorrow for Former Kaiser

PARIS, Jan. 15.—[By the Associated Press.]—The supreme council has drafted a note to the Dutch government, asking for the extradition of the former German emperor.

It will probably be sent Saturday.

The note refers to article 227 of the treaty of Versailles, and invites Holland to join the allied powers in the accomplishment of this act.

Article 227 of the treaty of peace with Germany declares:

"The allies and associated powers publicly arraign William II. of Hohenzollern, formerly German emperor, for a supreme offense against international morality and sanctity of treaties.

"A special tribunal will be constituted to try the accused, thereby assuring him the guarantees essential to the rights of defense. It will be composed of five judges, one appointed by each of the following powers—namely, the United States of America, Great Britain, France, Italy, and Japan."

The article also declares it will be the duty of the tribunal to fix the punishment.

IS EX-KAISER INSANE?

LONDON, Jan. 15.—[By United News.]—Is former Kaiser Wilhelm mentally sound?

This is the question figuring principally in all discussions of his probable trial as a war criminal. And the conclusion is that Wilhelm is insane.

Reports from Amerongen, where the former kaiser is in retirement, in which it has been indicated that he is afflicted with all sorts of mental difficulties, have caused this comment on the part of one medical journal:

"Medical opinion in Great Britain is accumulating to the effect that the former kaiser is probably afflicted with a progressively incurable disease in its earlier stages in the form of a general paralysis. If on inquiry this proves to be the case it cannot fail materially to affect the course of proceedings contemplated.

"Reports from The Hague to the Berlin Tageblatt describe his affliction as an assemblage of symptoms which are to be interpreted only as indicative of advancing cerebral changes.

"In conversation his face loses all expression; his gaze is vacant, and his arms and legs tremble. His speech is marked by the slow operation of his mental processes. Alternately he is excited and depressed.

"It is impossible to ignore these symptoms, and we suggest an expert inquiry with reference to his capacity for pleading his case in court before his trial is made a travesty."

WILSON SENDS FELICITATIONS TO KING OF DENMARK

COPENHAGEN, Jan. 15.—King Christian of Denmark today received the following telegram from President Wilson:

"I am glad the treaty of Versailles, in the negotiation of which I had the honor to participate, so far has become effective by the deposit of ratifications by the principal signatories as to open the way for the people of Danish Schleswig to express their will as to reincorporation with their loved mother country, thus realizing one of the ideals for which I strove."

"DON'T you know," he continued, "the real and vital difference between a thing that is beautiful and a thing that is not? BEAUTY LIVES. A picture, a statue, even a tiny bronze, which has the touch of God in it, does more than call for the worship of the eye. My treasures were here because they sweetened the long hours of loneliness .... And now some thief has outraged my secret happiness. There is ghastly mockery there upon the walls."

LIQUOR'S KNELL TO TOLL IN U. S. AT MIDNIGHT

Last Rites Joyless Though Law Nods.

Federal prohibition arrives tonight at the stroke of 12. Liquor which had much of its robustness knocked out of it on the first of last July, takes official leave of life in the U. S. A. tonight—except in the sanctuary of the home.

There was some casual celebrating of the final rites last evening and there probably will be more today, but it was and will be hollow hilarity.

Chief Garrity is busy contending with crime and the police will not concern themselves this last evening with the wake for John Barleycorn.

Real Action Tomorrow.

Revenue agents say they are so busy getting ready to turn over the white elephant of prohibition enforcement to the new federal commissioners that they can't even attend the festivities.

The new constabulary will not officially take up the burden until 12:01 a. m., and as "reasonable" men say they believe nobody should start a new job until at least 8 o'clock in the morning.

At least half of the 1,000,000 gallons of "hard likker" reported stored in Chicago on July 1 last is still here. And there you are.

Draw Line at Sales.

"No special privileges will be extended for the final wet celebration," said Chief Garrity. "On the other hand, there will be no 'drives' on the celebrators. Policemen are too badly needed to suppress crime. At that I haven't heard of many big parties being planned."

Both the police and federal agents have been ordered to repeat their New Year's eve duties and see that no liquor is sold over the bar or in cafés and restaurants. General orders will be issued today in the police department outlining the coöperation the police will be called upon to give the new prohibition enforcement forces beginning tomorrow.

"We're not interested in the last wet celebration," said Maj. A. V. Dalrymple, district prohibition agent. "We have made final arrangements to take over the work of nailing down the lid. Our 250 agents have been assigned and will begin their duties on Saturday morning."

Camel Caravan Has Rush.

As the zero hour approached Chicago's refugee liquor speeded up its forced march to the home cellar. While accommodating authorities centered their attention on watching for prohibited sales, trucks, limousines, and baby buggies rumbled from club, saloon, hotel, and store basement to homes where the private stock can find its only real safety. Maj. Dalrymple and Capt. Hubert Howard, commanders of the new anti-booze constabulary, repeated their assurances that the home is the one safe place.

The revenue department estimated that more than 50,000 gallons of liquor have been moved into private homes from more public storing places in the last week, basing their estimates on the flood of inquiries reaching the federal building.

Can't Get Taxes Back.

Liquor dealers met their last reversal when Julius F. Smietanka, collector of internal revenue, ruled during the day that wholesalers and saloonkeepers cannot be given a refund on their whisky taxes, even though the liquor must now be either stored permanently or used for nonbeverage purposes. A large number of dealers have paid the federal tax of $6.60 a gallon on their stock. None, the collector announced, has taken the opportunity offered some time ago to move stocks to Mexico, Cuba, or Europe for sale.

One of the first duties of the new "dry" officers will be to check up on the exact amount of liquor held in Chicago warehouses and at places outside of the home.

U. S. TO BE DRY AS SAHARA

(By a Staff Correspondent.)

Washington, D. C., Jan. 15.—[Special.]—On the eve of prohibition under the eighteenth amendment to the constitution the machinery of the governmental enforcement bureau, although not complete in several states, is declared by John F. Kremer, prohibition commissioner, to be in such condition that no serious difficulty is expected in the enforcement of the law.

"In most of the states our organization is perfect," Mr. Kremer said. "In others the machinery has not been completed. The supervising agents in

CHICAGO GRAIN PIT WAYS DAZE WALL STREET

Snappy Fingers of West Beckon Fortune.

Have the snappy finger systems of Chicago's wheat pit made Wall street dizzy? Are grain brokers, who have been deserting the Board of Trade since government supervision took all the zip out of wheat trading, showing both the New York and Chicago stock exchanges what speed really means?

Chicago traders will say they are.

There was a time when the wolves of Wall street looked westward with sardonic smiles at Chicago's wheat pit and humorously referred to it as "a bunch of middle west traders dabbling in grain." But these self-same "middle west traders," trained to the chain lightning methods of the pit, and bored by the slowing up of trading under the federal check rein, have been invading New York recently and carrying pit methods into the stock exchange with such success that brokers are gasping.

Worst to Come.

One of the latest to desert the stagnant pit is Joseph Robert Begg, one of the most active operators for the last twenty years, who purchased a membership in the New York stock exchange and left last night to start in business there as an independent broker. Begg is said to have had the faculty of buying or selling more grain in a minute than he could put on the trading cards in five.

That there is a good field on the New York exchange for bright, active traders who can carry their deals in their heads is shown by the success of Peter Maloney of Block, Maloney & Co., who went from the Chicago wheat pit some ten years ago and is now counted one of the most alert brokers there. He is said to have cleaned up $2,000,000 since leaving Chicago and has taken all the Maloney family—from Mother Maloney down—to New York to live.

Here's How It's Done.

"Pete" Maloney, as he was always called here, and Arthur G. Delany, who went to New York only seven months ago for Thomson & McKinnon, are counted the star traders. A story is told of Delany showing the efficacy of the pit training.

Delany recently had an order to buy 5,000 shares of one stock. If the other brokers learned of it they would boost the price, so Delany worked fast. He quietly picked up 200 shares here and 300 shares there and stopped when he had the 5,000 without ever having made a memorandum. When he was through he filled up the card with the names. Other brokers were dumfounded.

When he was here last week Delany told old friends that he attributed his success in the east to his training on the wheat and grain pits.

"It stands a man in good stead on the New York stock exchange," he said. "In fact, it's just a little too fast for them."

MEXICO TO TAKE OIL WELLS BY CONDEMNATION

Douglas, Ariz., Jan. 15.—The government of Mexico has resolved to buy or acquire by condemnation proceedings all of the oil lands in the zone of fifty kilometers from the frontiers of the nation "that are held by foreigners against the perfectly well defined precepts of the constitution," says a Mexico City special to El Tiempo, a Cananea newspaper.

"At the same time the executive expects to obtain from congress a fund of fifty million pesos in national gold to buy these properties. It is feared that owning companies will be unwilling to sell these rich tracts of oil land, but in this case our government of a truth would be forced to expropriation. With respect to the grazing lands of Sonora held by foreigners within the prohibited zone announcement is expected to be made in the near future."

Reds Ask U. S. Navy Tars to Form Soviets, Report

New York, Jan. 15.—Red agents have attempted to sow the seeds of bolshevism in the United States navy, according to Capt. J. P. L. Stone, Bay Ridge Naval station commandant. Capt. Stone told a gathering of prominent women, interested in the creation of a permanent navy club for enlisted men, that American sailors have been asked to form soviets and have been fully instructed as to procedure. He said that Red literature had been scattered throughout the Bay Ridge station and elsewhere and that many of the men had been found reading it.

BLOOD SPILLED, MANY JAILED AT IRISH ELECTION

Excitement Runs High on Erin's Isle.

CORK, Jan. 15.—Three persons were wounded and a number of arrests were made in the course of today's elections here when former soldiers and members of the Sinn Fein party engaged in a fight at a polling place.

The wounded, who were struck by bullets when firing began, were removed to a hospital. The police finally quelled the disturbance after taking a number of Sinn Feiners into custody.

W. F. O'Connor, the lord mayor of Cork, was attacked by a party of men last night. The attack is attributed to the mayor's opposition to the election policy of the Sinn Fein organization.

Ecitement Over Elections.

BELFAST, Jan. 15.—The Irish municipal elections, which were fought out for the first time today under the proportional representation system in 126 boroughs and urban council areas, created great excitement.

Although the Sinn Fein candidates are in the majority in many areas, the issues are complicated by the appearance of the municipal reformers and other parties with numerous women candidates. Among these were Mrs. F. Sheehy Skeffington, Mrs. T. M. Kettle, and Mrs. Alice Ginnell.

In Dublin alone 153 candidates were running for 80 vacancies. These included the following: Sinn Fein, 61; municipal reformers, 14; nationalists and laborites, 2.

The results of the elections will be announced next Saturday.

British Official Mobbed.

DUBLIN, Jan. 15.—A mob attacked motor cars in which James MacMahon, undersecretary for Ireland, and a Dr. Ryan were riding on Cabra road today. The chauffeur of Secretary MacMahon's car was slightly injured.

WOOD ALCOHOL PARTY MAY COST LIVES OF THREE

"There's a bunch having a wood alcohol party here—Lipschitz & Gordon's, 701 South State street. Hurry up."

The Harrison street police station got the message over the 'phone. The patrol wagon hurried.

Detective Sergeants Sheehan and Conroy and Patrolman Gallagher found three men flirting with Ethyl Barleycorn's Borgian sister, Methyl, in a quart bottle. When the police station was reached the three revelers were unconscious.

At the bridewell hospital they were listed as James Wilson, ex-soldier and waiter, no address; Theodore Waltman, dish washer, 742 East Forty-third street, and Harry Stewart, alias Harris, no address.

Hospital physicians said they might die.

Red Drive on Odessa Turns Into Defeat

BULLETIN.

LONDON, Jan. 15.—News has reached London that the British representative at Irkutsk has been ordered to leave the zone of hostilities owing to the thratening situation brought about by the advance of the soviet forces. He has gone to Harbin.

LONDON, Jan. 15.—The British military mission with Gen. Denikine in Ekaterinodar reports that the Caucasus army in the line behind the Aksai river repulsed in heavy fighting five frontal attacks and an attempt to turn its left flank by the bolsheviki.

The report says the advance of the bolsheviki on Odessa has been stopped. It also states that the report that Denikine has been superseded by Gen. Wrangel or any other commander is untrue.

Reds Stopped at Don River.

The statement says the Denikine army holds the line of the Don river from its junction with the Aksai to its mouth, and that the Reds failed to force the passage of the river at any of the five points where this was attempted. Crossing the river would be difficult, it is stated, except for small parties of cavalry, because the roads are deep in mud.

The volunteer army is said to be holding the line from Nikopol to Melitopol, north of the Crimea.

REDS CLAIM VICTORIES

LONDON, Jan. 15.—The bolsheviki armies have captured the fourth and fifth divisions of the anti-soviet armies on the Turkestan front, according to a communique sent out from Moscow. The commander in chief of the fourth division fell into the hands of the Reds.

The capture was made eastward of Guriev. Eleven miles inland from the Caspian sea on the Ural river.

South of Chernyi Yari, 150 miles northwest of Astrakhan on the Volga river, the bolsheviki also claim to have captured 600 prisoners.

Bolshevik forces have captured Nikopol (on the Dnieper river, 75 miles from its mouth,) and Melitopol (in the Crimea), according to another soviet wireless. The statement says the bolshevik troops have reached a line of villages 50 miles to the west and 30 miles to the southwest of Nikopol.

These reports followed early dispatches in which the bolsheviki claim to have captured Rostov-on-Don, 10,000 prisoners, thirty-two guns, nine tanks, and an enormous amount of baggage.

"Street fighting started on Rostov-on-Don on Jan. 9 and lasted the whole day," this communication continues. "The town was cleared on the 10th and the enemy driven back beyond Bataisk, Girlo, and Aksaishai. The enemy destroyed the small bridges over the Don, but the large railway bridge was not damaged. A revolutionary committee has been formed at Rostov."

Rostov-on-Don formerly was the capital of the government of Gen. Denikine. Rostov is the chief port of the Don river.

Confirms Kolchak's Capture.

The reports of the capture of Admiral Kolchak, head of the all-Russian government in Siberia, have been confirmed, it is declared in another Moscow dispatch.

The foregoing presumably refers to the report received Jan. 10 which declared Admiral Kolchak had been arrested in Irkutsk by Col. Pepeliayev, who it was presumed might be Victor Pepeliayev, the premier of the all-Russian government.

An Exchange Telegraph dispatch from Tien Tsin quotes Tokio reports as saying that an agreement has been reached between the United States and Japan under which Japan would protect the Trans-Siberian railway.

No German Pact with Soviet.

BERLIN, Jan. 15.—Official denial was made today of reports that Germany had concluded an agreement with soviet Russia.

OFFERS WILSON JOB AFTER 1921 IN HONOLULU

Washington, D. C., Jan. 15.—[Special.]—President Wilson was today invited by the Pan-Pacific union, whose headquarters are at Honolulu, to assume its active presidency after March 4, 1921, should he leave the White House on that date.

The invitation was brought from Hawaii by Alexander Hume Ford, the secretary of the union.

Several years ago Mr. Wilson accepted the first honorary presidency of the union.

BRITAIN FEARS DRIVE ON INDIA BY THE SOVIET

Victories of Russian Reds Bring Crisis.

(By the Associated Press.)

LONDON, Jan. 15.—Before peace with Germany is a week old the British public has been brought up sharply against the possibility of another war.

Winston Spencer Churchill, secretary for war; Walter Hume Long, first lord of the admiralty; Baron Beatty, commander of the grand fleet, and Field Marshal Sir Henry H. Wilson, chief of the imperial staff, left London tonight, having been hurriedly summoned to Paris for a consultation with Premier Lloyd George and other British officials there on important military and naval matters.

Reds Win All of Russia.

This summons is inevitably connected in the public mind with the semi-official statement published today calling attention to the threatening situation in the middle east as a result of bolshevik military successes, which have given the soviets virtual mastery of the whole of European Russia. It is believed it will not be long before they are in full possession of the coast regions in the vicinity of Odessa.

By their victories the bolsheviki have obtained command of enormous supplies of food, raw materials, coal, and rolling stock and other means of transport of which they formerly were in need.

Fear for Poland's Safety.

Speculation is active in the European capitals as to what will be the next move of the bolsheviki. It is regarded as certain that, flushed with success, they will not be content with their present conquests, but will seek to extend bolshevism either eastward or westward.

Expert military opinion inclines to the belief that their next move will be an attack on Poland and the Baltic states, and Warsaw dispatches to the London papers already indicate that the Poles are fully anticipating such a move.

Soviets Now Powerful.

The soviets now undoubtedly command formidable forces, but not sufficient to warrant an attempt to advance both east and west. Against the likelihood of an attack on Poland, which, it is said, would be popular with the Red generals, is the fact that the bolshevik flanks would be exposed on the north to an attack by the Letts and on the south to an attack by the Roumanians.

British Fear Eastward Move.

The semi-official statement issued at London today seems to indicate that the British government is more apprehensive of a move eastward, threatening India.

All these possibilities will be discussed by the important conference assembling at Paris.

It is perhaps significant in connection with possible bolshevik activities in the middle east, and the attitude of the Moslem populations generally toward England, that, whereas a fortnight ago it was stated that Premier Lloyd George had been victorious in carrying the British view in favor of excluding the Turks from Constantinople and removing the capital of the new Turkey to Asia Minor against the wishes of Premier Clemenceau and the French statesmen, who wished to retain the Turks in Constantinople, it is stated now that the French view is prevailing in the Paris conference.

Removal of the caliphate from Constantinople would produce a strong anti-British feeling throughout the Moslem world.

English Press Divided.

The British press is sharply divided into two divergent lines in connection with the government's treatment of the bolshevist question.

One section, strongly anti-bolshevik, sharply attacks Premier Lloyd George, charging him with responsibility for the weakening of the causes of Denikine and Kolchak by dalliance with Prinkipo conference ideas and various bolshevik overtures. These papers also take the line that Germany is behind and in conspiracy with the bolshevik maneuvers.

The other section, representing the policy of nonintervention in Russia, attributes all the troubles to Mr. Churchill, the secretary of war, and military influences. It charges the government with indulging in wholesale propaganda to misrepresent the Russian situation, and argues that the government made a distastrous mistake in refusing to negotiate peace with the soviets.

Bolsheviki Menace Britain.

Within the next three months, says a long semi-official statement, Great Britain may be faced with a serious bolshevist situation in the near east, which would mean military commitments.

The bolshevist occupation of trans-Caspia may be regarded as virtually complete, which makes the position in the Caucasus most difficult from an anti-Red viewpoint. If they succeed in overrunning the Caucasus they will be able to join Mustapha Kemal Pasha [head of the Turkish nationlists] and other Turks for Mesopotamian aggression.

Likewise, Red occupation of trans-Caspia gives the bolsheviki a base for operations against Persia and extending to India, with the coöperation of Afghanistan.

Daghestan Is Helpless.

Daghestan is even more helpless than Georgia and Azerbaijan. Numerous Turks are also penetrating into the Caucasus from the south, with the object of fomenting trouble.

The difficulties in Mesopotamia appear by no means finished. Ramadan Shalash, one of the leaders, continues his efforts to stir up the tribes in the British area, and has threatened an attack in case of noncompliance with his demands for evacuation of certain districts. The British Gen. MacMunn has dispersed Ramadan's forces which had crossed into British territory.

Reds Open Propaganda Schools.

The Reds have opened fifty propaganda schools at Tashkend, where oriental languages will be taught and from which Red agents will be sent to India and China and all the Moslem countries. The Tashkend soviet recently determined to concentrate all its efforts first on India.

Vladivostok appears to be quiet, although a general strike is in progress.

GEN. BLISS WARNS U. S.

Washington, D. C., Jan. 15.—[Special.]—Gen. Tasker Bliss, who was a member of the American peace commission, appeared before the house ways and means committee today in advocacy of the bill authorizing credits totalling $150,000,000 to central European countries for the purchase of food.

Discussing military aspects of the situation Gen. Bliss said it was important that sufficient food should be furnished Poland in particular in order to keep up the morale of that country which forms "a bulwark to stem the tide of advancing bolshevism."

Secretary of War Baker also indorsed the treasury department's program for supplying food for the starving people of central Europe.

Says Reds Have Strong Army.

Gen. Bliss said that the bolshevik army available for an invasion of Poland totals 1,200,000 men who are well trained and well equipped. Against this, he said, Poland now has less than 500,000 men in the field, with a prospective total of 710,000 by the coming summer.

"The situation in Poland is such that, notwithstanding the enthusiasm of the nation, the people cannot withstand bolshevik influence if overrun by force of arms," said Gen. Bliss.

Gen. Bliss declared that the United States in granting food relief should make a condition that the allies furnish military supplies to Poland.

Representative Longworth asked if the food relief would be forthcoming from other nations if the United States failed to furnish it. Gen. Bliss replied that this was doubtful.

Central Europe "Wobbly."

"Just now it is necessary for us to maintain the morale of the Polish people," said Gen. Bliss. "The allies will have to furnish supplies. The attack by the bolshevik army is speculative. All the nations of central Europe are in a very wobbly condition, and it would not take much to bring on a general war."

Secretary Baker said the state department had asked him within the past twenty-four hours whether military supplies could be furnished Poland by the United States. He said he had replied that he would recommend such action.

BALTIC STATES ENVOYS MEET.

HELSINGFORS, Jan. 14.—[Delayed.]—[By the Associated Press.]—Representatives of Esthonia, Letvia, Lithuania, and Poland have arrived in Helsingfors to participate with Finland in a conference which is expected to have an important effect on the Russian situation.

The principal aim of the conference is to discuss organization by all five states of a defensive alliance against Germany. The correspondent is informed that Finland will not be a party to the second project, believing that, owing to her geographical position, she has nothing to fear from German encroachment in the Baltic.

SAYS REDS GAIN IN HOLLAND.

New York, Jan. 15.—Communism is gaining in Holland at the expense of the Socialists, Dr. Adriaan Jacob Barnouw, Queen Wilhelmina lecturer at Columbia university, said tonight on "Political Parties in Holland."

Recruits are flocking to the Red standard from all classes of society, including the professions, Dr. Barnouw asserted, two university professors and Holland's "most gifted poet," Mrs. Roland Holst Van Der Schalk, being members of the Communist party's executive board.

Promise of a bolshevist Utopia is not taken seriously by other Hollanders, the speaker said.

LIQUOR RUSHED TO NEW HAVENS AS 'WAKE' NEARS

One Robbery Reported in "Moving Day" Rush.

Yesterday was moving day for John Barleycorn.

Last night the loop hummed with traffic. Trucks loaded with camouflaged wet goods backed mysteriously out of alleys and sped around corners, followed by taxicabs containing square-jawed men, sometimes believed to be government agents following Old Man Booze to his final destination, sometimes said to be armed guards protecting the truck drivers from being robbed of their precious cargoes.

But, despite all precautions, reports of booze robberies continued to arrive at police headquarters.

There was Charles Niemeyer, a truck driver employed by Frank L. Retzke of 2904 Fullerton avenue, who said he was robbed of fifty packages which he was hauling from the Roehling company at 129 West Lake street, to the Rainbo Gardens. Niemeyer said each package contained a small cask which he believed to be filled with wine. He said three armed men held him up and drove the truck away.

Retzke, who later found his truck, empty, at Eighteenth street and Canalport avenue, said he didn't know what Niemeyer was hauling.

"Didn't expect any booze here," said a man who declared he is the manager of the Rainbo Gardens and gave the name of Jackson.

Get Liquor from Vaults?

But most of the activity centered around the Fidelity Safety vaults at 116 West Randolph street, near the Hotel Sherman. For several hours trucks backed up in front while relays of men carried out packages. Each package was of a size to contain six quart bottles of whisky. Four men, who looked like federal agents, and who said they were "just keeping an eye on Randolph street," watched the proceeding and a taxicab trailed off in the wake of each truck.

Earlier in the evening members of Lieut. Hughes' auto squad had stopped a truck loaded there with fifty-six cases of liquor and ordered it driven around to the detective bureau. The truck belonged to Ahlborn Brothers of 2272 Logan boulevard. Max Stern, head of the Stern Wine company, appeared at the bureau and said the liquor had been bought before July 1 by Alfred K. Foreman of Foreman Brothers' bank, and was being moved to his residence at 1205 Madison park. The truck was allowed to go on its way.

There had been a great deal of activity in the alley back of the Hotel Sherman for several nights. On Sunday night a truck backing up behind the detective bureau made so much noise Chief Mooney sent several men to investigate, and they ordered the driver out of the alley.

Cut Hole Through Wall.

Bricks had been removed from the alley wall and a hole made, through which the liquor could be passed. Frank W. Behring, manager of the Hotel Sherman, explained the "hole in the wall."

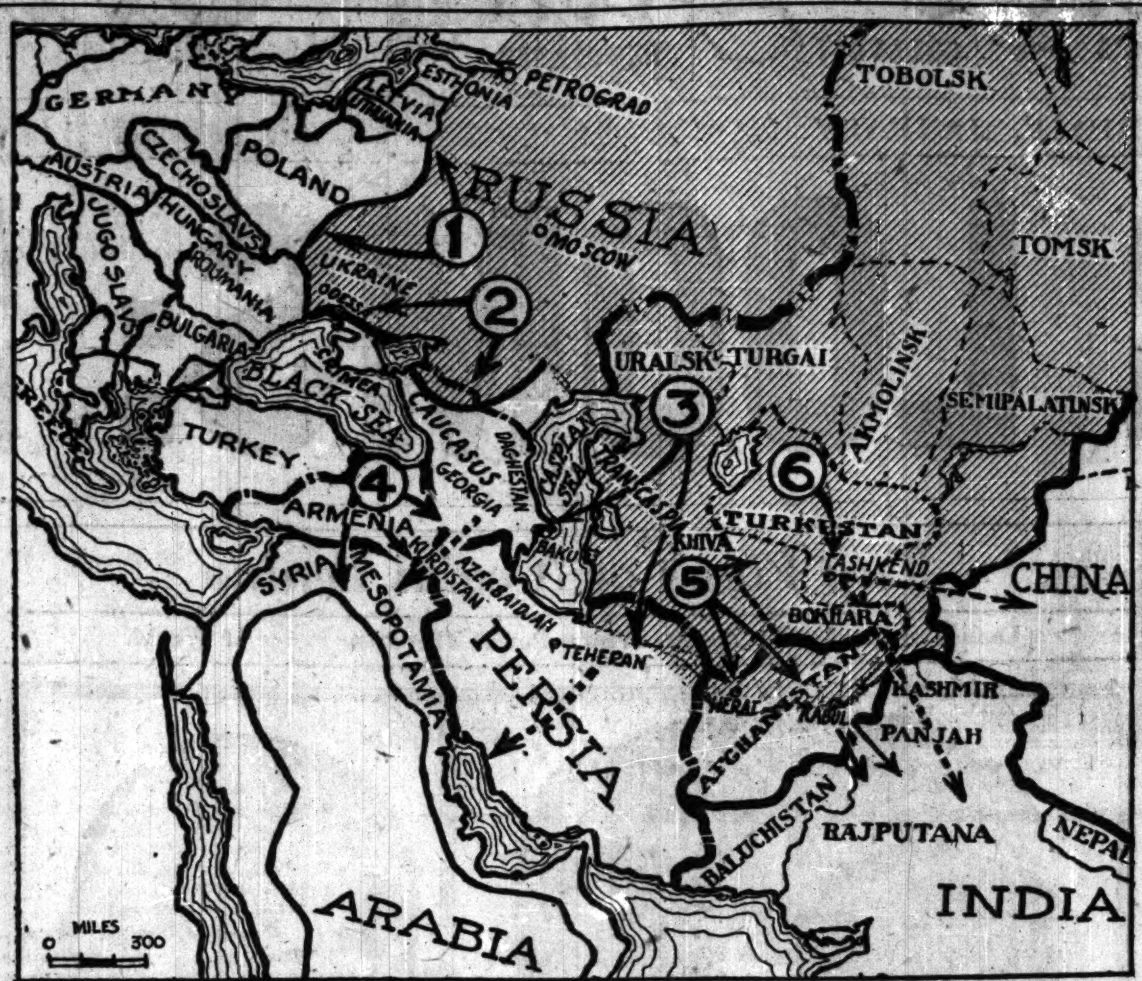
"Under the government ruling, all this liquor had to be removed, and we cut the hole to facilitate things," he said. "It was all moved under federal supervision."

There were about seven limousines in the alley, and among those recognized as supervisors of the loading process were William Weinstein, owner of the Loyal hotel; Samuel Cohen, owner of the Astor hotel, and Maurice Van Bever, former resortkeeper in Twenty-second street and Burnham, convicted panderer, and present proprietor of a Michigan avenue hotel.

Asks William Loeb to Manage Wood's Campaign

New York, Jan. 15.—[Special.]—William Loeb, formerly secretary to Theodore Roosevelt when the latter was president, has been asked to become the eastern campaign manager in the movement to obtain for Maj. Gen. Leonard Wood the Republican nomination for president, it was learned today. Mr. Loeb's acceptance, it was said, had not been definitely obtained. The selection probably will be made tomorrow or Saturday.

HOW BOLSHEVISM THREATENS WORLD WAR



1—The allies and the United States have awakened to the danger of a Red Russian invasion into western Europe and believe Poland will be called upon in the near future to bear the shock of the growing power of Lenine and Trotzky. The bolsheviki are now victorious on all fronts.

The only immediate assistance that could come to Poland would be from the Letts on the north and the Roumanians on the south. On the other hand, the disturbed conditions of Germany form a serious menace in the rear of the Polish barrier against the Russian reds. Hence the importance of sustaining the Poles, as emphasized at Washington, London, and Paris.

2—Denikine's shattered forces are fleeing into the Caucasus, while a small remnant is penned in around Odessa and in the Crimean peninsula. When these fall the Reds will be on the Black sea.

3—The bolshevik conquest of Trans-Caspia is complete. The British are facing the serious prospects of another war. The Reds are pushing into Persia with their eyes on Mesopotamia and India.

4—Enver Pasha, king of Kurdestan, is reported to have gone over to the bolsheviki. Trouble is already in progress between the Turks and British in Mesopotamia.

5—Of graver import still to the British ae the Red preparations against India. They are pushing into Khiva and Afghanistan. The Afghans are at present fighting on the Indian border.

6—The Reds have established a series of schools in Tashkend, from whence propagandists are being sent into India, China, and all Moslem countries.

LIQUOR'S KNELL TO TOLL IN U. S. AT MIDNIGHT

Last Rites Mirthless, Though Law Nods.

(Continued from first page.)

all the ten districts, except the New York district, have established their organizations.

Mr. Kremer added that, although he looked for violations, he thought the country as a whole would accept constitutional prohibition and obey the law. A prohibition director will have charge of the legal use of liquor in each state, keep check on the doctors and druggists, and have charge of all the permissible uses of liquor under the Volstead enforcement act.

Mr. Kremer took exception to the popular belief that under constitutional prohibition there will be a steady run on the doctor's office for prescriptions and a line waiting in front of the drug store.

The ordinary citizen can obtain liquor in only one way—by a physician's prescription. Mr. Kremer said this method had been so arranged and hedged in that no one will be able to take much advantage of it. The physician is permitted to prescribe for the same individual only one pint every ten days.

Bonded Liquor a Puzzle.

In the guarding of the bonded warehouses, where approximately 40,000,000 gallons of liquor are stored, Commissioner Kremer admitted that the enforcement officers had a problem. Just what will become of this liquor is one of the unsolved questions of national prohibition.

Provision has been made for exporting it for nonbeverage use; and, of course, it can be withdrawn and sold through prescription and for sacramental purposes. Prohibition officers have estimated, however, that the demand from the druggists will never be sufficient to exhaust the supply on hand.

There has been talk of purchase by the government, but members of the house ways and means committee have not looked favorably upon an expenditure by the government in that direction.

WASHINGTON NEWS —IN BRIEF—

BY ARTHUR SEARS HENNING.

J. BARLEYCORN'S N. Y. FRIENDS NO FUNERAL PIKERS

New York, Jan. 15.—[Special.]—Nearly every big hotel and restaurant in New York was active today in preparations for the final obsequies of John Barleycorn. They will not be the first ceremonies to mark his passing, for there was one Wednesday night and at least three big ones tonight.

Typical of the wakes tonight and the night before was the Cinderella ball at the Café de Paris, formerly Rector's. Ten dollars a cover was collected in advance, and when dawn came there wasn't enough salable alcohol left in the place to jingle a six year old child. Actresses, motion picture and stage folk predominated among the mourners.

Tonight at Reisenweber's, in "Paradise," several thousand mourners participated in "John Barleycorn's funeral ball." Invitations to this $5 a cover affair were edged with mourning borders, and invited attendance in connection with the "last rites and ceremonies attending the departure of our spirited friend." The souvenirs for the women mourners were small vanity cases in the form of coffins.

Trail Wavering Steps and Trap "Moonshiner"

"It isn't right," said Detective Sergeant Clancy to Detective Sergeant Boss. He indicated a wavering trail through the snow. It led them to 1417 Clybourn avenue. Up two flights they paused before the door of the apartment of Jacob Weiss. In a closet they found a still, a quantity of raisin mash and a quart bottle nearly full of "white whisky." It was taken to the station with Weiss.

"HINKY DINK" TO SELL CANDY; NEED MORE BE SAID?

Last Wet Hopes Shrivel on Amendment Eve.

Ald. Michael Kenna, known the world over as "Hinky Dink," announced last night that his Workingmen's Exchange, once America's most famous bar and the home of the tallest and coolest, will breathe its last at midnight tonight simultaneously with John Barleycorn.

His other saloon, the "swell buffet" of history, is to be changed into a candy store, with soft drinks, sandwiches and cigars as side lines.

"Shades of Chesterfield Mackin!" commented the alderman. "Ain't it hell?"

Wet Staff Is Gone.

This was after the greater number of the eight bartenders, four porters, and two managers, comprising the staffs of both places, had been paid off and had drifted out with his final message: "Here's what's coming to you. It's all off."

With one foot resting on the bar rail, the "little fellow" talked reminiscently of his thirty-five years in the saloon business.

"I can look back with pride on the way I have run my places.

"I have never allowed women to enter and drink. I have never allowed music in my places, with the exception of a victrola.

"I'm going to keep this place, where the rent is $500 a month, because I've got to have a sort of hangout for my friends. But the Workingmen's Exchange, which I opened twenty-three years ago, will be closed.

"I don't know how the chocolates and ice cream cones will go with the boys, but we'll have to get used to the new order of things. I can imagine Chesterfield Mackin and Henry Carroll coming in and ordering two banana splits. Wow! Wow!"

Loop Is Quiet.

And if there was sadness here, everywhere in the loop were signs of defeat. The night before the last night was dismal.

The Celtic bar in the Sherman house was deserted and dark.

Righeimer's, the most luxurious of them all, was lonely and dim. Two white coated gentlemen stood around. They had heard that a drug store may soon displace the bar.

Stillson's, well known from Fleet street to Blood street, Yokohama, is a coffee shop.

You will get a laugh when you pass Moran's on Randolph street. It has ben there since 1883. On the window is a gigantic picture of a doughnut.

Dan Lane has decided to open a lunchroom.

San Francisco Delays.

San Francisco, Cal., Jan. 15.—There are several books in San Francisco library on brewing liquor with a "kick" to it, but they will not be removed unless the government demands it, Robert Rea, city librarian, announced here today after being advised that other city libraries had "banned such books." "The whole question of alcohol might be affected, and we would be in danger of losing our fine chemical library," Rea said.

HERE'S THE OFFICIAL BOOK OF ETIQUETTE ON BOOZE QUESTIONS

TO settle all arguments and relieve all anxieties, here are the official rulings announced last night by Commissioner Roper, head of the entire national prohibition enforcement establishment, on how to protect your private stock:

It is not only unlawful to sell liquor for beverage purposes, but such liquors cannot be exported or transported for such purposes.

Intoxicating liquors for beverage purposes or export must be outside of the territory of the United States on the date when the eighteenth amendment to the constitution takes effect.

Persons may have intoxicating liquor in their private dwellings, used as dwelling places only, for the use of their families and bona fide private guests being entertained therein.

Persons desiring to dispose of intoxicating liquors stored in warehouses should apply to the collector of internal revenue or federal prohibition director for permits to sell for nonbeverage purposes.

Persons having intoxicating liquors to sell for nonbeverage purposes, who have given the required bond and obtained a permit, must report on or before Jan. 27 the kind and amount oof intoxicating liquor on hand on Jan. 17.

Persons having intoxicating liquor in private dwellings, for legal use in such, will not be required to report the amount.

If intoxicating liquors are found in storage warehouses or places other than private dwellings after Feb. 1, 1920, and report of them has not been made by the owners, such possession will be prima facie evidence of illegal possession.

All hotels and restaurants possessing liquor held for service or for beverage purposes, in contemplation of the ban being lifted, will be required to make a full report.

If a person has two private dwellings, he may possess liquors in each place, provided the dwellings are his bona fide places of residence and occupied so by him, although at different times.

If private dwellings are changed, liquor may be removed, under special permit, with other household effects, to the new residence, provided there is no conflict with state laws.

If a person lives in an apartment house, hotel, or boarding house, and such place is his bona fide residence, he may possess intoxicating liquors, provided they are held in a place such as his room or locker, over which he has complete control.

WORKER KILLED ON WAY HOME.

The body of Harry Jox of 145 Lincoln avenue, Dolton, Ill., was found early yesterday morning at the intersection of the Illinois Central and Pennsylvania tracks in Riverdale. The police believe he was struck by a train while on his way home from work at the Asbestos Shingle company. Frank Robins, a neighbor, found and identified the body.

LOOT AND RUIN OF A. E. F. GOODS SHOCK EUROPE

About $400,000,000 in Food and Clothing Lost.

BY HENRY WALES.
[Chicago Tribune Foreign News Service.]
[By Special Cable.]
[Copyright: 1920: By the Tribune Company.]

PARIS, Jan. 15.—While Vienna and the rest of central Europe are on the brink of starvation and the children are dying like flies of the cold, a staggering scandal involving some of the highest personages of the government is being kept in the shadows in France.

The affair involves the vast supplies of food and clothing which the A. E. F. sold to France at a price of $700,000,000—about half of which, it is said, has been stolen, while much of the remainder has been left to rot.

Rush Deal Through.

There was so much of a rush—the Americans were so anxious to get home, and the French were in such a sweat to get demobilized, that there was no checking off of material when the deal was consummated. The American authorities turned over bundles of inventories covering all camps in France and said:

"Here is a list of stuff in every camp. Check them off and you will find that they are pretty near correct. If there is a minor discrepancy here and there we will rectify it."

But the French government did not begin an immediate checking off of the American inventories. They made no attempt to ascertain the correctness of the American lists. In purchasing today at the big ex-American camps, the French salesmen usually check off the supplies in stock from the old original American inventories.

Looting of Camps.

From the minute that the Americans turned over their stocks to the French, and from the moment that the American guards, with their bayoneted Springfield rifles and their big Colt automatic pistols, were relieved, the systematic looting of the camps commenced.

Automobiles, motor trucks, sacks of sugar, sacks of salt, typewriters, cases of canned goods, everything practically that was left behind, began to disappear. The Annamite and Senegalese guards were doubled, but a package of cigarets satisfied their conscience.

And French officers became mixed up in the affair. They headed bands of thieves—in which there were and are a certain number of American deserters, who robbed the camps.

Fall of Mangin.

Gen. Mangin found that stolen motor trucks laden with stolen foodstuffs were being driven into Germany on forged passes and the contents sold at fabulous prices.

Gen. Mangin found that certain French officers were providing the camouflaged crooks—who were in French and American uniforms—driving the motor trucks with passes across the frontier. The officers were locked up. They summoned an influential lawyer from Paris. This lawyer is said to have obtained a card of introduction to Gen. Mangin from H. Mandel, private secretary of Premier Clemenceau.

The lawyer, M. Datchery, explained to Gen. Mangin that he wanted to talk over the case against the wealthy officers and to arrange for their release.

Gen. Mangin replied that the matter must take the usual channels.

The lawyer bowed himself out, returned to Paris, and, it is said, told his sad story to M. Mandel, who repeated it to M. Clemenceau. A couple of days later Gen. Mangin was relieved of his command.

Foch's Choice Crossed Off.

A few days later, when the supreme council decided to send an interallied military mission to the Baltic provinces, Marshal Foch named Gen. Mangin as the French officer, but M. Clemenceau, it is said, struck the name of Mangin off the list and substituted that of Gen. Niessel.

Meanwhile, the commerce of stolen foodstuffs from the American camps carried in stolen United States army motor trucks, goes on merrily, the crooks usually passing by the Cologne or Strasbourg bridgeheads, nowadays.

Not only is the loss due to theft running into millions of francs, but such stocks as are left are going to ruin through rot and rust. Thousands of automobile inner tubes and shoes are ruined through being left in alternate rain and sunshine. This loss runs into several million of francs.

Americans who have visited the camps recently and are acquainted with the situation assert that, when it comes time for France to pay for the stocks that she purchased from the United States, efforts will be made to show that the material was already half ruined when it was turned over to the French. The Americans say that if necessary they can prove the falsity of this charge, by testimony from French civilians who lived near the camps, and from French soldiers who were employed to aid the Americans in the huge warehouses.

HOOVER SAYS HE IS NOT CANDIDATE FOR PRESIDENT

Washington, D. C., Jan. 15.—Herbert C. Hoover is not an active candidate for president.

He made this clear in an interview today when asked about the speech of Julius H. Barnes in New York saying Hoover is a "progressive Republican" and is receptive to a presidential nomination.

"Will you give your opinion of Barnes' speech?" Hoover was asked.

"No," he replied.

"Are you a candidate for president?"

"I am not going to discuss that subject any more," Hoover answered, with some heat and much emphasis on "not."

"It has been less than a week since I said I was not a candidate for president, and it seems unnecessary for me to talk about it again." He added: "I don't think I am required to state every few days that I am not a candidate."

"Was Mr. Barnes correct in saying you are a progressive Republican?"

"I don't care to say anything about that."

CIVILIANS RULE ALL RHINELAND BUT U. S. AREAS

Order Now Restored in Berlin.

COBLENZ, Jan. 12.—[By the Associated Press.]—[Delayed.]—Military control of the occupied areas of Germany, excepting the zone held by the Americans, passed today into the hands of civilians, the inter-allied Rhineland high commission becoming the governing power, according to the terms of peace, with headquarters at Coblenz.

In every town and city of the Rhineland the proclamation and ordinances of the high commission were posted this morning, giving notice to the Germans that the commission, under the presidency of Paul Tirard, of France, is the supreme representative of the allied governments in the regions occupied by the armies.

American Troops to Stay.

In the American region, which must remain technically at least under the armistice status until the United States senate takes definite action on the peace treaty, ordinances were published in the form of a general order from the commander of the zone, Maj. Gen. Henry T. Allen.

The program of the commission will be carried out by the Americans conforming with the other occupied areas of the Rhineland through coöperation between the commission and the American military command.

New Uproar in Assembly.

LONDON, Jan. 15.—Disorderly scenes occurred again yesterday morning in the national assembly when Deputy Kahnler attempted to deliver a speech regretting the incidents of Tuesday, according to a Berlin dispatch to the Exchange Telegraph. The independents constantly interrupted him.

An attempt had been made, Herr Kahnler declared, to put the parliament, elected by the most democratic method in the world, under the dictatorship of the street agitator.

If the people of Germany now realized how disastrous the tyranny of minority rule would be, he said, the blood shed on the previous day—the first since the ratification of the peace treaty—would not have flown in vain.

The independents thereupon created a further disturbance.

Berlin Quiet Again.

Berlin agitators were quiet yesterday, according to another dispatch from the German capital. No disorders are reported outside of Berlin. The large factories were working normally and street car and rail service were not interrupted.

Strong indignation is expressed in every branch of industry at the unscrupulousness of the independents, the dispatch adds, because the leaders hid while the masses were driven forward to face the guns of the soldiers.

R. J. Collier's Net Estate $202,194 After Payments

New York, Jan. 15.—[Special.]—Robert J. Collier, owner of Collier & Son, publishers of Collier's Weekly and other publications, who died suddenly at his home, 1067 Fifth avenue, on Nov. 8, 1918, the day he returned from France, left a net estate of only $202,194 instead of $5,000,000 as estimated soon after his death.

SPONSORS FOR LEAGUE OF NATIONS

PARIS, Jan. 15.—The league of nations will come into being tomorrow morning at 10 o'clock at a public ceremony to be held in the "clock room" of the French foreign office. Leon Bourgeois, the French representative, will preside and make the opening address. Earl Curzon of Kedleston, British secretary of state for foreign affairs, also will speak.

Hugh C. Wallace, American ambassador to France and American representative at the peace conference, will not attend.

Besides M. Bourgeois and Earl Curzon, the meeting will be attended by Vittorio Scialoia, Italian foreign minister; Premier Venizelos of Greece, Paul Hymans, Belgian foreign minister; Count Quinones de Leon, Spanish ambassador to France; Viscount Chinda, Japanese ambassador to Great Britain; Dr. Alfonso Costa, Portuguese peace delegate, and Dr. Gastoa Da Cunha, Brazilian ambassador to France.

Press comment on the meeting dwells Principally upon the absence of the United States from this entry into the realization of President Wilson's chief aim in the peace conference. Most of the newspapers of Paris predict this absence will not be of long duration, and say:

"The league of nations cannot be complete until America is represented."

ALLIES PREPARE FOR PLEBISCITE OVER SCHLESWIG

Chicago Tribune-New York Times Cable.
[Copyright: 1920.]

COPENHAGEN, Jan. 15.—Prussian rule in Schleswig has now practically ended with the arrival of entente ships at Flensborg. The gendarmerie has been replaced with a new corps of young men of Schleswig, commanded by a Danish captain, the author, Daniel Brunn. German county judges have been removed and Danes put in their places. Many meetings, however, will be held, and a test election will occur before the voting. Collection of money for this work has begun.

Next Sunday the international plebiscite commission will depart for Flensborg by a special train, while its clerks and office people are all ready today aboard the French cruiser La Marseillaise.

Germans Evacuating Silesia.

BERLIN, Jan. 15.—The German troops began to evacuate Silesia yesterday.

"TIGER" ACCEPTS NOMINATION FOR THE PRESIDENCY

PARIS, Jan. 15.—Premier Clemenceau has accepted nomination for the presidency of the republic, it was announced tonight.

M. Clemenceau formally authorized his supporters to place his name before the plenary caucus of the congress of Versailles tomorrow, and promised that, if elected, he would accept the mandate.

Supporters of the premier immediately decided to order ballots printed bearing M. Clemenceau's name. These will be distributed among the voters at Versailles on Saturday when the assembly convenes.

Tonight's announcement was the first definite information that Premier Clemenceau would stand as a candidate, although it had been assumed generally that he would run for the office, or at least would not refuse to serve if elected.

One of the supporters of M. Clemenceau told the Associated Press that the premier would have refrained from a public declaration had there been no opposition to his candidacy.

FRENCH SAILORS, LACKING BREAD, RIOT AND MUTINY

LONDON, Jan. 15.—A wireless dispatch from Berlin says that riots and mutinies have started among the French naval forces and troops at Toulon, the military and naval port of France on the Mediterranean. The uprisings were caused by insufficient bread supplies, the message asserts.

Forestry Body Gives Allies 35,000,000 Seeds for Trees

Boston, Mass., Jan. 15.—Thirty-five million tree seeds were formally presented to France, Belgium, and Great Britain by the American Forestry association here today. They were accepted by the consuls of the three countries, and will be used in the devastated areas and English forests chopped down for war purposes.

Two Available Candidates for German Envoy to U. S.

SINN FEIN HELPS POLICE SMASH IRISH CRIMINALS

[Chicago Tribune Foreign News Service.]
[By Special Cable.]

LONDON, Jan. 15.—Remarkable word comes from Ireland that the Sinn Fein executive at Cork has organized voluntary patrols to help the police suppress crime committed under the pretext of political motive. This is a direct contradiction to the hitherto expressed policy of the Sinn Fein in regard to the police of the army of invasion, whose lives are forfeit. Undoubtedly it is due to the rising protest of the moderate Irishmen against the breakdown of all ordinary guarantees of law and order resulting from the political disturbance of the country.

Already Sinn Fein patrols have handed over to the police a gang of hooligans and crooks, and have supplied the police with information on which prosecutions can be based.

The moderates are alarmed by the recent attacks on police barracks, and are demanding the Sinn Fein adopt a new policy on threat of defeat at the municipal elections taking place today.

JUGO-SLAV CHIEF REJECTS ALLIES' FIUME SOLUTION

Rail Corridor to Italians Angers Baltic Envoys.

BY HENRY WALES.
[Chicago Tribune Foreign News Service.]
[By Special Cable.]

PARIS, Jan. 15.—M. Trumbitch, chairman of the Jugo-Slav delegation, when interviewed today said:

"The Jugo-Slavs cannot accept the new proposals which give to Italy a corridor between Volosca and Fiume, paralleling the Fiume-Laybach railway. President Wilson rejected this proposals last November, when Tittoni presented it, and we count on him rejecting the Nitti plan equally.

"The Italians have made further concessions, consenting that Fiume be internationalized under the league of nations, but we insist that Susak remain Jugo-Slav, and that Baros harbor of Susak, which is a great wood exporting port, be Jugo-Slav also. We insist the Zara region be Jugo-Slav, with the port autonomous.

Prince to Demand Rights.

"The crown prince of Serbia is en route from Belgrade to insist upon our rights. We telegraphed the latest proposals to Belgrade for Davidowitch and the cabinet to act on, but we are positive they will refuse to accept the grant to Italy a strip along the littoral from Istria to Fiume. We stand upon the Wilson line, which the President drew last spring, and which he so far has stood by."

It is understood that Secretary Lansing has replied to Ambassador Wallace, rejecting the new plan for Fiume unless the Jugo-Slavs accepted it.

Up to Jugo-Slavs: Nitti.

PARIS, Jan. 15.—[By the Associated Press.]—The settlement of the Adriatic question now lies exclusively with the Jugo-Slavs, Premier Nitti of Italy informed the Associated Press tonight, as the agreement which was sent to Belgrade for approval yesterday shows that France, Great Britain, and Italy are in accord. It has been communicated to Washington, where it is hoped it will receive favorable indorsement.

Referring to the text of the compromise, Premier Nitti said that Italy offered to leave the port of Fiume and the railways at Sussak under control of the league of nations.

"The city itself," the premier added, "is absolutely Italian in its nature."

The Adriatic question had been much exaggerated in its importance in America, Premier Nitti believes. He does not fear interference in the settlement from the United States.

Hidden Plea to America.

"My relations with President Wilson," he continued, "have always been friendly. America desires peace as much as the other nations, and thus cannot leave the Adriatic question unsettled when three great powers are in agreement.

"The economic situation in Italy is much better than reported. Italy has a smaller war debt than any other belligerent, but public sentiment is irritated because the people feel that they went into the war with all the resources at their command, fought long and bitterly, and lost half a million killed, and they cannot understand why there is so much difficulty over a little barren rock in the Adriatic.

New Nation Called Friendly.

"France and England are bound by the pact of London. Italy might have held them to the pact, but preferred to waive many things and adopt a conciliatory spirit so as to arrive at a compromise which would satisfy the Jugo-Slavs. The Italian chamber and senate have never considered the Jugo-Slavs as enemies, but as friends whom Italy needs and with whom an accord must be made."

British Rail Men Accept Government Wage Offer

LONDON, Jan. 15.—Delegates of railwaymen's unions have accepted the government's offer in settlement of wage demands made by employés in the lower grades of the service.

The delegates of the railwaymen reported the decision to Sir Eric Geddes, minister of transport. Later their leader, Mr. Thomas, said:

"It is settled. It has been a difficult job, probably the most difficult of all our tasks."

DR. MACLAURIN, HEAD OF MASSACHUSETTS "TECH," DIES IN EAST

RICHARD C. MACLAURIN.

Boston, Mass., Jan. 15.—Richard C. MacLaurin, president of the Massachusetts Institute of Technology, died at his home here late today from pneumonia. He had been ill since Saturday.

Dr. MacLaurin was born in Edinburgh, Scotland, in 1870, and was educated in English schools, being graduated from Cambridge in 1892. He leaves his widow and two daughters.

The rise of Dr. MacLaurin to head of the institute was a sensation in the educational world in 1909. He was an unknown professor of mathematics at Columbia, having arrived from New Zealand two years before.

Calling upon one of the trustees of "Tech" in New York, on a matter unconnected with the institute, he so impressed the member of the board that he was soon offered the presidency. At the time, the board of trustees was scouring the country for an "eminent educator" for the presidency, one whose name would bring prestige and, what was needed still more, a leadership in the campaign for a large endowment for the institute.

When his name was first proposed to the other trustees, they refused to consider him. A meeting was arranged and they were won over. When Dr. MacLaurin was told of the necessity for raising large funds, he astonished the trustees by remarking that that could be easily taken care of. He said he would go into Wall street and he had no doubt about persuading the financial leaders to endow such a school as "Tech."

The magnificent new plant of the institute at Cambridge, Mass., built since Dr. MacLaurin became president, attests his success. Only a few days ago it was divulged that one of President MacLaurin's chief patrons, the "mysterious Mr. Smith," was George Eastman, head of the Eastman Kodak company of Rochester, N. Y., and that he had given $11,000,000 to the endowment fund of "Tech."

SEPARATE NEGRO STATE PROPOSED IN HOUSE HEARING

Washington, D. C., Jan. 15.—Establishment of a separate state under the protection of the United States for the segregation of the nation's Negro population was advocated before the house judiciary committee today by representatives of the Negro race. The committee is considering a resolution by Representative Mason, Republican, Illinois, providing for the appointment of a commission of nine persons to "outline a plan to promote more harmonious relations between races dwelling in the United States."

Dr. Moses Madden of St. Louis told the committee a state should be established along the Rio Grande river, on territory ceded by Mexico and the state of Texas, and that it should be inhabited and administered entirely by Negroes, under the general protection of the United States.

Dr. W. H. Wilson and Dr. Nevil Thomas of this city opposed the plan as tending too much toward race discrimination, which, they said, was already too evident, especially since the world war.

The Rev. R. D. Jones of Philadelphia advanced a plan for concentration of Negroes in Liberia.

HUNGARY HANDED TERMS OF PEACE; REPLY IN 15 DAYS

PARIS, Jan. 15.—The terms of peace for Hungary framed by the peace conference were handed to the Hungarian delegation today. The Hungarians were given fifteen days in which to present

The Hungarian peace treaty provides that Hungary shall formally waive claim to Fiume and all the former Austro-Hungarian territories awarded to Italy, Roumania, Jugo-Slavia, and Czecho-Slovakia.

Under the terms of the treaty the Hungarian army must not exceed 35,000 men, with guns of not more than ten centimeter caliber. Hungary assumes a proportional share of the Austrian debt.

BILLION GRAFT IN WAR BUILDING OF U. S. SHIPS BARED

20 Magnates Involved in Pacific Coast Yards.

San Francisco, Cal., Jan. 15.—Frauds involving more than $1,000,000,000 in connection with the building of ships for the government in Oregon, Washington, and California have been unearthed by government investigators. This became known today when William H. Tidwell, special agent of the treasury department, was appointed chief assistant to Special Assistant United States Attorney General Bert Schlesinger here.

The government, according to information from authoritative sources, is alleged to have been defrauded through shipyard conspiracies working by the payment of false vouchers for sums that shipbuilders obtained illegally.

Score of Magnates Involved.

Twenty or more shipbuilding magnates are understood to be involved in the investigation, which is said to have reached the stage calling for special federal grand jury sessions in the cities of Oregon, Washington, and California where shipbuilding plants are located.

Cost-plus contracts awarded by the government for construction of vessels during the war, by which the builders were allowed 10 per cent over what they claimed to be the cost of construction, were said today to have been the medium of the alleged frauds.

Assistant Attorney General Schlesinger is to leave tomorrow for Seattle, where, it is understood, the first federal grand jury sessions dealing with the reported discoveries of government agents working under Schlesinger will be held.

Silent in Washington.

Washington, D. C., Jan. 15.—Department of justice officials tonight admitted an investigation of financial transactions in Pacific coast shipbuilding had been ordered, but declined to indicate the nature of the evidence obtained.

The investigation, it was recalled, was instigated by former Chairman Hurley of the shipping board.

Information which came out piecemeal here tended to show that at least seven large shipbuilding corporations were involved in the alleged fraud. Their identity was not disclosed and probably will not be until federal indictments have been obtained and executed.

It is said that no reasons for investigating Atlantic and gulf coast yards had been presented thus far.

ROGER TO TAKE UNPLEDGED 58 TO CONVENTION

Chief Candidates to Keep Out of Illinois.

No hand to hand fight for the Democratic presidential preference vote in Illinois. That is the present agreement concerning the April 13 primaries. President Wilson is out. So is Attorney General Palmer. Likewise. William G. McAdoo. No one of the real contenders at Frisco next June will make a fight for the Illinois delegation.

There is nothing that can stop James O. Monroe, from Illinois, who has filed in South Dakota and who has challenged President Wilson under the South Dakota direct primary law to a discussion.

Monroe to Fore.

Mr. Monroe, undoubtedly, will file as a Democratic presidential aspirant. If no one of the principal candidates enters his name for the April presidential primaries, there is plenty of chance that Mr. Monroe can get the preferential Democratic vote in Illinois just as William Grant Webster won the Republican endorsement in Oregon for vice president in 1916.

The arrangement, as is well known on the inside of Democratic national politics, is that the fifty-eight votes will be at the personal disposal of Roger C. Sullivan. Mr. Sullivan will have the last word as to how the fifty-eight shall vote.

All Dodge Primaries.

Mr. Palmer and Mr. McAdoo have agreed to stay away from the Illinois primaries. This probably goes for Gov. Cox of Ohio. Mr. Bryan has no disposition to be a direct primary candidate in Illinois or elsewhere. He has said as much to Mr. Sullivan.

In such situation, Illinois Democrats will go to the Frisco convention practically uninstructed.

LOWDEN BOOSTED FOR PRESIDENT BEFORE IOWANS

Gov. Lowden was nominated for president last night by the Hawkeye club of Chicago in annual session at the Hamilton club. John Fletcher, vice president of the Fort Dearborn National bank, presented Gov. Lowden as the proper son of Iowa to be put forward for the presidency.

He mentioned George M. Reynolds, F. H. Armstrong, Fred Upham, John S. Runnels, Judge John M. O'Connor, Judge W. N. Gemmill and Ald. Guy Guernsey, and said this of Gov. Lowden:

"It is only right to start with our next president. Iowa has produced him in the person of our great war governor, the honorable Frank O. Lowden. Iowa sent him forth years ago that he might lead Illinois through the stress of the world war."

THE SENATOR TALKS

BY THE SENATOR.

"A THIRD party, I see, is cooking," says a Montana bird I met with a bunch of palaverers on "presidential row," as the printers call it, at the Congress.

"It'll be cuckoo for the cooks," says I. "The stew will never get out of the pot. When did a third party ever get anywhere? The strongest one we ever had was the Bull Moose in 1912. It had a popular idol, Teddy, for a candidate, social justice for a platform, 'Onward, Christian Soldiers,' for an anthem, and a wonderful collection of enthusiasts for a following—I didn't wear the red bandana myself. It was the greatest third party that ever came down the pike. Yet the most it could do was to bend the family crowbar over the noodle of the G. O. P. It couldn't win itself. The best it could roll up was eighty-eight votes in the electoral college, meanwhile handing the obesity cure to the Republicans and trimming Taft down to eight votes, while Woodrow Wilson toddled off with 435."

◆

"I see Hearst is boosting the idea," says Montana.

"Well, he's been a fairy godfather before," says I. "Remember the Independence party he launched in 1908. It blew up so high the pieces are falling yet. Out of nearly 15,000,000 votes cast Hisgen got less than 83,000. Even Chafin, the Prohibitionist, got three times that many, and the camel in the whole period of its existence has never copped a single electoral vote.

"Hisgen got just about as many votes as Peter Cooper did in 1876 on the Greenback ticket, another third party that fell dead in its tracks. And the gold Democrats in 1896—why, Palmer and Buckner didn't drag in enough chips to feed the kitty. They ran neck and neck with the Prohibs for tail end place.

"Remember the Pops? Recall how the sockless boys swept the ranges 'like a prairie fire?' It was the unrest phenomenon of its time. Yet in 1892 the best Weaver could do was to drag down 22 electoral votes in six states. There were 444 votes in the college. Yes, indeed, politics is strewn with the wrecks of third parties. They always find their bouquets are tied with crepe and their bandwagon nothing but a hearse."

◆

"D'ye think Hiram Johnson will be a third party candidate?" asks Uncle Dud of Milwaukee.

"They'd like him to be," says I. "I see Hearst is yelling for the labor party, the Irish-American organizations, and the Nonpartisan league and other uprisers and insurgers to unite in one party. And the Nonpartisan league in North Dakota is talking of Johnson and in Nebraska it is hooked up for him. Some predict both Johnson and Borah will be found in a third party camp. But it's all a guess. Right now the uprisers are looking for a rip snorting, fire eating bird to lead the uprising, and that's why they'd like to pin the job on Johnson. Will he fall for it? Don't ask me.

"Well, I've got to beat it. But paste this in your bonnet: a third party is always popular with the undertaker. You can't get anywhere in national politics by simply trying to capitalize a grouch."

G. O. P. FACTIONS OF 21ST WARD UNITE ON BURNS

Rival Forces Combine to Pick Committeeman.

Twenty-first ward Republicans last night perfected an organization that aims to elect James F. Burns as ward committeeman at the Republican primaries in April. Former factional lines were eliminated in the proceedings that led up to the selection of Mr. Burns at a session at 1246 North State street.

George F. Porter, treasurer of the Progressive national committee in 1912, was elected chairman of the organization. John H. Winterbotham was elected vice chairman. George W. Dixon, formerly with the Deneen organization, was made second vice chairman. Thomas J. Graydon, late chairman of the Progressive county committee, is third vice chairman. Frederic W. Upham, Republican national committee treasurer, is treasurer of the organization.

Marshall Field Secretary.

Marshall Field was made secretary. This was considered significant, inasmuch as Mr. Field's name had been suggested as a Democratic candidate for alderman.

Alexander H. Revell and Charles H. Hamill, delegates to the constitutional convention from the north side district; Mr. Upham, and Kellogg Fairbank spoke approvingly of Mr. Burns' record at Springfield and in the city hall.

Rival for Brundage Named.

Eugene H. Dupee, delegate to the constitutional convention and attorney for the board of local improvements, last night became a candidate for Republican ward committeeman in the Twenty-third ward against Attorney General Edward J. Brundage. This was agreed upon at a session of the city hall organization of the ward, which also indorsed Michael J. Faherty and Eugene R. Pike for national convention delegates from the Ninth congressional district.

Mr. Dupee originally was a Brundage appointee. It has been understood that he went to the constitutional convention through an agreement between the Brundage and city hall forces. Announcement of his candidacy against Mr. Brundage precipitates an unlooked for complication in the three sided factional Republican fight in Chicago. It is considered as rather conclusive that the city hall will enter into no harmony agreement with the other two factions.

Gov. Goodrich of Indiana to Try for White House

Indianapolis, Ind., Jan. 15.—It became definitely known here today that the name of Gov. James P. Goodrich will be placed on the Indiana presidential preference ballot, to be voted on at the primary in May. No announcement has been made by the governor as to his candidacy for the Republican nomination, and it is not expected that any formal announcement will be made.

POLITICAL NOTES

WANTED—JUDGES AND CLERKS OF election.

Chief Clerk James F. Sullivan of the election commission sent out a yip last night. There were 11,250 jobs as election officials open and only 8,250 have been filled. More than 60 per cent of those of the 8,250 who have qualified are women. Nineteen hundred and twenty business for the precinct boards opens on Feb. 3, with the preliminary registration for the aldermanic election of Feb. 24. The election board will start today to seek qualified men and women who will act as judges and clerks.

◆

Something definite from the proposed Republic harmony agreement is prophesied for today. The most significant dope, however, is that Fred Lundin, has said that "there will be nothing doing until we look over the filings for ward committeemen." All candidates for ward committeemen, Republican and Democratic, file their papers with County Clerk Sweitzer Feb. 13.

◆

Francis S. Peabody of Wheaton will be one of the four downstate delegates at large to the Democratic national convention at San Francisco. Mr. Peabody thus qualifies for the place on the delegation at large and as a candidate for United States senator as a downstate man. He lives in Du Page county.

◆

Wood headquarters yesterday issued a report of a poll of Colorado Republican newspapers, with this result: Wood, 34; Lowden, 10; Johnson, 5; Pershing, 3; Harding, 1; Allen, 1; Sproule, 1; Coolidge, 1.

◆

All of the sitting congressmen from the ten Chicago districts will be candidates for renomination. It is now settled that no one of them will have trouble for renomination, unless it be Tom Gallagher, in the Eighth district.

◆

DETROIT.—Gov. Lowden of Illinois in an address before the real estate men of this city told of the successful reorganization of the governmental machinery of Illinois. In two years the taxes have been reduced from 90 to 60 cents per $100 valuation despite high prices.

◆

NEW YORK.—"Nothing to say. What is there to say?" James W. Gerard replied when asked if he might be considered as a possible presidential candidate. "O, yes, I am still in the ring," he added.

◆

MINNEAPOLIS.—Herbert Hoover was indorsed for president by a large delegation of millers and grain men here. Most of the men who attended the banquet were said to be Republicans.

WILSON, BACKING CARRANZA, AIDS REDS, FALL TOLD

Senate Committee Invites Cabrera to Visit U. S.

San Antonio, Tex., Jan. 15.—Propagandists of bolshevism have spread their doctrine of radicalism from Sonora to the Isthmus of Tehuantepec within a year, the senate subcommittee investigating the Mexican situation was told today by an American traveling salesman. The witness begged his name be kept secret because he expects to return to Mexico.

Carranza, when forced to choose between two small armies in the south, one led by the federal commander and the other known as the bolshevik force, declared in favor of the latter, he assured the committee.

Striking laboring men in other districts, he said, were frank in their declaration of adherence to the radical cause and almost everywhere he went he found undisguised evidence of the success of the extremist agitators.

Consuls Purposely Deaf.

"I have told the American consuls in Mexico about the conditions," he testified, "but I could always note that they were averse to hearing the facts, and especially where it reflected unfavorably upon the Carranza government."

After commenting that "Mr. Wilson seemed to be hypnotized by Mr. Carranza," he added:

"If the American government should cease to support Carranza he would not last thirty days. The merchants and business men of Mexico want law and order, but they cannot hope for such while the bolshevik gang is upheld by the American government."

Corroborative testimony as to the general insecurity of American life and property was given in the stories of three attacks by bandits or government troops in which he had been caught.

It Pays to Be British.

On a recent occasion he and another American, he said, were removed from a train that rebels had attacked and burned. They were marched off into the hills and told they would be hanged. His companion escaped.

His own release he attributed to his reply when he was asked if he were an American. "Yes," he said, "I am an American of Scotch descent."

"What nationality are the Scotch?" asked the leader of the rebels. "They are British," he told them, and he was told he might go.

Dramatic accounts of their experiences were given the committee by Mrs. Mary Wright, Mrs. James A. Willis, and Mrs. Joseph C. Bailey.

The husband of Mrs. Willis disappeared while trying to get her out of the country.

Girls Hide from Mexicans.

The husband of Mrs. Wright died as a result of hardships. Mrs. Wright told how she and her daughters hid for weeks in a cane brake to escape the revolutionists, described their efforts to cling to their farm in San Luis Potosi, and finally their flight to the United States when word reached them that the state department had advised Americans to leave Mexico.

Matthew Warner, veteran of the civil war, told the history of the Atascador colony which he founded during the rule of Porfirio Diaz near Tampico. It was peopled by farmers from Nebraska, Illinois, Iowa, and Texas. A German and one American family remain on the property.

His account included reference to the murder of A. Burt and the serious injury of his father.

It was there the daughters of Matthew Gourd were attacked by Mexicans, who first roped their father in such a position he might witness their acts.

Cabrera Invited to U. S.

Senator Fall, chairman of the committee, today received the invitation to visit Mexico extended by Luis Cabrera, minister of finance in Carranza's cabinet.

The committee will not visit Mexico, and Senator Fall telegraphed Cabrera that the committee would be glad to have him appear before it and would pay his expenses from the border to any point in the United States.

COUNTY PAY ROLL TIED UP BY HITCH IN SALE OF BONDS

$2,000,000 Deal Held Up by Technicality.

A serious shortage in county funds which may temporarily tie up pay rolls resulted yesterday when it was discovered that the sale of $2,000,000 worth of road bonds, authorized Jan. 5 by the county board, is illegal. The Money was intended to meet Jaanuary pay rolls, and it was the plan to pay back into the road fund the equivalent amount out of taxes coming in early in the spring.

The bonds had been sold to the Northern Trust company and William R. Compton, brokers. President Reinberg had just affixed his signature to the final block of 100 when he was notified by Attorney Charles B. Wood that the issue was void because of a legal technicality.

The point raised was that the law provides that a tax levy to redeem county bonds upon their maturity must be made a year before the date of maturity.

Point Explained by Wood.

"Under our revenue system a tax levy is made one year in advance," read the Wood opinion. "The earliest moment that any of the taxes are available is March 10 of the following year, so that, if as provided, $250,000 of these bonds mature Jan. 21, 1921, there will be no money to pay them or the interest thereon because a levy should have been made in the year 1919.

"As it is now too late to make a levy in the year 1919, the easiest way out of the matter will be to amend the resolution of Dec. 8, 1919, so as to provide for dating the bonds April 1, 1920, and maturing beginning April 1, 1921."

President Reinberg announced the change to legalize the bonds will be made a special order of business at next Monday's meeting of the county board.

Gibbons Sees Way Out.

"We have a little money trickling in, and by puttting off corporations we may be able to meet the pay rolls," County Treasurer Gibbons said. "The county's tax money will not begin coming in for several weeks. I supposed the sale of the bonds was legal and thought we would be able to tide things over comfortably."

Kissing Act a Hit

Students of the Marshall and Bowen High schools starred in the drama yesterday. At the former school two plays—Oscar Wilde's comedy, "The Importance of Being in Earnest," and "Behind a Watteau Picture," a fantasy by Robert E. Rogers—were presented for the purpose of establishing a permanent school memorial fund and to buy a stage curtain. The Senior Dramatic club will repeat the plays on Saturday evening.

At the Bowen school in the afternoon nearly 500 grammar school pupils witnessed a performance of "Pirates of Penzance."

Marie Obarski as "Mabel, Gen. Stanley's daughter," and Paul Kettler as the pirate apprentice scored a hit in the kissing finale to their act, and the dancing girls attracted much attention. The performance was given at night before an adult audience.

The procedure objected to in Attorney Wood's report has been resorted to many times in the past to obtain money for immediate use for salaries.

One report had it that the Chicago Bureau of Public Efficiency was behind the move to block the sale of the bonds.

House Passes Postoffice Bill for $460,977,668

Washington, D. C., Jan. 15.—The largest postoffice appropriation bill ever presented, carrying $460,977,668 for maintenance of the department during 1921, was passed today by the house.

Provisions for continuing the existing airplane mail service after July 1 and for its extension were eliminated from the bill on a point of order by Representative Tincher, Republican, Kansas. The item carried $850,500 for purchase of airplanes and the extension of aerial mail routes through the south and to Alaska. Supporters of the aerial mail look to the senate to restore the provisions.

HOTELS JAMMED BY GUESTS WHO LIKE OUR CITY

Visitors Who Linger Crowd Out 'Regulars.'

Chicago's loop hotels are in a jam comparable only with national convention weeks. Prospective guests, old timers and regulars, see their baggage piled in heaps while they wait around for room assignments. Sometimes they get rooms. Mostly they don't.

Hotel managers have been forced to establish the "first come, first served" rule. All ordinary regulations that govern the vacation of rooms have been swept aside.

Conditions Surprise Hotel Men.

"We are up against an entirely new game," said Manager John Burke of the Congress last night. "Usually with our 1,000 rooms we figure on at least 200 rooms paying out during the day, and we face a $7,000 overhead each morning.

"Fewer than fifty a day, on an average, are paying out each day. That is the real reason for the present shortage. What we will do when the automobile show rush starts is more than I can say. We cannot take care of our regular customers now."

Hotel men are not warning people to stay away from Chicago, but the truth seems to be that a visitor takes serious chances in coming to town unless he has his sleeping spot properly nailed down in advance.

Talk of Asking Public Aid.

The situation became so serious this week that there has been talk of some sort of a community arrangement whereby homeless visitors, usually accommodated in the loop hotels, can get proper accommodations within striking distance of the loop.

In reply he asked us this question:

"Just what is a Residence Organ?"

We told him that to describe it in the fewest words possible, one might call it an orchestra in your home. It is, of course, a complete Pipe Organ. And the most delightful feature that anyone can imagine for a dwelling.

After this gentleman had purchased the Residence Organ he found it the principal attraction of his residence. He spends many of his evenings under the spell of its magnificent music, and it has become one of the colorful things in his life.

We should like to have all home lovers come to our Estey Residence Organ Studio, on the third floor, and hear a brief musical program.

It is idle to try to tell you how lovely are the strains of "Kamennoi-Ostrow" or "The Blue Danube"—and your favorite overture.

An informal request program will be given tomorrow afternoon at 2 o'clock. Why not be here? And if you have already been in touch with an architect, ask him to come with you to study the possibilities of this feature, which we believe will soon be recognized as a fundamental in modern dwellings.

A beautiful catalog mailed on request.

BLUMSON, BANKS' DEFRAUDER, DEAD, LAWYER THINKS

Slain for $15,000, or Suicide, His Theory.

To the theory that Herman J. Blumson, bogus philanthropist, reached a safe sanctuary when he fled Chicago on July 21, having defrauded four banks of more than $150,000, were added yesterday these:

That he was slain for the $15,000 in currency, which one of his two grips is believed to have contained.

That he committed suicide, or died naturally, keeping his identity hidden.

The new theories rest principally on the failure of the former president of the Star Cereal and Milling company to communicate with his family in Johannesburg, South Africa, on—so far as Merrick, Ames, Whipple, and Edwin Tice Peifer, attorneys for the Central Trust company, are aware—with any of his kinsmen in Chicago.

Letter Made Public.

Mr. Whipple made public yesterday a letter to Blumson, written in Johannesburg by his wife Nov. 8. It read:

"We are so worried about you, dear. Are you sick? We haven't heard from you in nearly nine weeks and we can't understand it, because, as you know, we are ready to leave whenever you send us our passports. Has anything gone wrong with your business? Perhaps you haven't money enough. But you know that the passage will be paid for here.

"Please, dear, write and tell us what is wrong. If you could know how terrible this uncertainty is! If you failed, or some other disaster has overtaken you, why don't you come home to us here in Africa?"

Certain He's Dead.

After Blumson boarded the Michigan Central train, which carried him to Detroit—the trail's end—Whipple said a surveillance of mails had been established here, from which two clews had resulted, one leading to Weehawken, N. J., the other to Winnipeg, Can. Neither had proved productive.

"I am convinced," said Whipple, "that Blumson is dead. The fortune he carried in his grip might have supplied a motive for murder. But the thing that impressed me, gathered from his correspondence, was his close family ties.

"He was more than fifty years old. Loneliness, long before this, would have driven him to communicate with some of his relatives, if he were living."

JURY FINDS NEW GUILTY OF SECOND DEGREE MURDER

Slayer of Freda Lesser May Go to Asylum.

Los Angeles, Cal., Jan. 15.—[Special.]—Harry S. New Jr. was convicted today of the murder of his sweetheart, Freda Lesser. A jury in Superior Judge Gavin S. Craig's court returned a verdict of guilty of murder in the second degree at 11:40 o'clock, breaking a deadlock of forty-four hours, after both sides had almost given up hope of an agreement.

Lecompte Davis, leading defense counsel, announced the verdict did not mean prison for New, but marked another phase in his fight for liberty. A motion for a new trial will be made Monday morning at 10 o'clock, the time set by Judge Craig for pronouncing sentence, Davis said. If the motion is denied an appeal will be taken to the state Supreme court.

Under the law New is liable to an imprisonment of from ten years to life. After ten years he is eligible to liberation through action of the state prison parole board.

The verdict contained a "rider" which in substance recommended a measure of clemency—that New be confined for a time in some state institution for observation as to his mental condition.

In response to a telegram sent by counsel for the defense to Senator New at Washington today, apprising him that his son had been found guilty, Senator New replied by telegraph that he will supply the funds to finance the fight for a second trial.

FIVE FOIL SEARCH AFTER FIGHT AND BANK DYNAMITING

Fifty Shots Fired, Two Hit at Steger.

Chicago police, the Indiana authorities and Chief of Police George O'Brien of Steger spent all day yesterday trying to get trace of the five safe blowers who shot Policeman Frank Glascow early in the morning after making two attempts to blow open the safe of the Bank of Steger.

For twenty-five minutes after they were discovered, the gunmen, armed with rifles and revolvers, kept the residents in terror by sweeping the streets and shooting through windows.

Blast Brings Watchman.

Glascow was brought from the city hall, a block away, on the run by the noise of the explosion of the first charge of nitroglycerin inserted in the safe. An automobile stood in front of the bank and a man was crouching in the snow under a billboard across the street. This man opened fire.

Two other men posted as lookouts in the street also opened fire and one of them was wounded by a bullet from Glascow's gun. Then the man under the billboard ran to the car, picked up a rifle, and took careful aim at the policeman. One bullet pierced his left wrist and another his abdomen.

Shoot Through Windows.

Mrs. Anton Wolf, who lives opposite the bank, turned on a light and a bullet crashed through the window. Another bullet smashed a window in the home of Thomas Norton. James Hoitont, a block away, raised a window and a bullet grazed his head.

Glascow staggered to the Hoitont home and tried to borrow a gun to finish the fight, but became too weak. Fully fifty shots were fired, while two men in the bank touched off a second charge. They had inserted a third charge, when they decided to give up the attempt, dragged their wounded companion to the machine, and drove away towards Indiana. It was found they had cut all telephone lines.

STUDENTS LEAN TO RATIFICATION WITH NO CHANGE

New York, Jan. 15.—Advocates of ratification of the peace treaty without amendment or reservation forged ahead today in the intercollegiate referendum.

More than 100,000 votes have been counted, cast by the students and faculties of 475 colleges and universities. Of these 46,250 were cast in favor of unreserved ratification and 33,304 favored ratification by compromise. The remaining vote was divided between 23,577 supporters of the Lodge reservation and 11,690 voters, who did not wish the treaty ratified in any form.

On request from Washington the intercollegiate treaty referendum committee, which is tabulating the returns here, telegraphed the results to date today to Senator Lodge and Senator Hitchcock. No returns will be received after tomorrow, and the final vote will probably be made public tomorrow night.

BRYAN WALKS RIGHT INTO DEN OF TREATY LIONS

Tries to Rescue Covenant on Senate Floor.

(Continued from first page.)

sponsibility on the Republicans for immediate action in case a compromise is impossible. We could appeal then for reinstatement of any essential provisions—by that I mean provisions that the Democratic party considers essential—which the Republicans cut out.

"If the Republicans refuse to agree to the terms that the Democrats think are the best that can be offered, and the responsibility is thrown on the Republicans for action, the Republicans would have to act, first, with the knowledge that the president might refuse to submit the treaty with reservations adopted, and, secondly, that the allies might refuse to accept the reservations after ratification.

"That is the risk that the Republicans have to take if they are allowed to have their way, and that is why they would be likely to go as far as they thought they could in the way of concessions, even if they could have their own way by the Democrats withholding their votes."

Daniels Blames "Hyphens."

New York, Jan. 15.—Charging that "hyphenated and un-American influences" have dominated the senate in its consideration of the peace treaty and the league of nations covenant, Secretary Daniels, in an address tonight at the Holland society dinner, declared the nation faces the danger of having the fate of the covenant decided not upon merit but through "fear of a foreign control in the vote." Pleading for solid, independent Americanism in all political issues, Mr. Daniels asserted that the reappearance of "hyphenated politics" when the league covenant was laid before the senate was the first time "this snake has crawled out of its hole since the armistice was signed."

"It did not emerge," the secretary continued, "until it was coaxed out by men who wave the flag, sing 'America,' and whisper to supposed disloyal Americans, 'Vote by race and language; keep organized as hyphens, and you can hold the balance of power in American politics.' If it could win now in the league campaign this insidious foe of Americanism would be encouraged to dictate on issues that might involve the destiny of the republic in the interest of foreign policies."

Lawyers Ask Action.

A resolution urging a speedy agreement between President Wilson and the senate on the peace treaty with Germany will be reported to the annual meeting of the New York State Bar association tomorrow by its committee on international arbitration.

DEMOCRATS IN DEADLOCK OVER SENATE LEADER

Washington, D. C., Jan. 15.—Democratic senators in caucus today failed to elect a leader. A deadlock on a tie vote developed between Senators Hitchcock of Nebraska, and Underwood of Alabama, and the caucus adjourned subject to the call of the two candidates.

Two ballots were taken and the count on each was 19 to 19, with Senator Smith of Georgia withholding his vote.

The next caucus will be held after Secretary Glass, appointed senator from Virginia, takes his seat. He is understood to favor Underwood.

U. S. CASE CITED AS PRECEDENT TO FIVE SOCIALISTS

New Yorkers Demand a List of the Charges.

Albany, N. Y., Jan. 15.—Precedent for the action of the assembly in suspending the five Socialist members pending the investigation by the judiciary committee to determine whether they are qualified to serve as legislators is found in the case of Brigham H. Roberts, elected to the Fifty-sixth congress from Utah, according to Speaker Thaddeus C. Sweet of the assembly. This declaration was contained in a formal statement by the speaker today.

"The resolution introduced on the first day of the session did not expel these five members from their seats in the assembly," Mr. Sweet said. "It empowered the judiciary committee to investigate their qualifications and eligibility and suspended them until the committee should report upon the subject.

Roberts Case Decided.

"The assembly has followed the usual orderly, and well led rules and precedents in such cases.

"In the case of Brigham H. Roberts his right to sit was challenged by an individual member of that body on the ground that his conduct had rendered him ineligible.

"In its final report the committee (investigating the case) reviewed not only the facts brought to the attention of the committee, but the precedents bearing upon the procedure to be followed. Speaking upon this point, they said:

"'Both houses of congress have in innumerable instances exercised the right to stop a member-elect at the threshold and refuse to permit him to be sworn in until an investigation has been made as to his right to a seat.'

"The report of the committee was adopted by the house by a vote of 268 to 50."

Socialists Seek "Light."

New York, Jan. 15.—The five suspended Socialist assemblymen issued a joint statement tonight in which they demanded that they be informed of the specific charges brought against them, "alleging specific offenses."

"A criminal before the bar is at least permitted to know what he is charged with," the statement said. "We are not afforded even this right. We are as much in the dark today against what we must defend ourselves as we were when the precipitate action of the speaker was sprung upon us Monday, a week ago."

Gregory Weinstein, chief of staff to Ludwig C. A. K. Martens, self-styled soviet ambassador to the United States, today was released on $10,000 bail from Ellis Island, where he has been held for several days.

A total of $65,000 in Liberty bonds representing bail for nearly three score more radicals held at the island, was taken there today by attorneys for men and women arrested in recent raids on extremists.

40 TRUE BILLS FOR 'RED' CHIEFS BEING DRAFTED

Grand Jury Resumes Communist Inquiry.

True bills against some forty major and minor leaders of the Communist Labor party, an alleged revolutionary organization, are being drawn, it is said, as the result of the investigation into radical activities made by a special grand jury.

After a recess of a week, the jury again convened yesterday afternoon and plunged into the work of considering the great mass of literature seized by aids of State's Attorney Hoyne in the New Year's raids and recently classified.

Lloyd Heads List.

Heading the list of those against whom it is reported true bills are being prepared is William Bross Lloyd, wealthy Winnetkan, and sergeant-at-arms at the recent Communist Labor party convention in I. W. W. hall, 119 South Throop street.

Among the others are:

JOHN REED, radical writer, at present in Russia.

A. WAGENKNECHT, national secretary of the Communist Labor party, Cleveland, O.

L. E. KATTERFELD, communist leader of Kansas.

MAX BEDACHT, editor of the Voice of Labor.

ALEX BIAN, member of the national executive council.

JACK CARNEY, publisher of a Communist labor party paper in Duluth, Minn.

ED LINDGREN, member of the national executive council.

L. K. ENGLUND, member of the executive committee.

PERRY SHIPMAN, member of the state executive committee.

ARTHUR PROCTOR, radical book store proprietor.

EDGAR OWENS, Moline, Ill., member and secretary of the state executive committee of the party.

SAMUEL HANKIN, member of the Cook county branch executive committee.

CHARLES D. KRUMBLEN, former Socialist candidate for alderman.

Samuel Ash, James A. Meisinger, Edwin Firth, John Vogel, Harry Greenwood, Nels Kjar, Jacob Schiff, and Morris Stollar, members of the Cook county branch executive committee.

Margaret Prevey, now national organizer for the party.

All Officers in Peril.

Virtually every organizer and secretary of the organization who has been active in this jurisdiction, it is said, will be named in the bills.

One alleged radical, Leo Green, yesterday gave bond in the sum of $2,500.

Boston Bank Messenger Vanishes with $20,000

Boston, Mass., Jan. 15.—The disappearance of Oscar P. Jesseman, a bank messenger, with $20,000 in cash was announced by the police today. He was employed by the Old Colony Trust company.

BRITISH STEEL PEER AND PARTY HESITATE HERE

Glenconner's for Hoover if Hoover Could Talk!

It was rather a damp and cold Chicago that greeted Lord Glenconner, Lady Glenconner, and their son, the Hon. Stephen Tennant Glenconner, last night. James B. Forgan, Louis F. Swift, and others who had planned to meet and entertain the party, had grown weary of the waiting and gone to their homes.

Lord Glenconner had expected to arrive in Chicago in time for a luncheon at the Blackstone hotel, but he couldn't persuade the railroad officials to attach his private car to the limited. He arrived a few minutes after 6 o'clock to face a reception committee of two.

Snow Is Their Greeting.

Lord Glenconner is one of England's wealthiest peers, being the head of a great chemical and steel works. He is going to Santa Barbara for a month's visit in the sunshine.

It was snowing when his lordship, her ladyship, and their son stepped from their private car. The great crowd that collected while the party posed for a picture did not bother or worry them.

"Everybody is equal in this country," said his lordship.

He talked for five minutes over the telephone with Mr. Swift and later with Mr. Forgan.

Meantime her ladyship had been put into a taxicab and had gone out on the south side to visit.

He Praises Our Phones!

"Now, there's nothing else to do but wait for my train. My car is being transferred to another station. Shall we talk?"

He talked.

"Yes, I believe in a business man for president. At first I thought Herbert Hoover would be the man, but I am informed that he can't make a speech. Couldn't he hire some one to do it for him?

"Your telephone service here is very good, much better than ours. This is a beautiful depot. What do you call it—the La Salle station? Ah, it is very fine."

"Would your lordship care to attend a movie?" he was asked.

"Well—er—no. I think I will go over to the other station and wait for my car. We are having dinner on the car at 8 o'clock, you know."

CHARITY GIVEN $126,000 IN WILL OF MRS. SEIPP

Chicago hospitals and charitable institutions were bequeathed $126,000, according to the terms of the will of Mrs. Catharina Seipp, widow of Conrad Seipp, former brewer, filed yesterday.

The Grant hospital was given $100,000, the German Old People's home $20,000, the Uhlich Evangelical Lutheran Orphan asylum $5,000, the Alexian Brothers' hospital $5,000, the United Charities of Chicago $5,000, the Michael Reese hospital $5,000, the German Society of Chicago $3,000, and the Orchestral association pension fund $5,000.

The remainder of the $1,435,000 estate will be divided among the children and step-children of Mrs. Seipp.

SPIRITS TO LEAD SIR OLIVER LODGE ABOUT AMERICA

New York, Jan. 15.—Sir Oliver Lodge, British scientist and leading exponent of spiritualism, declared on his arrival here today that spiritualism is not opposed to religion, but, on the contrary, strengthens and supports it.

"The survival of man can be proved," he said, "and that perception will strengthen the hands of true religion. I have no new religion to preach. All I say is that the essential parts of the old religion are all strengthened and supported by the new evidence. The result of accepting the facts under investigation is to strengthen faith and overthrow purely materialistic conceptions on the negative side."

Sir Oliver advised persons of weak minds to keep away from the ouija board.

It Is Time NOW to Wash Your Walls and Woodwork

You have had your house shut up ever since winter set in. You know how dust accumulates in a shut-up room. It is time now to clean up thoroughly, don't wait for spring—but when you clean up take care—

Never Clean Paint or Varnish Surfaces Except With S-W Flaxoap

Many cleaners are made with strong alkaline, benzine, and other caustic agents. These clean off the dirt violently by attacking the paint surface. Frequent cleaning with material of this sort **ruins many a fine finish.** But Flaxoap is made of pure linseed oil, and so is the paint and varnish surface. Therefore Flaxoap has an affinity for them. It adds its own substance to the surface which it cleans. It cleans dirt and grime which other cleaners scarcely disturb, and builds up the surface as it cleans. Although Flaxoap will not injure the finish, it gives fine paints, varnishes and enamels just what they need to maintain their fine film surface, their purity of color and lustrous beauty.

Sherwin-Williams Auto Soap

is a pure linseed oil soap made by the people who make the finest auto enamels. Its purpose is not only to cleanse but to preserve the enamel. It brings out the fine surface polish brilliantly, gives vivid life to the color, and a rich depth of luster not obtainable with any other automobile cleansing agent. No use having a good finish on your car unless you bring it out. S-W Auto Soap will keep it looking brand new.

S-W Kokonol

Is an elegant cocoanut oil toilet soap. It lathers luxuriously, is extremely soft, but cleans with the greatest thoroughness. Kokonol is so refined that it makes a superb shampoo for the silkiest hair, and a beautifying soap for the finest complexion.

S-W Polish-Ol

Is an extremely high-grade linseed oil polish to use after cleaning surfaces with Flaxoap. It brings out the full beauty of color and gives richest lustre to paint, varnish or enamel surfaces.

S-W Mechanics' Hand Soap

Cuts the dirt but not the skin. Made with extremely finely ground pumice, absolutely free from alkali and other caustic chemicals damaging to the skin. Has exceptional healing qualities and is highly antiseptic.

SOME SENATORS HAVE RESIGNED.

Mr. Hitchcock is a candid senator and a per-lexed man, but he does not seem to realize that e and his followers in the senate have resigned rom it, so far as the league of nations is con-erned. Mr. Hitchcock says that he does not know what to do because he does not know what President Wilson will accept.

Executive control of legislation is a fact more ften than the theory of legislative government ares to concede, but here is an avowal of it, ex-laining a suspension of legislative activity. Mr. Hitchcock is not a senator. He is trying to be a uija board. He does not get a message. He can-ot say anything.

Mr. Hitchcock and the senators of whom he is e leader are not legislators. They are instru-ents of the executive government. They put emselves in the position of cabinet members. hey are to execute administrative policies. They e to be called in, given instructions, and are to o as they are told to do.

Mr. Lansing will write a note to Mexico if the esident tells him what he wants to say to Mex-o, but Mr. Lansing retains office at the will of r. Wilson. He is the proper creation of Mr. Vilson in the proper administering of the presi-ential office.

Mr. Hitchcock is not the creation of Mr. Wil-n. He is the creation of a state which co-perates with other states to delegate certain pow-s to two separate branches of government. Mr. itchcock frankly and honestly deserts the branch which he was authorized to act and attaches mself to the branch for which he has no commis-on of any sort.

If this had been the idea on which the republic as founded there would have been nothing in the nstitution providing that the senate should ad-e and consent in the making of treaties. That ovision puts a check upon the executive gov-nment. There can be no check if the officials us empowered think that their duty is to exe-te policies of the administration.

It would be much more practical, in such a heme and in such an emergency, for Mr. Hitch-k to give his seat to Mr. Tumulty. Mr. Tum-y has the privilege of seeing the president. may not know what Mr. Wilson will accept m the senate for the American people, but he s many more opportunities than Mr. Hitchcock to find out.

Mr. Hitchcock and his supporting senators will think and act as senators and they cannot act executive functionaries. The proper scheme broken down and the other one, which is im-per, will not work.

OUR SHARE OF THE SWAG.

aving assisted in forcing from Germany an mnity for the warships sunk in Scapa Flow, our ernment now rises with a dramatic gesture and ses our share of the swag.

'e confess that the gesture does not thrill us. oes give us a sharp pang of disgust. If the in-nity is justly payable the government has no t to waive our share of it. If it is not justly sed our government has no justification for ng part in imposing it.

e Scapa Flow incident is interesting. The Brit- preferred that the German ships should be , because the relative position of their navy d be better if the German ships were sunk r than distributed. France and Italy for the reason wanted the ships divided. But Great in took the ships in custody and then they sunk. Of course the Germans who had been n charge of the ships did the sinking. But this not please the French and Italians, who, not out some reason, were suspicious and bitterly ntful of the unfortunate lapse of British cus-nship. Mr. Lloyd George, however, rose to the sion and the Germans were roundly abused and elled to add another item to the long bill for ges. The demand was signed by us along with our associates. The Germans resisted. Concession was finally made from the first stiff demand. An agreement was reached, and now we rise nobly in our place and refuse to accept our share.

Thus our government plays a part in this profitable farce and then refuses our share of the receipts. We do not get the morality of this. It is a sort of altruism familiar in our foreign affairs since Mr. Wilson took charge of them, but familiarity has not bred respect. We have joined in a cutthroat game and played every one's hand but our own.

We have been willing to help squeeze the last breath out of a prostrate foe, but turn our back while our associates go through his pockets.

The response to this policy is quite naturally a unique mixture of hatred and contempt. But we may pride ourselves on having discovered a species of altruism absolutely novel in human affairs. We are the Altruistic Burglar. We burgle for others.

THE FIASCO OF FIUME.

The Fiume chapter makes uncomfortable reading for Americans. The theory on which Mr. Wilson's objections to the Italian claims was based has appealed to the American people as sound in principle and from the viewpoint of international expediency. THE TRIBUNE believes and has said that Italian possession of Fiume, which was not essential to Italy's safety, either economic or strategic, means almost certainly another war. The Jugo-Slavs are not a people to be shut off forever from the sea, if they can force access to the world highway. A situation of acute instability is being recreated in Balkan politics, and, while we are not directly concerned, we must regret a condition so likely to produce trouble. We are less confident than we were of the ability or disposition of statesmen to localize wars and less certain of our ability to keep out of them.

However, at the moment we are chiefly interested in the sorry chapter of our own diplomacy this episode fills. Our associates, France and England, who are so anxious to welcome us into a league of nations in which they overwhelmingly outvote us, are disclosed rapidly retreating from the position taken by Mr. Wilson, with their approval and cautious support. Neither wanted Italy to have Fiume. Both were in some measure morally pledged to see that the Jugo-Slavs were given a square deal. Neither likes to see Italy embarked upon a course of imperialist expansion. Both let Mr. Wilson do the fighting, and now under pressure of European politics both desert him.

The net result is that Fiume goes to Italy. The Jugo-Slavs find the window of hope once more shut to them. And we have incurred their reproaches and Italy's resentment—also, we suspect, the ridicule of the French and British.

Statecraft is not good intention. It is a practical dealing with conditions. Measured by that standard our statecraft at Paris has been as uniformly unsuccessful in the making of peace as our army's operations were successful in the field of war. Every important stand we made at Paris has resulted in defeat. We have maintained our ground at no point. Although we had the strongest hand at the table, we have lost every trick. We have succeeded in getting nothing for ourselves, which was indeed our announced intent. But we succeeded in this because we had in this, and in this only, the able and enthusiastic coöperation of all present. But we did go in for other things, and we have got none of them. Never in our history has our diplomacy met such complete frustration.

HELP FOR AIRCRAFT.

Late in the day there is a chance for a $15,000,000 appropriation in behalf of aircraft. It ought to be approved by congress. As things stand there is a $25,000,000 fund. This is sufficient only to maintain personnel. There is nothing left for projecting the air program.

We shall remain hopelessly in the background unless congress comes to the aid of aircraft. The magnificent plans of the war aircraft board have been let slip. We have remaining only the sour remembrances of a gaudy failure. We ought to preserve the experiences of failure at least. These should teach us. They can teach us only if we have the means of avoiding them in the future.

The $15,000,000 should maintain a school of research. Research should prepare data calculated to warn us against the dangers of trying to leap the horizon without wings. We must have the best of wings. The only way to get them is to keep everlastingly studying the intricacies of the new transportation. Such a highly specialized science must have support.

A REPORTER'S SERVICE.

Frazier Hunt went to Murmansk in the winter of 1918. He told us about American soldiers there. It was the first and most authentic news of what was doing behind the curtain of colored news and official reticence in that region.

The American people began to take an interest. Eventually our troops came out.

In March and April of 1919 Mr. Hunt made a voyage of discovery in soviet Russia. He gave us the first comprehensive picture of conditions in that region that had been available to the public for some time. He inspired other enterprise, and, though it is difficult still to get anything like a reliable and inclusive report of subsequent developments under the Lenine-Trotzky régime, American opinion is more guarded and intelligent as to the Russian puzzle than before Mr. Hunt lifted the curtain.

Mr. Hunt is now in Siberia. He went to Vladivostok and told what he saw there. Before his dispatch reached America we heard that American soldiers were to be brought home. Many have returned since. We hope Mr. Hunt's candid and illuminating reports from Siberia will bring results. Mr. Smith in China had been telling some plain truths. These two skilled and resourceful reporters of fact are giving the American public the material for intelligent opinion and a much needed corrective of our bewildered and bewildering policy. It is a service to the nation of first rate value. If we cease to blunder and drift in these strange and troubled waters it is because the light has been turned on.

Editorial of the Day

AN ENGLISH VIEW OF AMERICAN OBLIGATION.

[From the London Saturday Review.]

It is no longer possible to deny or conceal the worldwide mischief that is being wrought by the American politicians. We have stated, clearly and often, that in our opinion the United States would be perfectly justified in refusing to accept the vast and indefinite liabilities of the league of nations. Even in these days of steam and electricity the 3,000 miles that separate America from Europe count for something. There is no reason, because the Americans intervened at the eleventh hour to complete the defeat of the Germans, why they should be mixed up in all the squabbles and intrigues of European politics. But there is every reason why the Americans should make up their mind and give a definite answer. Fourteen months have elapsed since the armistice; the Germans have not ratified the peace treaty; and the peace negotiations with Turkey have not begun.

SONG—AFTER LAURA B.

I saw thy brow, as fair as e'er looked on,
 Thy shining eyes, that shamed the stars o'erhead,
Thy cheeks suffused with rosy hues of dawn,
 Thy wooing lips aflood with cherry red.

Thy slender form in rare attire I saw,
 The silken stuffs disposed with cunning art,
Thy loveliness without or fault or flaw,
 Thou witting not what yearnings thou couldst start.

And heartless thou, unfeeling, blind to me
 Agaze from there without, on thee within:
But mem'ry holds and oft revisions thee—
 Thou Bon-Ton Dress Shoppe window manikin.

PROTEST is made by Miss Julia Le Beau of Blooomington forninst our headline, "Stealing Percy Grainger's Stuff." The tin-can xylophone, she writes, was not originated by Mr. Grainger, as her father used it more than thirty years ago, and it was old stuff then. May we not assure Miss Le Beau that "stealing his stuff" is a colloquial phrase which carries no implication of larceny. Thus we might say of Mr. Grainger's suite, "L'Après-midi dans une fondrie," that the composer was stealing Vulcan's stuff.

How to Keep Well. By Dr. W. A. Evans.

Questions pertinent to hygiene, sanitation, and prevention of disease, if matters of general interest, will be answered in this column. Where space will not permit, or the subject is not suitable, letters will be personally answered, subject to proper limitations, and where a stamped, addressed envelope is inclosed. Dr. Evans will not make diagnosis or prescribe for individual diseases. Requests for such service cannot be answered.

BOOZE, SUGAR, PEP.

SOME correspondents are disturbed by statements contributed by Dr. Raymond Pearl relative to alcohol and sugar. These two articles are the quickly burning fuels which produce energy—the pep, if you wish to call it that—of the American workingman.

One can get energy by eating beefsteak and other meats and vegetables, but that is not what one eats those foods for. One eats them for the building up of tissue. He is quoted as saying the withdrawal of alcohol and the simultaneous shortage of sugar make a serious national situation.

The thought that the action of sugar and alcohol is allied is not new. Dr. R. C. Macfie of Scotland contended in 1918 that every muscle movement is the result of an explosion similar to that in an automobile engine. To supply the gas for these explosions a man who does manual labor must eat plenty of starch and to get a good explosion he must feed his cylinders plenty of air.

Somewhere about 1903 Hans Mannhardt began proclaiming that carbohydrates—sugars and starches—were fermented in the muscle itself by a ferment; that the product was carbonic acid and paralactic acid; that the carbonic gas caused the muscle cell to balloon out and that this was responsible for what was known as muscle contraction.

In 1905, according to Mannhardt, a Berlin laboratory discovered the ferment which in muscle converts sugar into carbonic acid. But before the scientists began to discover, the doughboy's instincts had told him that when he dug trenches all day he craved sweets.

We see that so long as we stick to the science end of it, Dr. Pearl's statements are not out of the ordinary. When we come to read his entire paper we probably will find that Dr. Pearl did not mean to say that the country was going to the dogs because of prohibition and the sugar shortage and that these are the underlying reasons for the epidemic of strikes.

The energy resulting from the conversion in the body of alcohol into carbonic acid and water is quickly dissipated. A man could perform on it for a few minutes, then his clock would run down. No one, for the last quarter of a century, has proposed to get sustained work out of men by feeding them alcohol.

Now about sugar. Two hours after a man eats starchy food—bread, potatoes, cereal—whatever it may be, all of it has been converted into sugar. It is absorbed as a form of sugar in the liver, in the body juices, the blood and the muscles.

No man needs to go to the cane fields of Louisiana or the beet fields of Michigan for sugar. Give him a potato and leave him alone for two hours and he has a supply of sugar. Some men can make sugar out of cellulose such as the bark of trees, and in Armenia the wretched people are making it out of grass and weeds eaten in the fields.

There is no use in a man refusing to work because he has no sugar in the bowl at breakfast. Let him get up early and eat a bowl of the Scotchman's oatmeal or let him eat an extra portion of the Irishman's potatoes the night before.

When a man has put in a hard day's work and feels exhausted, he wants a bowl of sweets. Sure! It tastes good and it is a quick way out of his let down. A glass of whisky is a quicker way out and some think it tastes better. But a meal of bread, potatoes, and vegetables is a better though a slower way out.

The country is not going to the dogs, in the first place. In the second place, not having any whisky in our toddy is not the cause of the strikes. We can get along just as well with less sugar.

HERE'S A CHEERFUL MAN.

G. F. K. complains that he wrote two weeks ago and has received no reply. He failed to send a stamp for reply then and again fails to do so. He accuses me of writing the questions for this column, of being bought up by the trusts, of being pro-German, of being bald, etc. He asks the following:

1. Are people subject to whooping cough at any age from infancy to old age?

2. Is a person immune from it after once having had it, and, if not, how many times is it apt to return?

3. Is it apt to return this winter to a boy of 6 years who had it last winter from February till warm weather drove it away?

4. What is the cause of whooping cough and is there any preventive?

REPLY.

The heading plainly states th[illegible] letters must be accompanied by stamped, addressed envelopes if replies are expected.

1. Yes. However, the younger the person the greater the susceptibility to the disease and the more fatal it is.
2. As a rule, yes.
3. No.
4. The Bordet-Gengon bacillus. The only preventive is keeping away from contagion.

FOOD FOR 9 MONTHS OLD BABY.

Mrs. H. C. L. writes: "What solid foods can I feed my 9 months old boy and when?"

REPLY.

Begin with thin cereal. Add soups. Then thick cereals and hard breads. Next, finely chopped spinach or carrots. Then let him gnaw a meat bone. Begin with one feeding a day of some one of these outside foods, continuing him at the breast meanwhile. Wean him before the warm weather comes next spring.

WHEN BABY CHEWS RUGS.

Mrs. G. L. L. writes: "Our 15 months old baby has a habit of chewing such things as his sweater cuff, the corner of the floor rugs, and, in fact, anything made of wool. He is bottle fed. Is this due to the lack of something in his food? Besides his milk he eats vegetables, fruits, bread, etc. He also develops extremely red cheeks sometimes. What causes these?"

REPLY.

A baby 15 months old should have bread, butter, vegetables, fruits, meat bones, cereal and not to exceed a pint and a half of milk. A lady suggests that you give milk of magnesia in a small dose daily. Do not give enough to cause diarrhoea.

THE FRIEND OF THE SOLDIER.

The Friend of the Soldier will coöperate with the war risk insurance bureau of the treasury department, 1307 Stock Exchange building, Chicago, and with the committee of the Chicago Bar association on legal assistance to soldiers and sailors, 105 West Monroe street.

Address inquiries to Friend of the Soldier, Chicago Tribune. Answers to as many as possible will be published in this department. To insure a personal reply an addressed and stamped envelope should be inclosed.

No attention will be paid to anonymous letters.

B ALLOTMENT CANCELED.

Chicago, Jan. 11.—[Friend of the Soldier.]—Will you please inform me regarding the following allotment case: When I enlisted in the service I made an allotment to my wife and another to my mother, who is, and was at that time, a widow with need of my support. The allotment officer at camp told me that I could make but one allotment and that one must be to my wife. Isn't my mother entitled to an allotment? C. C. S.

The allotment officer misinformed you. The war risk insurance act ruled that where a "class A" allotment, which is one to the wife, was made, if an additional allotment of not less than $5 was made to a dependent mother, father, brother, or sister, the full amount of the government allowance would be paid to the second allottee. There is only one way that you can have the case opened up now, and that is by securing a certified copy of the original allotment you made to your mother. This matter would then have to be referred to the allotment branch of the war risk insurance bureau in Washington, D. C.

INSURANCE REINSTATEMENT.

Chicago, Jan. 12.—[Friend of the Soldier.]—My insurance from the war has not been paid since I left the army, which was about six months ago. I am very sorry that I let it drop, but the men in my office claim that I can start it again by paying for only two months. Will you please let me know if it is possible for me to get this insurance again after it has not been paid for so long?
F. D. A.

Yes, you may reinstate your insurance by paying premium for the month of grace and also for the current month. As you live in the city, we advise that you have reinstatement of your insurance handled by the local war risk insurance bureau; address given at the top of this column. That office is in a position to convert and reinstate insurance.

LAND GRANTS.

Oelwein, Ia., Jan. 10.—[Friend of the Soldier.]—Please give me any information on the possibility of homesteads being granted to ex-soldiers in Wyoming, Montana and North Dakota. If you cannot give me full information, please tell me where to get it. C. A.

Full information concerning the land project would more than fill the limited space of this column. Write for details to the general land commissioner, department of the interior, Washington, D. C.

LIEUTENANT'S INQUIRIES.

Chicago, Jan. 13.—[Friend of the Soldier.]—I was sent to the first army training school at Fort Leavenworth, Kansas, in June, 1917, where I received a commission as first lieutenant. Immediately afterward I was put on inactive duty and about two months later was given honorable discharge. Am I entitled to the government bonus and additional travel pay? If so, to whom shall I write?
H.

You are entitled to the government bonus from the fact that you served honorably in the army during the war. Apply for this through the local bonus bureau, 120 West Adams street.

You should have been given travel pay at the rate of 4 cents per mile.

LEGION NOTES

Sol-Sai-Mar post will hold its fortnightly meeting at 120 West Adams street tonight. Every member is urged to bring a woman, as dancing is to follow the entertainment.

Former members of the United States coast service who enlisted in the army and navy are planning to form a Chicago post of the American Legion. Capt. Thomas F. Malloy has called a meeting for next Wednesday afternoon in the Federal building.

Historical post No. 64 will meet tomorrow at the Khaki and Blue club in Grant park to consider an option on a clubhouse in the Twenty-first ward.

MISCELLANEOUS.

The 122d field artillery auxiliary will meet Sunday at 2:30 o'clock in the Hotel Morrison to elect officers for the new year.

The movement to consolidate all the camps of the U. S. W. V. in Chicago is in full swing. Waldron-Murphy camp, Philippine camp, McKinley camp, and Federal camp have been merged into one big camp of over 700 members.

The Seventh Division club has just received a communication from the father of Milton Maage, formerly a member of Battery E, 8th field artillery, 7th division, who died while in the service overseas, asking that members of the battery who knew his son write him, and if possible call on him. The Seventh Division club desires the names of all members of the division who are now under treatment at army hospitals in Chicago and at Fort Sheridan. Anton Mussil, 1954 Sheffield avenue, is secretary.

AN INSURANCE TANGLE.

Missouri Valley, Ia., Jan. 11.—[Friend of the Soldier.]—To decide a question please tell me if a soldier made his father the beneficiary of his army insurance, and there were no other living relatives aside from uncles and aunts, and the father remarries, who would get the insurance payment after the father's death, the other relatives or the widow of the father? J. L.

The war risk insurance act provides that in the event of the death of the designated beneficiary the insurance is payable to the next of kin of the insured, not the next of kin of the beneficiary. Therefore the aunts and uncles would be considered before the father's widow.

ENDOWMENT AT 62.

Chicago, Jan. 12.—[Friend of the Soldier.]—Will you please tell me what $10,000 insurance, endowment at 62, will cost for a man of 31, and one at 35, per year? D. P. M.

The annual premium on a $10,000 endowment at 62 policy, age 31, is $246.90; at the age of 35, $293.

The monthly premium, age 31, $20.90; age 35, $24.30.

DOES NOT NEED PAPERS.

Chicago, Jan. 12.—[To the Friend of the People.]—A girl born in Pennsylvania, her father being from Sweden, but having become naturalized. When daughter is 3 years old father goes back to Sweden, taking his family with him, to make that his future home. When daughter is 21 she comes to this country.

This girl considers herself an American, but wishes to be positive on the point. To me it would seem she would have to take out papers in her own name, inasmuch as she did not return to this country until after 21, and I am sure her papers at that time must have shown her to be a foreigner and not an American. PROPERTY AND INSURANCE.

Chicago, Jan. 11.—[To the Legal Friend of the People.]—I have executed a will devising all of my real and personal property to my wife. I have one child, a daughter, married, who is my beneficiary in a life insurance policy. She is the daughter of my first wife. In the event of my death could my daughter successfully contest my will, claiming a share of my property? E. M. H.

PERFECTLY PROPER AND CONVENTIONAL.

Chicago, Jan. 14.—[To the Legal Friend of the People.]—Is it proper or conventional for a woman divorced to retain her former husband's name? If not, is there a law forbidding it? What is customary? E. A.

It is usual for the wife to keep on using her husband's own name, but she can get the divorce with permission to resume her maiden name. A man cannot keep his ex-wife from using his name.

MUST BE OUT ON THE STREET.

Chicago, Jan. 14.—[To the Friend of the People.]—The ashes have not been removed from my house for several months, although they have been placed in the usual cans and in the usual location in the small shed at the side of my house.

This condition is growing serious and I would like to have some action taken, as it does not seem to be right that I should have to hire some private concern to move ashes as some of my neighbors are doing. L. H. VAN N.

There is no alley in the rear of complainant's premises and ash cans are kept in a shed inside of the yard. Under our rules same should be placed at the edge of the curb on the regular collection day, which is Tuesday. If complainant will comply with this rule he should have no further cause for complaint. THOS. H. BYRNE,
Superintendent of Streets.

AN UNDECIDED PERSON.

Chicago, Jan. 8.—[To the Legal Friend of the People.]—Was married in California in 1913, lived together till February, 1918, when my wife left without any reason whatsoever. She came back several times, stayed for several weeks, and would go away again. In February, 1919, she refused to live with me; since then I have been living in Chicago.

1. Can I secure a divorce from her in Chicago?

2. Would the divorce be legal in California? J. T. J.

1. Not until the desertion has continued for two years.

2. An Illinois divorce, properly secured, would be recognized there.

VOICE OF THE PEOPLE

As but limited space can be given letters in this department, writers must confine themselves to 200 or 300 words. Unless they give us their full names and addresses their letters will not be considered. No manuscript will be returned unless the writer sends postage for that purpose.

SIZZLING NIGH TO BUSTING.

Chicago, Jan. 8.—Editor of The Tribune.]—Some sort of thing should be devised to take us legally out of a state of war, so that in future days we can come out in the open and howl out all the repressed howls of four years having to do with and caused by an administration that will go down in history as being composed of the greatest political aggregation of unsophisticated boobs that ever licked the boots of a president. From Burleson, the onion grower; Daniels, the country editor, and Baker, the small type lawyer, and others of that ilk, including son-in-law McAdoo, the ex-master of passes for railroads, we look about for one upstanding man—and find him in Secretary Lane, of Canadian birth! But he is the biggest man of all.

Dodgast it, Pop, I want to get up on my hind legs and say that if the Republican party can defeat the strong man of the Democratic party—one W. J. Bryan, the man who started the fashion of resigning in critical moments—if Bryan can be defeated, the Democratic party can't come back within 100 years. Nature is not prodigal with strong men of great personality, and in that time it is reasonable to suppose that Bryan will wither and die, so that ought to leave the party to fade away on account of lack of men who are above .22 caliber.

We prate of democracy! Dammit, Pop, we need men of the Roosevelt type who are hell bent for or against something. There is nothing that clears the air better than a clean cut decision. We are deporting Reds and we issue explanations and apologies and grovel about almost anything nowadays, including control of the world by union cliques. These Reds ought to be lined up and shot—Teddy would have advocated it! All our internal troubles are caused by weak decisions, temporary policies, piddling policies, and lack of any policies. We still think, in certain quarters, that we can play a good game of international poker with card sharps that carry their own decks. Hells bells, Pop! Let's pray for Republican success with all the damned earnestness we possess! URSUS.

FOR A LEAGUE OF MANDATES.

Chicago, Jan. 8.—[Editor of The Tribune.]—When one glances at the actual territory gained by the allies through the war, as given on the map published in THE SUNDAY TRIBUNE, it startles the average American.

Especially is this true of Great Britain in the way of new territory gained and mandates and spheres of influence acquired, to say nothing of what she will see fit to acquire out of the "carving of Turkey."

Then along comes a "feeler" for a further enormous credit. What would this further credit be used for? Undoubtedly not to feed the starving countries, but to improve England commercially, as she already has started a fight in this direction upon America.

In view of the enormous credit extended to Great Britain up to the present time and her position as the greatest world power, why not ask her for payment of her indebtedness by deeding to us the dominion of Canada, which, geographically, belongs to the United States? The Americans who have practically been the making of what western Canada is today would be glad for such a business transaction. The Canadians undoubtedly would claim they have something to say as to whom they should belong, but inasmuch as "self determination of nations" is a farce why should we worry? X.

THE PULSE OF THE CITY.

Chicago, Jan. 10.—[Editor of The Tribune.]—Please publish a soldier's view of the liquor question. I note they are deporting a lot of bolshevists. It would be a good thing if they would deport our present congress along with them. They have done more to create bolshevism than all the bolshevists in the country by stuffing down the throats of millions of citizens that outrageous prohibition law. I served with the A. E. F. in the trenches and did my best to drive back the Hun to his lair and returned to find the country ruined by a handful of hypocritical, hired reformers. I am now a bolshevist, but an American bolshevist, and there are thousands of others like me. I was born in Chicago and don't want to be classed with those bohunk foreigners. Wipe out that unjust prohibition law from the law of our national government and we will have the greatest government in the world. Leave it stand and we will have, as we have now, millions of restless citizens who know they are not getting a square deal. Do away with booze, but give us some good beer and wine and take off a large portion of the tax so a poor working man will have an opportunity to buy some as well as a rich man. Right now the rich people, as we all know, have their cellars filled up to capacity and the poor man has his tongue sticking out, can't even get a smell unless he pays six times the normal price and then he runs a chance of being poisoned. Several months ago the labor men representing all parts of the country marched down Pennsylvania avenue protesting against the ban. Congress simply glanced at them and went back and passed a law making it a criminal offense for violation, the law being fathered by a small town representative from Minnesota. What does a yap from the country know about the life in a large city? If he wants to make his burg dry let him vote so, but why in the name of good common sense should a farmer from Egypt have the say as to whether Chicago or any large city should go dry? Liquor is the very pulse of a large city. E. O'DONNELL.

HARNESS RIVERS TO FACTORY CART, SENATORS VOTE

Bill Goes to Conferees to Fix Differences.

Washington, D. C., Jan. 15.—By a vote of nearly 3 to 1 the senate today passed the water power development bill.

Five Republicans and thirteen Democrats voted against it. Senator Nelson, Republican, Minnesota, its leading backer, got 52 votes in its favor. The bill was sent to conference to adjust house and senate differences.

Low Charge Is Fixed.

As passed by the senate, the bill limits the government license charge on water power projects to 25 cents per horse power developed. Senator Lenroot, Republican, Wisconsin, predicted this amendment, restored at almost the last minute, invites presidential veto.

Senator Nugent, Democrat, Idaho, had a proposal that no license granted within an Indian reservation should lack consent of the tribal council.

Senator Walsh, Democrat, Montana, said:

"Old time graft charged in the election of United States senators by legislatures of the states would not be a circumstance to what would happen if the councils passed on the question of water power license."

Senator Walsh explained he meant no reflection on the Indians. The proposal is not now part of the bill.

Bill's Chief Provisions.

As passed, the bill provides for:

Federal water power commission, composed of the secretaries of war, interior, and agriculture, authorized to issue fifty year licenses "at a reasonable annual charge."

United States coöperation with the states, no charge on state and municipal power projects, nor on industrial plants, developing less than 200 horse power.

Right of the United States, after two years' written notice, to take over and operate plants at the expiration of license.

Power plants now in operation not to come under provisions of the bill.

At the close of the fifty year period the United States could take over the plant, issue a new license, or renew license.

BANK CASHIER, ON JOB 25 YEARS, FINDS HE CANNOT LOSE IT

F. A. TINKHAM.

F. A. Tinkham, cashier of the Merchants' Exchange bank of South Chicago, never missed a day for twenty-five years—he was always on the job. And so, when the Merchants' Exchange, a private institution, was absorbed by the Calumet National, which is not a private institution, the board of directors of the joint bank elected Tinkham cashier.

Poultry Show Opens with Over 2,500 Entries

The seventh national poultry show is in full swing at Dexter pavilion. Over 2,500 fowl are billeted there. In addition there are guinea pigs, pedigreed mice, and hares of mammoth proportions. Among other prize exhibits are a group of pigeon war veterans. Beginning today a score of game cocks will put on prize fights, with their spurs encased in boxing gloves.

Omaha, Neb., Jan. 15.—Nelson B. Updike, grain man, today purchased 75 per cent of the stock of the Omaha Bee, which was owned by Victor Rosewater and earlier by his father, Edward Rosewater.

WALTER TABOR HELD FOR PART IN SISTER'S DEATH

Said to Confess Having Helped Bury Body.

Paw Paw, Mich., Jan. 15.—[Special.]—Following a confession that he helped bury the body of his sister, Maude Tabor, in the basement of her home at Lawton, Walter Tabor was arrested in Kalamazoo tonight and locked up in the county jail, charged with being an accessory to the slaying.

In his statement, Tabor said that his aged mother, Sarah Tabor, had admitted causing the death of her daughter by giving an overdose of chloroform while the school teacher was suffering from the effects of an illegal operation. Mrs. Tabor and Joseph Virgo, an undertaker, who was the sweetheart of the slain woman, have been held for the crime over a month.

The confession came after the board of supervisors of Van Buren county, dissatisfied with the results obtained in the investigation of the woman's death, authorized Gladston R. Beattie, former sheriff, to take up the case.

According to county officials, the new statement does not materially alter the main aspects of the case. Mrs. Tabor, the mother, several weeks ago admitted giving her daughter the chloroform.

Road Contractors See 1920 Production Boom

Increased production is expected this year by members of the Illinois Association of Municipal Contractors, who met yesterday at the Hotel La Salle. C. E. Mateer, executive secretary, declared that of 500 or 600 miles of road contracted for in 1919, only 100 miles were completed because of lack of materials and cars.

COMMITTEE NAMED BY MAYOR TO HELP ENTERTAIN ELKS

Mayor Thompson yesterday appointed a committee of 151 members to help entertain the thousands of Elks who will visit Chicago during the national convention of the organization here July 5 to 10.

Members of local lodge say the convention will bring more visitors than Republican and Democratic national conventions combined.

The city council has authorized the use of city hall corridors for registration purposes.

8th Illinois Organized; Name 10 Captains Here

Springfield, Ill., Jan. 15.—[Special.]—Organization of the Eighth Illinois infantry, with eight companies in Chicago, has been announced by Adjt. Gen. Dickson. Col. Otis Duncan of Springfield is in command of the regiment, which will be composed of colored soldiers who served in France. In addition to the Chicago companies, Springfield, Peoria, Danville, and Quincy are given commands.

The captains of seven Chicago companies have been selected as follows: Co. A, Harry W. Jones; Co. B, Stuart Alexander; Co. C, James H. Smith; Co. D, Devore J. Warner; Co. E, William H. Lewis; Co. F, Robert Chavis, and Co. H, Samuel R. Gwynne.

The machine gun and supply companies also are assigned to Chicago. Lilburn Jackson will command the former and Capt. Lloyd Wheeler the latter.

CIVIL EMPLOYE STRIKE BAN IN CONSTITUTION?

Proposal Made on First Call for Revised Laws.

BY OSCAR E. HEWITT.

Springfield, Ill., Jan. 15.—[Special.]—The gates for constitutional proposals were opened by the convention today.

Lewis A. Jarman of Rushville wants Illinois to be the first state to prohibit what President Wilson has characterized as "a crime against civilization"—a strike of public employés. He would require the legislature to provide a penalty.

The delegates are favorable to the idea.

Mr. Jarman presented other proposals. One requires that the "English language shall be the medium of instruction" in all schools, both private and public. He had another prohibiting foreign language newspapers and periodicals, but did not present it.

Proposed Court Changes.

Mr. Jarman presented two ideas on courts. One increases the state Supreme court from seven to nine judges, the two extras to be appointed by the governor from Cook county. This proposal increases the minimum age of judges from 30 to 35 years and requires them to have had at least ten years of law practice. Authority also is granted to establish an industrial state court, and the clerk of the Supreme court is made appointive by the court, instead of elective, as at present.

The judges of the Supreme court would also appoint the judges of the Appellate court for terms of six years. These must be 35 years old, have had ten years of law practice, and cannot be judges of other courts, nor can they resign judgeships to accept a position on the Appellate bench.

Hit at Chicago Representation.

The Rushville delegate also presented the first proposal to limit Cook county's representation in the legislature.

His plan is to have twenty-five senators, of which no county shall have no more than eight, and 100 representatives, of which no county shall have more than thirty-five. He would limit this legislature to a ninety day session and prohibit the introduction of bills after the first sixty days.

While many downstate delegates favor a limitation on Chicago's representation, comparatively few would today indorse the Jarman plan.

The honor of getting the first proposal before the convention was won by Lee Mighell of Aurora. His resolution prohibits taxing a parcel of real estate and also the mortgage upon it. That is the theory of the present law, but the practice is different. The owner of mortgaged real estate pays on both his equity and the mortgage, while the holder of the mortgage forgets it.

This One Helps Chicago.

William H. Beckman of Chicago presented two proposals to give Chicago and Cook county more power to work out their problems. The first gives any city of more than 1,000,000 inhabitants "authority to exercise all powers of local government, and to adopt and enforce such local police, sanitary, and similar ordinances as are not in conflict with general laws."

The other gives cities of the same class the power to abolish "within their limits, park, library, school, sanitary district boards and all other local municipal corporations," take over the duties of the eliminated bodies and assume their indebtedness.

This appears to go farther than the home rule program adopted by the Chicago city council.

Henry M. Dunlap of Savoy proposed unlimited suffrage for women and Oscar E. Carlstrom of Aledo presented the nineteen proposals described in THE TRIBUNE Jan. 14.

Talk of Convention Budget.

After considerable discussion the convention granted authority to the president to engage seventy-one employés on a salary basis, which indicates a monthly pay roll of $9,885. A committee on expenditures and supplies, headed by the Chicago banker, Walter H. Wilson, is attempting tonight to make a budget for the convention. The total allowance for the convention is $500,000.

President Woodward is interviewing delegates preparatory to making committee appointments. The convention adjourned until Tuesday, but it is not expected that the committee slate will be completed by that time.

CLYNE TO START FIGHT TODAY TO CUT MILK PRICE

Brings Data from East to Begin Campaign.

District Attorney Charles F. Clyne announced yesterday that he will use every power at the command of the federal government to reduce milk prices in Chicago.

The prosecutor returned from a week's conference in Washington and a three day survey of the campaign against high priced milk now being waged in New York and Boston. He is armed with all of the price data collected in the east. He will apply the information to the Chicago situation.

Use Pressure First.

"Department of justice prosecutions will not be brought into this campaign," he said, "unless economic methods fail. The same corporations which control milk distribution in New York control it here and we know the 15 cent figure here is too high. We know how much it costs to produce milk. We know the overhead cost, salary costs, and all other details of the business. . . . . . .

"Women of Illinois, through the medium of the fair price commission and with the coöperation of dealers, have already succeeded in shaking down butter and egg prices. I will enlist the aid of the big Illinois organization to beat down the Chicago milk price. The methods will be decided upon at a conference tomorrow."

Maj. A. A. Sprague and Mrs. Joseph T. Bowen, leaders of the federal commission and women's organization, will meet Mr. Clyne tomorrow.

Eggs Drop to 61 Cents.

Fresh eggs dropped to 61 cents wholesale yesterday, their lowest mark in more than a month, and butter was quoted at 60 cents a pound, a drop of 3 cents under the top quotation of the latest "fair price" list.

Increased receipts of fresh eggs from Illinois farms, due to mild weather, and huge import shipments of butter from Europe and South America caused the drop, according to market experts.

CITY NEWS IN BRIEF

Dominick Caronia of 818 Miller street was fined $25 yesterday for selling diseased chickens.

Mrs. Grace Bovo of 460 South Green street was arrested yesterday when she tried to jump into the river from the Harrison street bridge.

The Chicago Telephone company's meter for counting telephone calls will be tested next Tuesday morning by the Illinois public utilities commission.

Mrs. Catherine A. Kersting yesterday sued her husband, Edward, a fire department captain, for separate maintenance, alleging infidelity and cruelty.

Paul S. Oakes, piloting a mail plane was compelled to volplane to Grant park from a height of 3,000 feet when the water in the engines began freezing.

A delegation of Protestant clergymen from Ireland, touring the United States in the interests of the anti-Sinn Fein forces, is expected to arrive in Chicago today.

Psychopathic tests for the children in the Evanston branch of the Illinois Home and Aid society was announced by Mrs. William E. Nichols, secretary of the advisory board.

"Flu Julia," who is serving a term in the penitentiary for robberies committed during the influenza epidemic, was sued for divorce yesterday by her husband, Max A. James.

"Billy" Walters, former pugilist and ex-gob at Great Lakes, whose wife, Josephine Stamberg Walters, divorced him on July 8, 1918, remarried her at San Francisco Jan. 12.

A surprise party at the Washington hotel resulted last night in the arrest of Mrs. Frances Tobias, 23 years old, wife of a Kokomo, Ind., business man, and Jim Demetral of 1110 West Madison street.

SENDS HIS MITE TO AID STRICKEN FOLK OF AUSTRIA

THE TRIBUNE yesterday received from John F. H. Heide, 3917 Grand boulevard, a check for $1, which it has forwarded to James B. Forgan, 1826 Conway building, treasurer of the Vienna Relief fund.

With the check, Mr. Heide sent a letter to this newspaper, saying:

"I have long wondered if you had the moral courage to write something like 'The Austrian Tragedy.' How could I ever have doubted it!

"The same human impulse prompts me to inclose $1 for a TRIBUNE fund to save even a few of the lives now being sacrificed in Austria to the Moloch of imperial greed. That dollar means as much to me as a million to some, and I am not an Austrian, either.

"The people now freezing and starving to death in plain view of the saviors of civilization are not responsible for the war; neither are they among those who have ever treated America and its citizens with contempt. They were more helpless to prevent the great folly than you or I. The military caste which brought it on is dispersed and outlawed, and we surely have no quarrel with the beasts of burden that plodded under their yoke for centuries.

"I submit that any fund you may raise can be turned over to the delegation recently reported to have started on a mission to plead for our compassion — providing you believe the frenzied vultures of Europe would let him through with it."

Oak Park Physicians Clear Dr. Roberts of Charges

A committee of the Oak Park Physicians' club, composed of Drs. A. M. Corwin, H. J. Stewart, L. W. Beebe and C. E. Hemingway, yesterday cleared Dr. T. E. Roberts of 132 North Oak Park avenue of charges that he had received remuneration for his services as director of the Oak Park bureau of the Red Cross. A letter denouncing the charges as groundless was received from Marquis Eaton, head of the Red Cross in Chicago.

POLICE BALKED WHEN PRISONERS GO FREE ON WRIT

Police officials declare they were balked yesterday in an attempt at further identification of six of the most notorious prisoners captured in the recent crime raids by a writ of habeas corpus issued in the court of Judge Hugo Pam.

The prisoners were Victor Rizzo, now under sentence of from one to twenty years for burglary and at liberty on $14,000 bonds pending an appeal; Carlo Moretti, under sentence of from one to twenty years for burglary, under indictment for murder, and at liberty on $40,000 bonds; Carlo Patello, under sentence of from one to twenty years for burglary and at liberty on $15,000 appeal bonds, these first three being members of the notorious Gloriana gang, whose activities were recently broken up by the police; Frank Moretti, under $5,000 bonds on charges of burglary; George Connell, under $5,000 bonds on charges of burglary, and Philip Opp.

The writ was served while the men were being taken to the Desplaines street station for further identification. Judge Pam ordered the immediate release of Rizzo and Carlo Moretti, and ordered the others booked at once.

The four were bailed out at East Chicago avenue station yesterday evening.

1,039 AIRCRAFT AT SHOW SOLD FOR $7,543,000

During the week of the Aeronautical show which ended at the Coliseum last night more aircraft were sold for commercial purposes than had ever previously been sold in the history of American aviation. One thousand and thirty-eight airplanes and one dirigible were purchased during the exposition by dealers, sportsmen, and advertisers.

Total sales of the show reached $7,543,000.

United Aircraft, inc., sold 553 machines. Five hundred were sold to E. J. Johnson of Denver, to be used in sightseeing tours of the Rocky mountains next summer. The total for the 553 planes was $4,245,000. The Dayton-Wright corporation sold ten cabin cruisers. The Curtiss Aeroplane and Motor corporation sold 646 commercial planes for $2,975,500.

Considerable Savings Result from
Boys' Clothing Reductions
Affecting Suits, Mackinaw Coats, Overcoats

When clearances are inaugurated in this section for boys, splendid opportunities are presented, for reductions are always of a very substantial nature. In relation to the pricing, consider particularly the excellence of workmanship and materials characterizing each and every garment.

Boys' Winter Suits Now $17.50

Many of these suits have two pairs of knickerbockers. In their grouping and repricing the values are exceptional. Fabrics are in excellent variety as to patterns and colorings, and our understanding of what constitutes good tailoring has been followed in the making of these suits. All sizes from 7 to 17 years are well represented. $17.50.

Boys' Mackinaw Coats Now $13.50

Those prized sorts of mackinaw coats such as boys require and like are thoroughly well tailored and have convertible collars, patch pockets and belts. Sizes 8 tot 18 years. Grouped at one price for clearance, now $13.50.

Boys' Overcoats Now $16.75 and $22.75

These are coats for the smaller boys, made of chinchilla cloth and novelty fabrics of heavy weight. The styles are sure to present many and varied opportunities for selection. In blues, brown, tan, gray and novelty patterns. All sizes in the assortments from 2½ to 10 years, repriced according to quality, $16.75 and $22.75.

Second Floor, South.

Will You Profit by their Experience?

THE American Railway Express Company is using over 1100 Dictaphones in various offices in the United States. In a month's test covering 18 operators it was found recently that the average daily output was 1,591 letters per day, at a transcribing cost of less than 3⅜c per letter. Whether your office is large or small, we will give you a working demonstration of The Dictaphone on a definite basis of the increased output that means less cost per letter.

neuralgia sufferers

DON'T put up with the torments of neuralgia any longer. Get a jar of Turpo and rub this golden ointment into affected parts. Massage it in until you feel the turpentine quieting the nerve-racking ache —until the camphor and menthol leave a delightful sense of relief.

Turpo cools and soothes—refreshes like sleep. The turpentine gets right to the spot and the camphor and menthol produce a sensation of cooling solace and relief.

Turpo is also fine for nervous headaches. Get a jar from your druggist *now* — 30c and 60c sizes.

CLOTHIERS VOTE TO AID U. S. IN COST INQUIRY

Workers' Chief Refuses to Tell Labor Cost.

The National Association of Retail Clothiers voted yesterday to help Attorney General A. Mitchell Palmer find out what keeps the cost of clothing high. It will name a committee of three to confer with similar committees representing wool growers, manufacturers, and labor at an early date in Mr. Palmer's Washington office. The plan provides that all interests lay their cards on the table.

Sidney Hillman, president of the Amalgamated Clothing Workers of America, was present at the retailers' conference and acclaimed the attorney general's program. "But," added Mr. Hillman, "the garment workers must be paid a living wage, no matter what suits cost."

$5.25 Wool in $60 Suit.

A telegram from Salt Lake City in which Dr. S. W. McClure, secretary of the National Wool Growers' association asserted that the wool contained in $60 to $75 suits could be bought for not more than $5.25, was brought to Mr. Hillman's attention. It was suggested that he might inform the public of the value of the labor. This, it seemed, was out of the question.

"I have the information, of course," he said. "But it is confidential between the garment workers and the manufacturers."

Anselm Frankel of Des Moines and H. L. Rissman of Chicago, both manufacturers, were quite positive, however, that Dr. McClure's figures did not afford a safe basis from which to proceed. "The cost of the cloth alone in a $60 suit," Mr. Rissman explained, "is about $18. But Dr. McClure speaks of the wool alone."

Specific Illustration.

He dignified the garments of a bystander with a kindly but searching glance.

"Now, that suit cost you——"

"Twenty-five dollars, five years ago."

"Well," said Mr. Rissman, "it would cost $42.50 to manufacture it today. Nobody in particular gets the difference. Everybody gets a little bit."

"A little bit—too much!" amended George M. Anderson of Sharon, Pa.

"Prices will have to come down," declared H. R. Figg, special assistant attorney general, in addressing the convention. "The present level cannot be absorbed. A suit of clothes is out of reach of many persons now. Unless the situation is rectified, you will suddenly find the general public without power to purchase, and industries will be idle."

TWO MORE SUGAR FIRMS INDICTED

Albert C. Wolfe, United States district attorney of Madison, Wis., yesterday secured indictments as profiteers against officers of two of the biggest sugar refiners that now supply Chicago.

James Davidson, president, J. E. Davidson, secretary, and W. B. Davis, general manager, all of Rock County Sugar Refining company, and company and officials of the United States Sugar company were named in the blanket grand jury indictments.

They have charged Chicago sugar dealers as high as 21 cents a pound for sugar f. o. b. the western Wisconsin refineries, according to District Attorney Clyne.

THIS ROBIN DOES NOT HIDE HIS HEAD UNDER HIS WING

He Travels Around and Keeps Himself Warm.

Robinhood, the California robin which was found last week by Justice Samuel Harrison, 1561 Sherman avenue, Evanston, in one of his bird houses, did not migrate direct from California to Evanston, but according to a letter from County Clerk Day of Clinton, De Witt county, Ill., received yesterday by the Evanston justice, first stopped at the Day residence for a long visit.

The robin, since its arrival in Evanston, has added its note to those of the three canaries of the justice which are kept in the courtroom.

Letter from Clinton.

Mr. Day's letter says:

"The clipping attached to this sheet was cut from THE SUNDAY 'TRIB.'

"I can hardly believe your little visitor is of California origin—that is, if he came from California I do not think Chicago was his first stop. I feel satisfied that were you to interrogate this newcomer he could at once prove an alibi and satisfy you that he came from a comfortable home in Clinton, where he has spent the winter, until a few days ago, at the home of the writer.

"We missed our little friend the middle of last week, which attracted our attention to the clipping above. The circumstances surrounding this case seem conclusive and warrant our belief that our heir has betrayed his happy home.

Evidence of Identity.

"First—The four days' time would be ample for him to make the journey to your home.

"Second—His business was about the court, he having been making his home with a deputy county clerk, and the fact that he sought his natural haunts when arriving in the city is conclusive evidence to my mind that yours and mine are the same bird. He is a delinquent, and so I give him to you in strict charge that at some future time you must answer to 'Him who marks the sparrow's fall' for the safekeeping of this new recruit."

WOMAN LEAPS TO DEATH.

Mrs. Nora Trainor, 24 years old, committed suicide yesterday by jumping from her bedroom window on the second floor of her home at 4233 West Madison street.

Misses' Delightful New Frocks

Specially Priced for this Selling

$45 : $52.50 : $62.50 : $82.50

FOULARDS, satins, crisp new taffetas—they have been designed into the quaintest and most delightful of Springtime Frocks for misses.

The simple, fitted bodices of which Paris advices speak, coupled with bouffant skirts achieved by full apron-like overskirts, by perpendicular rufflings, by upstanding taffeta plaitings—all are to be observed in this specially made collection. Silks are of a beautiful quality; making has been carefully watched; styles have the winsomeness and charm of youth and Spring.

Sketched above—in the order here mentioned:

At $45—Ruffled taffeta, collared and cuffed with crepe Georgette.

At $52.50—Silk braid, taffeta plaitings and tiny buttons trim this taffeta Frock.

At $62.50—Figured foulard takes sash facings to match the figured color, and narrow ribbons to match the main color.

At $62.50—Trim bodiced, apron-skirted, here chief ornamentation is little points of the taffeta.

At $82.50—Rich satin with crepe Georgette is combined effectively, color-bead embroidered.

At $45—not illustrated—A good model of taffeta, trimmed with bright wool embroidery.

Eatmor

Save by using Cranberry Butter in place of dairy butter—make it by this recipe:

3 quarts cranberries
1 pint water
2 pounds sugar

Cook the cranberries and water until the skins of the fruit are all broken; then press through a sieve, and cook the pulp until it becomes quite thick; add the sugar, and cook for one-half hour over a very gentle fire, stirring constantly. When slightly cool, turn into jars, and cover closely.

ASSOCIATION BOSSES SEE PROSPEROUS SEASON AHEAD

STAGE MEETING AND RAISE LIMIT OF PLAYERS TO 18

Return to Old Schedule of 168 Games Favored.

That American association baseball magnates expect a prosperous 1920 season was evident yesterday by plans made here for the coming campaigns. It was the annual meeting, and one of the first things done was to raise the player limit from sixteen to eighteen men, exclusive of the manager. The magnates also voted in favor of a 10 per cent assessment of gate receipts for a reserve fund. The salary limit issue was not reached, but will undoubtedly be raised at a second session this morning.

So many minor matters were taken up that there was no chance to finish the business in one day, but the delegates expect to wind things up today. The question of the number of games to be played will be discussed. Most of the magnates seem to favor going back to the 168 game schedule which prevailed for a number of years.

Cup for Pennant Winner.

A feature of the happenings yesterday was the appropriation of $100 for a silver cup to be presented to the club drawing the largest attendance on opening day. Another was the decision to purchase a silver cup to be given to the St. Paul club, champions, instead of a pennant, as a flag always is given the champs anyway by one of the sporting goods houses.

Thomas J. Hickey, whose three year term expired, was reëlected for another term of the same length, and J. W. Norton, owner of the St. Paul club, was elected vice president for the same period.

Garry Herrmann Present.

The presence of Garry Herrmann, boss of the world's champions and still chairman of the national commission, at the meeting, had no official connection. Herrmann stated he had come with plans to buy a player or two and it was said he made an offer for Outfielder Miller of St. Paul, but it was not accepted. The magnates present were:

St. Paul—President John Norton, Manager Kelley.

Indianapolis—President W. C. Smith, Vice President William Smith Jr., Manager Jack Hendricks.

Toledo—President and Manager Roger Bresnahan.

Columbus—President Joseph Tinker, Manager William Clymer.

Kansas City—President George Muehlebach, Secretary John Savage, Manager John Ganzel.

Louisville—Business Manager William Neal.

Minneapolis—President George Belden.

Milwaukee—President Otto Borchert.

VAUGHN TO TRAIN AT HOT SPRINGS FOR TWO WEEKS

Big Jim Vaughn, Cub hurler, spent yesterday at Chicago and fanned with ball players and magnates at the American association meeting. The sturdy southpaw returned a couple of days ago from a month's visit at his old home, Honey Grove, Tex., and departed last night for Kenosha to resume work with the Nash Motor company.

Vaughn intends to put in at least a couple of weeks at Hot Springs prior to the start of the Cubs' trip to California and indicated that with the preliminary training and the month on the coast he would be ready to hurl at top speed when the season opens.

ST. MEL, 23; DE LA SALLE, 11.

St. Mel heavyweights opened their Catholic High league season at Joliet, where they took De La Salle High to a trimming, 23 to 11, last night. The game was half a double header, St. Mel Cubs also winning, 15 to 5, from the home 105 pounders. Divane led the scoring in the big game.

BASEBALL REJECTED, BUT PURPLE APPROVES BRIDGE WHIST MEET

Northwestern university is not going to play baseball next spring but plans are under way for a big bridge whist inter-fraternity tournament, it was announced yesterday. The faculty committee decided "that the university is not yet ripe for baseball."

With the announcement of the ban on baseball came the plans for the bridge whist tournament, in which all the fraternities at the school will participate.

Golf was voted one of Northwestern's intercollegiate sports in the faculty meeting. With the numerous courses in the vicinity of the school, Northwestern expects to bring the conference tournament to Evanston.

TWO AUSTIN FIVES WIN.

Lightweight and bantam teams of Austin administered a double defeat to Harrison, the former winning in a romp, 45 to 7, while the latter game was well contested, 7 to 4.

TEAMS, 49 OF 'EM, IN BASKET RACE OF 'PREP' LEAGUE

19 Schools Enter Fives; Play in Four Sections.

Forty-nines teams were entered for the annual basketball whirl of the Chicago High School league at the schedule meeting of the faculty board's committee yesterday in the board of education rooms. Nineteen schools will play, none entering less than two teams. Further additions to the chart of contests may be made before Monday, Feb. 2.

The preliminary round of play will end March 4, after which semi-finals will be played. The league was districted into four sections as follows:

Northern—Senn, Waller, Lake View, Schurz, Lane.

Western—Marshall, Harrison, Austin, Crane, McKinley.

Central—Hyde Park, Phillips, Tilden, Englewood.

Southern—Fenger, Bowen, Morgan Park, Parker, Calumet.

Lane Swimmers Win Meet from Harrison, 48 to 44

Despite the work of Jones of Harrison, who won three firsts and figured in the victory of his school in the relay event, Lane swimmers captured a dual swimming meet in Harrison's pool, 48 to 44, yesterday. Summaries:

BIRD NOTES.

THE common species of gulls found in the region of the Great Lakes in the winter are the herring and ringed bill. The former can be told by his larger size, and his flesh colored feet. The feet of the ringed billed are bluish in tint, as if the poor bird had frozen them in the cold water; he also has a distinct dark ring on his bill. The darker colored birds seen in our harbors at this season are usually immature herring gulls.

The habits of the ringed bill are similar to those of the herring gull, except that they will stay longer in the interior, living on insects which they take on the wing with remarkable skill. Individuals of both species often remain with us throughout the spring and summer.

* *

Among the occasional winter visitors we have the Iceland gull, the kittiwake, the great black backed gull, which superstitious sailors call the "coffin carrier," and the glaucous gull, commonly known as the burgomaster. Probably some old salt once saw a burgomaster, and was reminded of him by the pompous, self-satisfied bearing of the glaucous gulls.

* *

Our commoner summer visitors among the gulls are the Franklins and the Bonapartes. These birds are smaller and trimmer in build than other gulls, and, except for their webbed feet, they suggest plovers; in fact, we have seen gunners shoot at them for such. Both birds are insectivorous, but it was not many years ago that every millinery store had a stocks of their wretchedly stuffed skins for hat "ornaments"!

* *

The gulls offer some interesting material on bird migration. Some of them move only a few hundred miles south of the arctic circle, while the Sabine's gull travels from the arctic to Chile, over 5,000 miles; Franklin's gull breeds farther south, but travels as far. Heerman's gull reverses the usual order, breeding in South America and coming as far north as British Columbia in the summer.

ST. JOHN'S CADETS BEAT SOLDIERS.

Delafield, Wis., Jan. 15.—The St. Johns Military academy five easily defeated the soldiers from Camp Grant tonight by a score of 56 to 5. Campbell was the big point getter for the cadet team.

TWELVE PLAYERS MAY ENTER EVENT FOR CUE HONORS

Limit Likely to Be Raised in 3 Cushion Tourney.

Prospective entrants for the national amateur three cushion championship, starting at the Chicago Athletic association Jan. 26, are so plentiful it may be necessary to raise the list from ten to twelve players.

Five entries are practically assured from outside cities and as the Chicago Athletic association, Illinois Athletic club, and Hamilton clubs each will have one representative there are eight in line. In addition Dr. W. O. Campbell, Stanley Kandul and Louis Engels, all unattached, have joined the national association and sent in their entries.

Walter Brewer has been selected to represent the Hamilton club, and the C. A. A. is holding an elimination tournament to determine its representative. The players are Dr. H. W. Sutcliffe, Earl Patterson, Harry Kuhns and Otto Spielman.

AT THE BILLIARD ROOMS.

At Foley's Parmalee [36] defeated Magahy [32], 36 to 16. Hope and Mahan meet tonight.

In the Commonwealth Edison straight rail tourney at Bensinger's Monroe, Daleiden defeated Powell [150], 125 to 143; Grover defeated Hoffman [150], 145 to 143, and Jamieson won from Edkins [145], 145 to 148.

Two rattling good games were played in the Chicago league. At the Kieckhefer Recreation room Charley Morin defeated Burton [43], 55 to 41, in eighty-eight innings, each having a high run of 4. At the Ace Le Gros defeated Jim Shea [50], 50 to 43, in eighty-two innings. Le Gros had runs of 6 and 5, Shea getting a 4 for high.

LEGION CHIEF TO TAKE NO ACTION ON JACK DEMPSEY PLEA

CHAMP WILL NOT GET HEARING ON SLACKER CHARGE

"Does Not Concern Us," Says Col. D'Olier.

Philadelphia, Pa., Jan. 15.—[Special.] The American Legion has not branded Jack Dempsey a slacker, and probably will not have anything to do with the situation which has arisen as a result of instances in which separate posts of the American Legion took it upon themselves to term the world's heavyweight champion as such.

This attitude was taken tonight by Col. Franklin D'Olier, national commander of the American Legion, who addressed a meeting of post No. 174 of this city prior to his return to national headquarters at Indianapolis.

"None of Legion's Business."

When asked whether the legion would grant the request of Jack Kearns, manager of the champion, to give Dempsey a chance to bare his war record before the national organization, Col. D'Olier replied that he did not think so, as it was none of the legion's business, so far as he could see.

"I know nothing of this officially," the colonel explained. "It is hardly a matter for the national body to consider. We have problems enough of our own and we are not branding anybody a slacker. Until it is officially brought to my notice by some state body I shall not even consider it, and then only as it concerns the regular order of business.

"I see no need of giving Dempsey a chance to explain this or any other matter before us when it does not concern us."

Dempsey Not Ship-Worker.

An explanation of the much touted connection of Dempsey with a local shipyard also came to light during the day when it developed that Dempsey was never connected with a shipyard in any official way and never received any pay for the semi-official work he did.

Substantiation of Dempsey's claim that he did not receive deferred classification in the draft was promised by officials of the shipyard in the form of a statement to be forthcoming, it being asserted that the only connection Dempsey ever had with a shipyard was when he crossed the continent to fight Willie Meehan in San Francisco for the benefit of a war charity. During this trip he was accorded semi-official recognition as a scout that he might recruit workmen and send them here.

"DEMPSEY NOT SLACKER."

San Francisco, Cal., Jan. 15.—Jack Dempsey, heavyweight champion of the world, "is in no sense a 'slacker' or draft dodger," according to a statement today by John S. Hogan, San Francisco attorney, who headed the exemption board here which handled Dempsey's case.

Dempsey's status as a married man and the fact that he was supporting his parents and an invalid brother and [illegible], in addition, was making payments on a ranch for his parents, [illegible] the fighter's exemption claims, Hogan said.

Peoria Legion Post Asks Investigation of Dempsey

Peoria, Ill., Jan. 15.—Peoria post of the American Legion, representative of [illegible] members, tonight referred Jack Dempsey, world's heavyweight champion, to its un-American activity committee for investigation. The resolution, which charged him with being the champion "slacker" of the world, brought cheers.

Field of 452 Skaters Enters Alverno Meet

That ice racing has taken a firmer hold on the younger generation than ever before is shown by the fact that 452 skaters of various ages will compete in the annual derby of Alverno A. A. at Humboldt park Sunday. Twelve events are on the program, and it will be necessary to stage at least thirty races before the winners are determined.

Prizes Given for Races of Kosciuszko Derby

Prizes donated by Wautau A. C. and northwest side business men will be awarded winners of the skating races at the annual Kosciuszko Park derby Sunday morning. Racing will start at 10 o'clock. Schedule of events:

[illegible] yards, for boys under 14 years old.
[illegible] yards, for boys under 16 years old.
[illegible] mile, for boys over 16 years old.
[illegible] mile open derby for silver cup.

BOXING BILL FRAMED FOR NEW YORK STATE

ALBANY, N. Y., Jan. 15.—[Special.]—Restoration of boxing in New York state will be asked of the legislature Monday night in a bill to be introduced by Assemblyman Ross.

The bill will provide for a state boxing commission of three, in whose hands will be placed full supervision of the sport.

Bouts to a decision over any length decided upon by the commission are provided. All executive details covering the site, the officials, and the rules also are left to the discretion of the commission.

Ten per cent of the gross receipts would revert to the state.

RICKARD BIDS FOR BIG FIGHT

PARIS, Jan. 15.—M. Descamps, manager of Carpentier, today said he had received nothing definite with regard to an offer for a fight between Carpentier and Jack Dempsey. As he is under contract to C B. Cochrane, the English promoter, he said he could give no reply to the propositions received. Among these is one from Tex Rickard for $200,000 for Carpentier.

"I am under the impression," said Descamps, "that the match will be fought in America for the sole reason that I do not believe Dempsey will fight in our country. Carpentier would prefer to fight in France and would be willing to sacrifice half of his purse to bring ten or fifteen million francs into the country."

Dundee and Henderson in Draw at Springfield

Springfield, Ill., Jan. 15.—Boxing was revived in this city tonight with a fast ten round draw between Mike Dundee of Rock Island, and Marty Henderson of Joliet. Henderson shaded Dundee early in the fight but the Rock Island lad evened up before the close.

CORKERY SKATERS CAPTURE MEET.

In a dual skating meet last night at Corkery playgrounds George Sinnenleiter's Corkery team defeated Gary, 45 to 10. In addition to the playground event, Roy McWhirter of the I. A. C. won the class A one mile, and fancy skaters gave exhibitions.

COULON IS MATCHED WITH FRENCH CHAMP IN PARIS ON MARCH 3

Johnny Coulon, former bantam champion of the world, is going to fight again. Furthermore, he is to be one of the principals in an international clash against Charles La Dieux, champion of France. They will don the mitts in Paris March 3.

This information, which is a bit startling in view of the fact that Coulon hasn't engaged in a ring contest for a couple of years, was conveyed yesterday in a cablegram from Nate Lewis, who went abroad with Pal Moore and Johnny Griffiths, American scrappers. Lewis said the match had been closed, and that Coulon and La Dieux were scheduled to box twelve rounds to a decision.

Pal Moore is on his way back from Europe, and is due to get off the boat in New York next Tuesday. It is thought he will endeavor to get a match with Jimmy Wilde.

Frankie Callahan and Tommy Holderson, featherweights, are billed in the feature bout of a card at Gary, Ind., tonight. These chaps, who have a considerable local following, will be followed to the steel city by a bunch of fans.

New Yorkers to Meet in Pinehurst Trophy Round

Pinehurst, N. C., Jan. 15.—[Special.] T. R. Brown and Roy Barnhill, both New Yorkers, will meet tomorrow in the final of the golf tournament of advertising men. Both won today in the class "A" first eight. R. M. Purves, Boston, and L. A. Hamilton, Garden City, were the respective victims.

Numerous extra hole matches were played. Walter Manning of Exmoor, after squaring his match with F. N. Close of Baltusrol, at the eighteenth green, was beaten at the twenty-seventh.

W. V. O'Brien, Exmoor, lost in the class "C" first eight, 4 and 3, to F. L. Wurzburg, Siwanoy. In the same eight C. E. Johnson, Evanston, beat H. C. Millholland, Oakmont, 6 and 5.

ILLINOIS WILL RENEW RELAYS ON MARCH 6; DELANEY TO REFEREE

Martin A. Delaney, physical director of Chicago A. A., has been selected as referee of the renewal of the University of Illinois' relay games at Urbana, March 6. The announcement was made yesterday by Harry Gill, coach of the Illini track team, who was in Chicago on private business.

In addition to the relays, an indoor pentathlon will be decided. There will also be invitation events, such as 100 yard dash, high and low hurdles, and field events yet to be decided upon. According to Gill, the length of the relays will be one, two, and four miles, in addition to a one mile medley.

Onwentsia Golfer in Final Match at Belleair

Belleair Heights, Fla., Jan. 15.—[Special.]—G. N. Aldridge won today in the semi-final round in the New Year's golf tournament and will meet Milton Wilson of Onwentsia in the final tomorrow. Aldridge eliminated R. C. Munger, Birmingham, Ala., 4 and 3. Wilson put out C. E. Schell, Cincinnati, 3 and 2.

HARVESTER SKATERS TO RACE.

The Harvester Skating club, composed of employés of the firm, will hold a derby on the rink in Grant park tomorrow at 1 o'clock. There will be races for boys and girls of different ages and contests for men and women.

LAKE SHORES COP INDOOR GAME.

Lake Shore Park defeated the Seward Park Juniors at indoor baseball at Lake Shore Park last night, 22 to 3.

MEMPHIS MAN SEEKS GOLF MEET

Charles Pfeil of the Memphis Country club arrived yesterday to present the claims of his club for the western amateur championship at the annual meeting of the W. G. A. Saturday. The south never has staged the event and Pfeil believes it would stimulate the game in that section and give a number of young players of great ability a chance. Among these is Jack Wenzler, 16 year old boy, who has won the Tennessee state and Memphis city championships. Knoxville and Chattanooga also have players of ability.

GARFIELD CLUB TO PETITION FOR PRESERVE LINKS

West Siders Seek More Facilities for Sport.

Imperative need for more golf facilities on the west side was the main topic of discussion at the annual meeting of the Garfield Golf club. The nine hole course at Garfield park and the small course to be opened this summer at Columbus park are inadequate to accommodate the players who live west of the river.

Plans were made to petition the commissioners of the forest preserve to establish a course, in place of the one they proposed to construct at Thirty-ninth street and Harlem avenue, but later abandoned. The members plan to get from 20,000 to 25,000 signatures to their petition.

Governors elected were Marshall Moreau, E. Walker, Ray Caldwell, Archie Kennedy, J. C. Piety, J. McNamara, Andrew Humphrey, and W. O'Heron. McNamara and Humphrey succeed E. C. Tubbs and J. Barnett, whose terms expired. Officers will be elected at the next meeting.

Rial T. Rolfe, one of the Flossmoor stars, will leave Feb. 1 for Florida. He has shipped his machine to Jacksonville and from there will motor to Palm Beach and Belleair and take part in some of the tournaments.

Cameron Trent, last year at North Shore, and James P. Lawson of Ravisloe, have joined the Clarendon Beach indoor school.

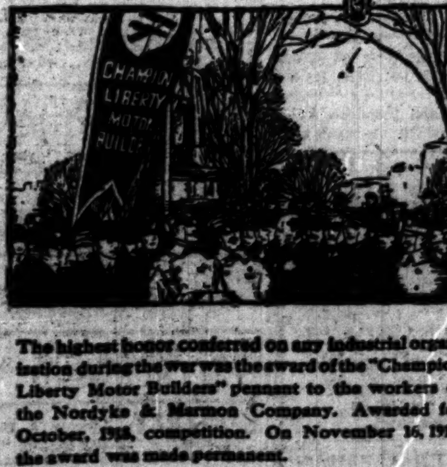
POST-WAR MARMON

Many of those who crowded the Marmon booth at the New York Show will not buy cars this year. All, however, were attracted to the exhibition by a desire to see the new car and the remarkable engineering features which have elicited so much favorable comment from press and public.

We believe you will be equally interested if you will visit our salesrooms to-day. Several of the new cars are being shown here in a special exhibition provided to give Chicagoans an opportunity to see this remarkable motor car at the time it is first being publicly exhibited in New York.

It is possible to provide a fifteen-minute demonstration under road conditions for those who desire to feel the exceptional acceleration, absence of vibration, superior power and exceptional riding qualities.



The highest honor conferred on any industrial organization during the war was the award of the "Champion Liberty Motor Builders" pennant to the workers of the Nordyke & Marmon Company. Awarded for October, 1918, competition. On November 16, 1918, the award was made permanent.

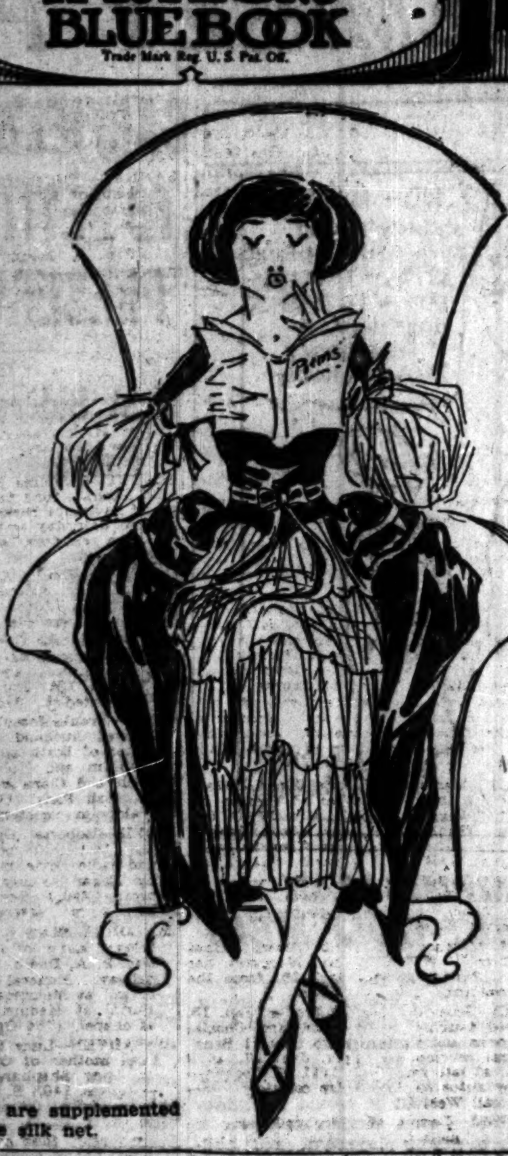
FASHION'S BLUE BOOK

Trade Mark Reg. U. S. Pat. Off.

BY CORINNE LOWE.



NEW YORK—[Special correspondence.]—The hip line has become the official Bide-a-Wee home for draperies. And only the formal spring opening of styles can remove those draperies to other abodes. Of course the classic line in evening gowns and either the chemise or moyen age frock for daytime wear is sponsored by the most fashionable women. Yet for the young girl we continue to be bouffante.

Here is an afternoon dress for the miss which is as charmingly quaint as any we have seen. It is made of the taffeta being elected so widely for southern wear and the color is black. With this, however, is combined silk net in that lovely red of nasturtium or pomegranate. The taffeta is held out over the hips by cordings; the pointed bodice is held in by narrow ribbon of black faced with nasturtium red, and the cap-sleeves are supplemented by huge puffs of the silk net.

POTATO PLANTING

BY FRANK RIDGWAY.

There are several weeks between now and the time for planting potatoes, but today in the storehouses of many experienced truckers and home gardeners may be seen a pile of tubers labeled "seed potatoes." These men realize the importance of planting good seed potatoes and know that poor seed are expensive even as a gift. They have found that the difference in yield of an acre of potatoes grown from poor seed and good seed is often more than 100 bushels.

Poor seed potatoes often come from the practice of using what is left of the previous season's crop, after having marketed or consumed the best. The man who expects to get good yields should have seed from the home grown crop, especially if he has good, sound specimens of a variety that does well in his locality. This is particularly advisable in obtaining stock to be planted this spring, for good seed potatoes probably will be scarce and the prices high.

The seriousness of the Irish seed potato situation will be more apparent later on. It is due to the fact the late or main crop of potatoes was rather light last season. In some sections the crop of last year was weakened by the heat and drought during the summer. This not only decreased the yield, but resulted in potatoes that would make poor seed for this spring's planting.

High prices for potatoes were indicated last fall when No. 1 Michigan, Wisconsin, and Minnesota standard round white varieties sold in the leading terminal markets as high as $3.50 a hundred. This was followed by a drop in the market, but at the end of the year they were selling at $3.25 to $3.50 per hundred. Prices at the beginning of this year were about $1 a hundred higher than they were at the same time last year.

Potatoes rank second to wheat as a human food. Growers should start saving seed now as the first step in planning for the coming season.

How to Order Clotilde Patterns.

Write your name and address plainly on dotted lines, giving number and size of such patterns you want. Inclose 12 cents in stamps or coin (wrap coin carefully) for each number, and address your order to Clotilde, CHICAGO DAILY TRIBUNE, Chicago.

Note: Clotilde patterns are made in New York exclusively for THE CHICAGO DAILY TRIBUNE. They are perfect in fit, up to date in style, and the easiest of all patterns to use.

Bright Sayings of Children

The Tribune will pay $1 for each childish saying printed. The story told must never have been printed in any magazine or paper. It is not possible to acknowledge or return unavailable contributions. Please write on one side of the paper. Address bright sayings to Aunty Bee, Tribune, Chicago.

Mother had to go out, so in her absence Beth was to take care of brother. On mother's return, Beth said, "O, mamma, I just wish sometime that you would stay home to see how bad brother is when you're gone."

C. S. C.

Gertrude found a cat and shortly after a neighbor asked her its name. "O, I don't know yet," answered the youngster; "I called it every cat name and it won't meow to any of them."

C. C.

One morning the baby had a hard fall down the cellar stairs, and his screams frightened mother into tears. The tears just would come even after baby had been rocked and soothed and was at play again. Little Margaret stood by in wonder at the unusual sight

and then quietly suggested: "Mother, don't you want to rock yourself now for a while?"

EMBARRASSING MOMENTS

The Tribune will pay $1 for every letter published on "The Most Embarrassing Moment of My Life." Address Embarrassing Moments Editor, Chicago Tribune. Write on one side of the paper. No manuscripts returned.

Giving Him Sam Hill.

My husband was in the habit of attending lodge once every two weeks on Saturday night, and would stay until quite late. On such occasions I would lock all the doors but one, which was in an inclosed porch, and take my little girl and go upstairs to bed feeling quite safe. My husband understood this and would come in without disturbing me.

On one of these nights I was awakened by a pounding on the door which was locked. Thinking it was my husband, I paid no attention, but the pounding continued.

Finally, quite disgusted, thinking he should know enough to come in at the other door, I raised the window and hollered down, "Why in Sam Hill don't you go around to the other door?" A strange voice spoke: "I have a telegram for you."

I had to go down and face him, but fortunately for me there was a mistake in the delivery; but that made it no less embarrassing.

BEAUTY ANSWERS

BY ANTOINETTE DONNELLY.

JEANNE V. V. C.: ASTRINGENT for enlarged pores? It takes a little time and patience to correct enlarged pores. Generally speaking, the pores are enlarged because they have become clogged with secretions, so it will be necessary first to use a face brush and pure soap to free the pores from secretions. First scrub the face in hot water and soap, rinse off with warm water, then apply cold water. If possible rub ice over the enlarged pores after scrubbing them, as it is most effective in closing the pores and toning up the skin. Witch hazel is one of the best astringents known. It is more effective when warmed. It may be heated by immersing the bottle in a receptacle of hot water. The following is a simple lotion: Rose water, 6 ounces; elder flower water, 2 ounces; simple tincture of benzoin, ½ ounce; tannic acid, 10 grains.

DORIS BLAKE'S ANSWERS

Sort of an Outsider.

"Dear Miss Blake: I am a young man of 18, have spent my time in work and study. Now I have a bit of time for social affairs, but find that I am a sort of an outsider, not because I am not known but because I find I am not as gay and light hearted as the other young people are. You have helped so many others in trouble I sincerely hope you will help me.

"S. A. S."

Accept every invitation that comes along and gradually you will find yourself more at ease and more one of the party. After one has been a recluse a sudden blossoming forth into social life is trying, but, like everything else, all it requires is a little practice in the art of easy conversation and good hearted fun.

A Friend in Need

Sally Joy Brown

I want to be the medium through which the friend in deed and the friend in need may be brought together. It may be you have some discarded article which has not outgrown its usefulness that will make some less fortunate one happy, and you would gladly give it if you knew how to go about it. Write to me and I shall be only too happy to be of service to you. Please write on one side of the paper.

When information is wanted by mail a stamped, addressed envelope should accompany the request. Please do not send parcels to The Tribune, but write for the address of the applicant and send direct.

Baby Needs a Go-Cart.

"I am a working woman and have two children, a girl of 8 years and my sister's baby of 16 months. The baby's mother died of influenza and though the child is quite large he is and will be unable to walk for some months, due to weakness of spine and legs. As much as I should like to take the child out for an airing he is too heavy for me to carry. I would be grateful if I could obtain the gocart Mrs. J. W. has to give away. Would call for it. MRS. C. M."

I am sorry to report that the gocart donated by Mrs. J. W. has been given to an earlier applicant. I shall, however, put your name on file and remember you when another offer is made.

Pay of Babe Ruth and Boxer Dempsey Arouse Helen Taft

New York, Jan. 15.—It would be better for college professors to strike in a body for higher pay, than to strike individually by leaving their profession, declared Miss Helen H. Taft, acting president of Bryn Mawr college, in an address here tonight.

HELEN TAFT.

Miss Taft asserted it is to avert necessity for a strike of any kind that the colleges of the country have launched their drives for funds. She declared teachers already have begun a revolt against less than a living wage and that "radicals have appeared among the teachers in New York schools and one at least in Boston."

◆

Hundreds of schools in New York and Maine have had to close for lack of teachers, she said, and unless salaries are increased, "a few years will see us without teachers."

"The discrimination against the teacher in contrast with those who follow other professions has been marked," she continued. "The public will pay Babe Ruth $20,000 for half a year and Jack Dempsey $100,000 or $300,000 for a single fight, but they will not pay their college professors enough to live on."

◆

Explaining that her statement this fall that professors should form a union and strike to enforce their demands "was not intended to be wholly serious," Miss Taft nevertheless declared "the teacher is under no contract to stay in his profession, and if he were he would have every justification for breaking the contract at present."

MISS TAFT HERE TUESDAY

Miss Helen Taft will arrive in Chicago Tuesday to discuss plans for the Byrn Mawr college drive for $2,000,000 to increase teachers' salaries.

Miss Taft has been dean of Bryn Mawr college, and this year is acting for President M. Carey Thomas, who is taking her sabbatical years abroad. Miss Taft is the youngest college head in the country.

No Teachers, 5,300 Pupils Idle Here

About 5,300 pupils in elementary schools throughout the city were without regular or substitute teachers yesterday. Though all available substitutes were put to work, 114 classes had to go without. This is a record for the school year. Superintendent of Schools Mortenson stated that the situation will be relieved somewhat by next week, when 115 cadet teachers are expected to graduate from the normal school. The board of education, in an effort to meet the shortage, is continuing to issue temporary certificates to those who have had previous teaching experience.

Tribune Cook Book

BY JANE EDDINGTON.

Smoked Salmon.

Smoked salmon is usually as salty as the briny ocean. It is not good to eat anything so salty, nor is it safe to eat this fish raw as some people are said to do. It is expensive, yet perhaps not more so than canned salmon. It has the advantage of being in one piece, and we can therefore broil it as we cannot canned salmon; that is, if we get a more or less thick slice and not the thin slivers in which it is often cut.

Whether anything so salty is worth eating for real nutriment is questionable, and whether when soaked it is worth while is doubtful, but if we want to use it to flavor a dinner of vegetables here is a way:

Scrape clean and pour boiling water over the salmon. Let stand half an hour, pour off the water and add fresh water not quite so hot. At the end of an hour take out of the water, drain, let stand in a French dressing in which there is a sliced onion for an hour, turning it several times, then broil like fresh salmon.

Serve with a sour sauce or butter and then squeeze lemon juice over it. Any left over may be served in a white sauce prepared without salting or in a salad which should not have salt in the dressing. If the salmon should be too salty after this treatment it is best to use it in a sauce or salad.

Important Mr. Ruffo Makes Sad "Hamlet" Sadder Still

BY W. L. HUBBARD.

Ambroise Thomas' "Hamlet" was revived last night at the Auditorium. There may be operas in which the music is more uninteresting and the drama more ridiculous than in this long neglected work of the French composer, but if there be, they, fortunately, are not included in present day repertory.

Forgiveness might be extended to the librettists for their disfiguration of the Shakespearean tragedy—it is so bad it is humorous—had they succeeded in producing an opera book that was effective, or interesting, or entertaining, or anything except weak and nonsensical. As it is, it is the absurdity among librettos, and the music is drivel when it is not hollow bombast and splurge.

◆

Only a performance of transcendant brilliancy could justify presentation of such a work. And the performance last evening at the Auditorium was far from being such. Mr. Ruffo is credited with being an exceptional Hamlet, and such is the value of publicity and of reported high salary that the public filled the Auditorium, awaiting a dazzling display of vocal and histrionic art by this vastly overrated singer.

Never was an evening more devoid of satisfaction. What was seen was a Hamlet who, in appearance and action, was easily 50 years of age, whose make-up suggested the desirability of a good shave and a wash, and who, when he was not rambling wide-armed about the stage, was flopping into chairs, falling onto benches, or flinging himself onto couches.

He looked and acted old enough to be the father of Queen Gertrude or King Claudius, and even in the "Drinking Song" there was not a hint of youthfulness or spirit.

Mr. Ruffo probably thought he was suggesting sadness and sorrow. He gave only the impression of senility and stupidity. And vocally he employed not a bright or clear tone throughout the course of the evening. He darkened the voice until it was almost persistently flat and he swooped and scooped to tones in a way which would have discredited an amateur.

As for observance of rhythm or tempo, there was none. He did just what he pleased and when he pleased, and Mr. Charlier and the orchestra scrambled along as best they might. Only when in the entr'acte he spied Miss Garden in a box and ostentatiously waved, bowed, and then sang his encore to her did he show any animation—then, and when, after the fourth act, he came out without wig and thus kept the recalls continuing.

A sadder exhibition of voice and acting gone wrong through self-satisfaction and assumed greatness the opera stage has not seen in many a day.

◆

Miss Macbeth was Ophelia and accomplished about all she could in the pale, formless rôle. She looked winsome and girlish, acted with understanding, and sang the music with refreshing accuracy as to pitch, with clarity and ease, and in the final act with brilliancy. Miss Van Gordon merits warm commendation for her singing as Gertrude, her voice being a lovely one and admirably used. Mr. Lazzari was the Claudus and Mr. Cotreuil the Ghost.

No performance tonight. Tomorrow afternoon "The Love of Three Kings."

300 Y.M.C.A. Leaders Hear Annual Report

Three hundred officers, committeemen, and business men, who served with the Y. M. C. A. abroad and at home during 1919, attended the thirty-second annual meeting of the board of managers of the Chicago association last night in the La Salle street building.

Frederick T. West was elected to the board of managers, and the following officers chosen: W. F. Hypes, president; William Frances, first vice president; Francis W. Parker, second vice president; C. T. B. Goodspeed, recording secretary, and Leverett Thompson, treasurer.

VOL. I. NO. 23 CHICAGO, FRIDAY, JANUARY 16, 1920 *HOME EDITION

From Sunny Nippon—New Spring Clothes for Little Boys and Girls

The Juvenile Floor The Fourth

THE NEW FROCKS and Suits from Japan are out of their boxes and may be purchased now.

The children who get their things from Marshall Field & Company have the resources of the world from which to draw.

Japan is only one of the many countries that contributes.

And this special Japanese Edition of *The Juvenile World* will probably be followed by the special editions of other nations as the merchandise of other nations is received.

Every Little Boy Must Have One Silk Suit

Fashion says so — but besides Fashion, a silk suit is so cool and comfortable. And it stays clean such a long time, too.

Oliver Twists are to be had with pongee trousers, and white silk blouses. Sketched left. Sizes 2, 3, 4, $8.75.

The little peasant styles, sketched right, white habutai silk, hand smocked. Sizes 2, 3, 4, $6.95.

Infants' Room.

Traveling Frocks Keep Little Girls Looking Spandy Fresh

When our Buyer was in Japan she made some special purchases for little girls' Traveling Frocks of the soft pongee that doesn't wrinkle and for whose smooth surface dust and dirt seem to have no interest.

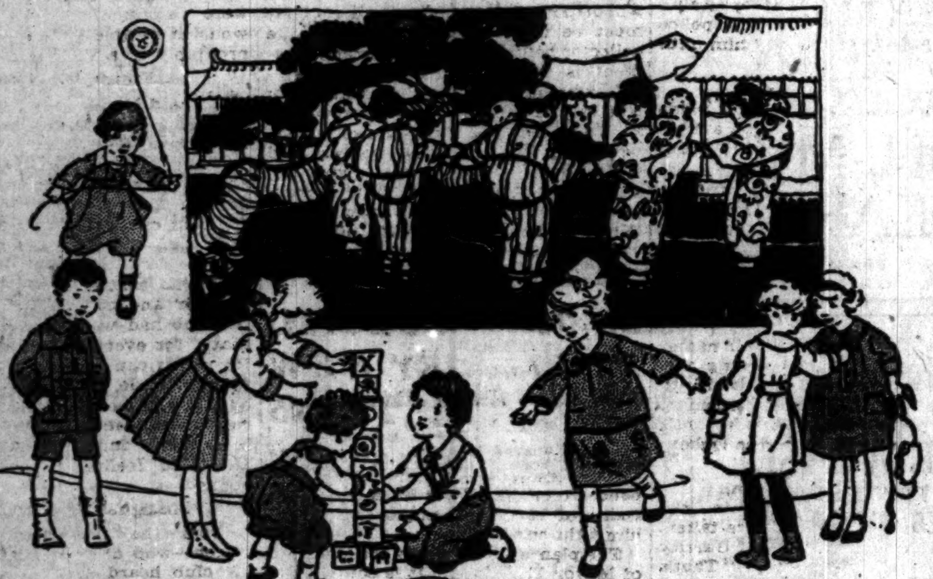
The Frock, left, in sizes 2 to 6, $8.50; Infants' Room. The Frock, center, in sizes 6 to 12, $11.50; Big Sister's Room. Bloomers to match, $3.95.

Middy Blouses of pongee are $8; of white habutai, $9.50. Plaited Skirts of pongee, $5 and $8; of white habutai, $8 and $11.50.

And There Are Beach Suits for Little Boys

Such as the one that Brother wears, up above,—soft, durable cotton crepe from Japan. The colors are tan, corn, copen and rose; sizes 2, 3 and 4, $1.95.

Infants' Room.



Clothes You Can Play In

Half the Reason Little American Girls and Boys Have So Much More Fun Than Japanese

Kimonos all swirled about your legs may be very picturesque, and shoes with two sets of "heels" may look most charming in a sketch—but hmn, you can't climb a tree in such regalia; why, you can hardly hippity hop.

The sketch above shows a group of little Japanese hampered by clothes and custom, contrasted with a group of little children such as you, whose every garment is made with the deepest concern for unrestricted action of legs and arms.

That is why when our Buyer goes to Japan she takes our own models; here is where America excels. But in the matter of the fabrics she goes for, there is where Japan excels.

Sketched here are our newest Frocks and Suits from Japan, their fabrics; our styles—a happy combination (from left to right).

DUTCH ROMPER of cotton crepe, yellow, pink, tan, light blue and copen. Sizes 2 to 6, $1.95.

Infants' Room.

NORFOLK MIDDY Suit, natural pongee, sizes 2½ to 7, $9.75.

Boys' Own Room.

PLAITED SKIRT of natural pongee with white habutai blouse, pongee trimmed and edged with hand work. Sizes 6 to 14, $18.50.

Big Sister's Room.

DUTCH ROMPER, cotton crepe white waist with collar and cuffs and trousers in pink, yellow, tan, light blue and copen. Sizes 1 to 3, $2.50.

Infants' Room.

OLIVER TWIST Suit, pongee trousers with white habutai silk blouses. Sizes 2½ to 6, $8.75.

Boys' Own Room.

PONGEE FROCK, Jap middy style, bound with blue silk edge with blue embroidered skirt—most quaint. Sizes 6 to 12, $18.50.

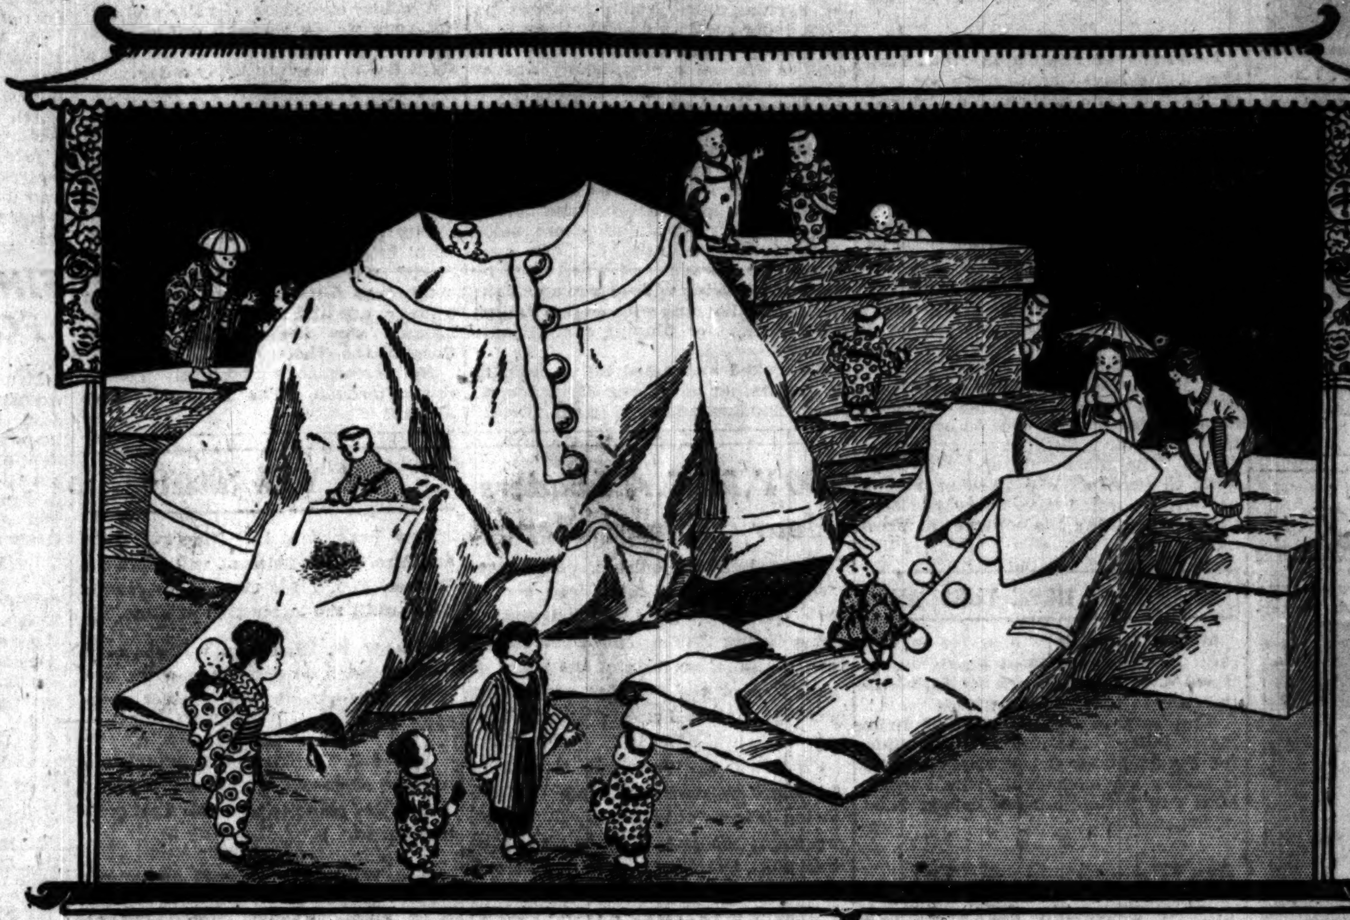
Big Sister's Room.

COLORED FROCK of cotton crepe, with white collar and cuffs. Sizes 2 to 6, $3.50.

Infants' Room.

FROCK OF COTTON CREPE in yellow, pink, green, light blue and copen piped in white. Sizes 2 to 6, $3.50.

Infants' Room.



Miss Muffet Has a Real Japanese Doll

And it is exactly like the dolls little girls play with in Japan.

It has straight black hair and almond shaped eyes, and wears a kimono—but the nicest thing about it is its chubbiness. $1.50. *Toy Section.*

Sandals that are made of wood and built on sticks like these and that go clog, clog, clog upon the pavement—such are the shoes of the Japanese.

But how much more comfortable it must be to wear Field Frolic Shoes like yours.

Fourth Floor.

A Brand New Purse with a Chain

That is what Mary Jane was carrying with so much pride today, and she didn't mind at all who cast admiring glances at it.

Her Daddy bought it for her in the Toy Section. "It's satin and it's from Japan," she said, "and see the pictures of the little Japanese children on it." 50c.

Toy Section.

Writing Paper With Pictures On It

The pictures are very artistic. They show cypress trees and volcanos and scenes typical of Japan. 50c.

Stationery Section, First Floor.

Cherry Blossoms and Japanese Violet

These are the golden labels upon two tiny bottles of perfume, just doll size, that come all fitted out in a little lacquer box from Japan.

And such a box! It even has a handle by which to carry it.

Perfume and box, $1.50. First Floor.

Japanese Little People Think You Must Be Very Strange

There are Little People in Japan, and they are quite as small and just as curious as the Little People in America.

One night the Japanese Little People playing in one of the shops came upon boxes getting ready to be shipped to the Juvenile Floor, Marshall Field & Company, Chicago. They were very much interested in one of the frocks for a little girl and one of the suits for a little boy which had not yet been packed.

"What very queer clothes," said Togo. "They are pretty but so different from ours."

"They're to go to America," said Toto. "I have heard that in the United States little girls and boys wear just such funny sort of clothes."

"But our clothes look as funny to them," said Nopo.

And Nopo was right.

Girls wear their bows upon their backs, enormous bows like these. To wear Bows on their heads like you—is not for the Japanese!

And what a lot they miss, for pretty hair ribbons are such lovely things to possess, and little girls naturally love them, especially if they come from our Ribbon Section for Little Girls, on the First Floor.

Boys' hats are curious things. Some even look like these. They'd never do for you, that's true. Nor yours for the Japanese.

No—what you want are the regular things for a regular American boy — such as the hats and caps to be had from the Boys' Own Room on the Fourth Floor.

You'd Think They'd Wear Them Themselves

Stan and Bill invested in some Blouses—pongee silk which came over in this Japanese shipment.

"They're such comfortable feeling things," said Stan, "and they look so blazing stylish, too. I can't for the life of me see why those Japs don't wear them themselves." Sizes 6 to 16, $5.50.

Boys' Own Room.

Betty Binks Buys an Elephant Tea Pot

It came from Japan

"It's for me to play tea party with," she explained to the saleslady. "I just love to give tea parties, but I never had an Elephant Tea Pot before!"

Elephant Tea Pots, 45c. Tea Pots in other shapes, 25c and 35c. *Toy Section.*

From Quaint Japanese Shops from Nippon across the seas have come the most attractive of new Frocks and Suits. They are

Oliver Twists
Dutch Rompers
Traveling Frocks
School Clothes

Some are pongee and habutai silks. Some are the soft colored cotton crepes, every piece of which set in dyes absolutely fast.

Every little garment is made with French seams, ample hems and fine tailoring.

Every one of these little Frocks and Suits are specially priced.

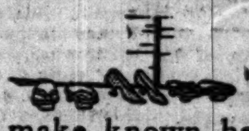
Our Buyer Goes to Japan

CHAPTER I

Our Buyer went across the Seas to get the Pretty Fabrics of Japan for these Little Frocks and Suits.

Her headquarters were in a pleasant Japanese city where the shops are noted for their silks and crepes. And from her hotel there she took a Jinricksha to these shops.

At the doorway, she was met with deep, ceremonious bows by the Cordial Little Wife of the Owner of the Shop.



She was invited to enter the Shop and make known her desires. But first she had to remove her shoes, for the Japanese never wear their shoes indoors.

CHAPTER II

When the Owner of the Shop came forward to greet Our Buyer, he at once suggested tea. And while sipping tea, negotiations were made for the little garments just arrived from Sunny Nippon.

During tea, Our Buyer brought forth little Bloomer Dresses and Oliver Twist Suits and such, to show the sort of models to be followed in the fashioning of the fabrics. And the little boy and girl, peeking around the door the while, were exceedingly fascinated. What strange children, indeed, they thought—to wear such strange clothes!

CHAPTER III

Finally, the business of the visit over, Our Buyer bid goodbye.

She was bowed to the door, put on her shoes, called a Jinricksha, and returned through the curious streets to her hotel.

The Little Japanese Girl's Mother Has Been Shopping and Brought Her Home a New Dress

And she is as proud as can be of it, and her mother thinks there isn't another little girl in Japan quite so cunning.

But that is the way of mothers the world round. And that is the way of children everywhere.

Children always love their new clothes and mothers take so much pleasure in buying the new clothes for them and in seeing them all dressed up.

You know how this is yourself.

SECTION TWO.
GENERAL NEWS,
MARKETS AND WANT ADS.

The Chicago Daily Tribune.

THE WORLD'S GREATEST NEWSPAPER

FRIDAY, JANUARY 16, 1920.

SUCKERS CAUSE H. C. L., EVANSTON WOMEN ARE TOLD

Merchants of Suburb Are Quizzed on Prices.

Evanston started its anti-H. C. L. war yesterday at a massmeeting at the Woman's club. Butchers, grocers, dairymen, leather men, and department store representatives were called upon to disclose the reasons for high prices.

"It's because the suckers ask for high prices," bluntly said W. J. O'Connell of the Evanston Commercial association, one of the speakers. "I went to one of the loop department store markets not long ago to get some goods of which I had run short.

"A woman came up and asked for some raisins. They showed her some at 12 cents and she demanded another brand which was sold to her at 16.

"When she left I asked the clerk how he had the nerve to charge her 16 cents when I sold that same brand for 12½ and made 50 per cent profit on them.

"'I can get it,' he said, 'Why not charge it? The suckers want the high priced goods.'"

Clears Retail Grocers.

Mr. O'Connell defended the retail grocers by declaring that statistics showed more failures in this business than in any other. He said that was because there was no knowledge of percentages.

"The average net profits in the retail grocery business for the years of 1912, 1913, and 1914, were 4 and 5 per cent," he declared. "Now they are only 1 and 2 per cent."

The demand for expensive luxuries and out of season delicacies was cited as another cause for high prices.

[illegible] C. Skinner, who represented the dairy interests, showed figures which informed the women that in New York milk is 18 cents a quart, and in Boston 17. He had no hope to offer for a reduction here.

Blames Dame Fashion.

John Wilder of Evanston, whose business is selling leather in Chicago, put a little more life into the meeting by blaming fashions for the high cost of shoes.

"With the short skirts you women say you had to have higher shoes," he said, "and more leather had to be put into them. Then you must have 'military shoes' to match your costumes.

"We must advocate sane buying. In the case of shoes, let me give you a suggestion: Have them repaired. When the sole begins to feel soft in the middle, have a new sole put on over it. Don't let the repairman take out all the old leather. Part of it is good. Ask him put a new sole over the slightly worn one, and the shoes will last twice as long."

Asks Women's Coöperation.

Capt. Myron Adams, talking for the fair price commission, urged the women to send in their complaints if they wished to coöperate in the reduction of high prices.

"Don't send silly ones, though," he added. "Wait until you have proof. It's an awful thing to accuse a merchant unjustly."

Mrs. Flora Taylor Young, the one who talked at the meeting (by request), made the real hit, with both men and women, when she gave a list of figures showing that a good outfit for a business girl, from street suit to silk kimono and "undies," could be purchased for $100.

HUNT ASSAILANT OF GIRL, 13, ON NORTHWEST SIDE

Search was made on the northwest side all day yesterday by the police for the man who attacked Gertrude [illegible], 13 years old, of 5304 Roscoe boulevard, on Wednesday evening.

"Gertrude was returning home from the grocery," said her mother, "when she was grabbed by a man and carried into a prairie near by. She fought bravely, but could not free herself. Some time later a passerby heard her screams and called the police, who took her home."

Dr. Cora Seippel, who made an examination, said the girl was severely injured and declared if the man was found he should be given the extreme penalty.

SOUTH SIDE CLEW TO JEANNE DE KAY PROVES FALSE

A spark of hope that lighted the eyes of John W. De Kay Jr. yesterday flickered out. With his uncle, Henry De Kay, he investigated a report that his missing sister, Jeanne, had been seen on the south side selling soap. They learned that several girls had been selling soap for a packing company two months ago and that one of the girls looked like Jeanne," [illegible] that's all.

Both John and his uncle are preparing to go to Ashburn, Va., where Henry De Kay's home. They will stay there until they hear of new

Telegram to "Pal" Traps Alleged Bank Robber

[illegible] Matthews, believed to have been implicated in the $110,000 robbery of the Farmers & Merchants' bank of [illegible] on Dec. 31, was arrested yesterday by Detective Sergeant Bermingham at Englewood as he was coming to Chicago on a train. A telegram [illegible] Matthews found in possession of [illegible] Porche, recently arrested in connection with the robbery, said "everything was all right" and [illegible] come to Omaha. Detectives were waiting for him.

HYPNOTISM?

Child Bride and Stepmother, Whose "Magnetic Eye" Music Master Blames for Divorce Troubles.

MRS. HELEN O'LEARY SEYMOUR AND HER STEPMOTHER, MRS. LYDETTE O'LEARY.

Promises of a musical career in Europe won a "child bride" for Ned Seymour, 60 years old, a music teacher at 59 East Van Buren street. She was Helen O'Leary, 17 years old.

But the dreams failed to materialize and now the professor is charged in divorce proceedings with cruelty.

Failure to pay $70 temporary alimony brought him into Judge Rush's court yesterday.

"My wife's a good girl," he explained, "but her step-mother, Mrs. Lydette O'Leary, exerts an hypnotic influence over her and caused Helen to leave me."

Judge Rush continued the hearing until Wednesday, when the divorce suit will be tried.

CITY FEASTS AT MANY BANQUETS IN LOOP HOTELS

There was a variety of banquets in the loop last night.

In the gold room of the Congress many hundred ornament purveyors met to celebrate the forty-second annual banquet of the Chicago Jewelers' association. Each celebrant bore a silver headed Malacca cane as souvenir and harkened, as he ate, to the warblings of sweet singers who threw flowers upon the diners from overhanging bridges and baskets. Warren S. Stone, president of the Brotherhood of Locomotive Engineers, and Dr. Lynn Harold Hough, president of the Northwestern university, spoke.

At the Hotel La Salle, where the Chicago Piano and Organ association held an annual banquet, Charles H. Wacker, chairman of the Chicago plan commission, discoursed on the city beautiful.

At the Hotel Sherman members of the Rotary club, with their wives and daughters, were entertained by little members of the Off the Street club. The speech of the evening was delivered by Fred Selton, 9 years old, and music was supplied by a juvenile band under the leadership of little Miss Gladys Jackson.

In the presidential suite at the Congress, loophounds dined and drank like Epicureans of old. A prominent article of diet was a young pig, which was sent to John Burke, manager of the hotel, by aeroplane mail last week. Constance Binney and Eddie Rickenbacker were the star guests.

There were plenty more banquets. At the Hotel Morrison the Electric club held forth. The Municipal Contractors of Illinois made frequent requisitions on their hips at the LaSalle, while the Traffic club of Chicago on another floor, witnessed several wrestling and boxing bouts.

'FLU' KILLS FOUR; 390 NEW CASES HERE IN ONE DAY

Pneumonia Toll, Death an Hour for 32 Hours.

"Flu" shot up again yesterday. Four persons died of the disease and 390 new cases were reported. Since Tuesday new cases have doubled daily.

The dead:

MISS GERALDINE BERVID, 18 years old, 3142 South Michigan avenue, a clerk; died at her home after an illness of five days.

MRS. ELIZABETH WILSON, 61 years old, 1388 West Lake street; died at Cook county hospital.

NICHOLAS ACRIDAS, 20 years old, 1930 Ogden avenue; died at Presbyterian hospital.

MISS LOUISA WALLACE, 33 years old; died at her home, 1545 North La Salle street.

Death an Hour of Pneumonia.

Pneumonia, "flu's" big brother, kept pace. At 5 o'clock last night, thirty-two deaths from the disease had been reported in as many hours. Sixteen were reported in eight hours. Health Commissioner Robertson was loath to believe the figures and sent his secretary to check them. He found them correct.

One hundred thousand warning cards, printed by the health department, are to be distributed to "L" and surface passengers and loop workers today. The card reads:

READ THIS AND HAND IT TO THE NEXT PERSON YOU SEE COUGH OR SNEEZE.

Cover up each cough and sneeze; If you don't you'll spread disease.

Coughing, spitting, and sneezing convey disease to others. Influenza, pneumonia, and consumption are spread in this way. When you must cough or sneeze, cover your mouth and nose with your handkerchief. Carry your handkerchief where it can be reached quickly.

Health department sanitary inspectors were sent to each of the city's seventeen surface car barns yesterday to supervise the cleaning and disinfecting of all street cars.

First Death at Great Lakes.

The first death as a result of the "flu" epidemic at Great Lakes occurred Wednesday. Yesterday sixty-six new cases were reported to Commander Rufus F. Zogbaum Jr., executive officer. The total number of cases now is 530, practically all mild.

Seventy-five cases of "flu" were reported yesterday at Fort Sheridan by Capt. Samuel Marcus, adjutant. Ten cases in Glencoe and three in Winnetka were reported by Dr. C. O. Schneider, health commissioner of the two villages. Evanston has no record of "flu" cases.

U. S. DEPUTY HOLDS UP PATROL WITH GUN; JAILED

Police Chauffeur Albert Russ and Policemen Albert Johnson and Arthur Halvorsen tumbled into a police automobile early this morning at the police barn in the alley at the rear of the Elks building and started out to answer a call.

At Wells street a man stepped in front of the car, leveled a revolver at it, and brought it to a halt.

Russ sprang from his seat and grappled with the man and the two policemen rushed to his aid. They brought the man to the First precinct station, where it was found he is Joseph Kubic, a deputy United States marshal. Three pint bottles of whisky, $150, and his pay check for $103 were found on his person.

"There is such a man on my staff," said United States Marshal John J. Bradley when called up by the police, "but he has not been assigned to any liquor investigation."

Kubic was locked up.

Robbers Loot Graves Home and Garage in Lake Forest

Robbers entered the home of Mrs. Lucy C. Graves on Westchester avenue in Lake Forest yesterday and searched the wine cellar in vain. They took $1,500 worth of curtains and other furnishings from a storeroom and then entered the garage and hauled away the Graves automobile.

TWO WOUNDED IN SALOON BATTLE; CAUSE MYSTERY

Police Hint Robbery Attempt or Feud.

Answering a call from a woman early this morning to the effect that a man had been shot in the saloon of Martin Kane at 2300 West Madison street, the police ran into a new west side shooting mystery believed to have a feud or attempted robbery as its basis.

When they reached the saloon they found William Mead, the bartender, who was industriously scrubbing bloodstains from a settee, and John Casey, a chauffeur, of 2224 West Adams street. When Mead refused to talk he was locked up. Then he said three men had attempted to "stick up" the place and he fired, wounding one. When it was found he also had been wounded he was taken to the bridewell hospital.

Crime Suspect Victim.

Inquiry about the neighborhood developed that the other wounded man had been rushed away from the saloon in a taxi. The police located him at the West Side hospital, where he gave the name of Ryan and refused to talk further.

Later he was identified at "Ted" Tuohy, one of the pickpocket suspects seized in the recent police roundup of crooks. He also was taken to the bridewell.

Hold Three as Witnesses.

Clarence McShane and Charles Burritz were held in custody as witnesses. The police suspect the men were wounded in a fight over a woman.

SMALLPOX IN 26 ONTARIO TOWNS

Toronto, Ont., Jan. 15.—Although the number of cases of smallpox under treatment in Toronto is steadily decreasing, it was announced today by the provincial health officer that the disease has broken out in twenty-six new centers throughout the province of Ontario. The province is still virtually under quarantine, and no person can enter neighboring provinces or the United States without a vaccination certificate.

BEG YOUR PARDON!

Mrs. Sheldon Clark was mentioned in a report of a meeting of the Women's Oil company. The name was misspelled. It should have read Mrs. Seldon Clark.

U. S. PREFERS TO BUY ITS ART, CRITIC DECLARES

"Anyone who takes money for teaching Americans music is getting money under false pretenses. Americans are not musical because they think they're not musical. They have an idea that when they want art they can go out and buy it—from the Italians and French mostly."

Glenn Dillard Gunn said it last night at the first annual dinner of the Art Service league in the Art institute.

Continuing he declared he hoped the league would bring America to a realization that it had great talent of its own, and should support and develop that talent and quit buying ready made art from overseas.

Emerson Hough asserted that the future of America was in the hands of her artists, asserting there was a greater menace in industrial unrest than the public appeared to realize.

Six False Alarms of Robbery Cause Arrest

Just as Desk Sergeant Keagan of the Englewood station was settling back for an easy night six calls, one after another, reporting robberies of women, rolled in last night. The sergeant became suspicious after sending out every police vehicle available. His suspicions led to the arrest of Harry Racine of 7253 Stewart avenue, who previously is said to have given the police "bum tips," as the author of the fake robbery alarms. A telephone girl gave the tip that resulted in his arrest in a drug store telephone booth.

Basement and Boul Mich Flooded by Broken Plug

The basement of the McCormick building at East Van Buren street and South Michigan boulevard was flooded last night when a motor truck broke a water plug in front of the building. The boulevard and Van Buren street also were flooded. James Tancol of St. Louis, driver of the truck, was not held.

SON OF VICTIM TRAPS SLAYER IN BANDIT RAID

Police Nab 3 Others of Murder Gang.

At 10:35 o'clock last night four men entered the delicatessen store at 709 Forquer street. They attempted to hold up Miss Antoinette Cimmino, who was on duty while her father, Virgilin, was at a movie show. She screamed and her sweetheart and sweetheart's father, Ralph and Tony Varchett, 846 South Clinton street, rushed from the rear of the store to aid her.

One bandit turned his revolver upon Tony Varchett and killed him. The other three fled, but young Ralph leaped upon the man who, the police say, killed his father and held him until the police arrived.

Four Others Arrested.

The alleged slayer gave his name as Tony Lopez. He said he was a Mexican. He gave his address as 819 South Sibley street.

Detective Sergeants Rohan, Halpin, and Engle descended on the Sibley street house and arrested four men as members of the murder gang. At the station Salvatore Ferraria, 714 South Laflin street, and Joe Constance, 1012 Aberdeen street, were identified by Miss Cimminio.

The other two men gave their names as Theodore Costanzo, 834 Irving avenue, and Louis Aliverio, who lived with Lopez in the Sibley street rooming house. The police believe Costanzo, who has a wooden leg, acted as lookout for the gang.

Find Revolvers in Room.

Two revolvers were found in the room from which the men were taken.

"Fast work, eh?" said Chief Garrity at the Maxwell street station. "That's the kind of work that will stop crime in Chicago."

EX-Banker Gets 30 Days in Jail for Contempt

Thomas V. Novotny, disbarred attorney and former owner of the "Illinois Fifty-first and Western Savings bank," 5048 South Western avenue, was yesterday sentenced to thirty days in the county jail for contempt of court.

The sentence resulted from Novotny's actions in connection with the trial of Louis Schultz, 21 years old, of Rockford, Ill., in the Court of Domestic Relations on a delinquency charge.

TRIBUNE INCOME TAX BUREAU GETS READY FOR RUSH

The Tribune Income Tax bureau prepared for immediate action yesterday following the announcement by G. G. Dunlap, chief of deputy internal revenue collectors, that the tax return blanks for 1919 will be ready for distribution on Monday. A force of mathematicians and tax advisors, under command of an income tax expert assigned to The Tribune bureau from the Federal building, will be on hand at the bureau, as soon as the blanks have been distributed, to help citizens untangle knots of their financial reports.

The Chicago revenue department has been awaiting arrival of the blanks ever since Jan. 1. Word came from Washington yesterday that they will arrive today and a big force of clerks will distribute them immediately. They must be filled out and mailed to the collector before the first quarterly payment is due in March.

If you have a return to make, you will find revenue experts to serve you at The Tribune, in Chicago banks, department stores, bond houses, and the following branch revenue stations: 415 North Clark street, 3825 Lincoln avenue, 1224 Milwaukee avenue, 803 West Madison street, 6240 Kimbark avenue, 712 West Sixty-third street.

30,000 WILL AID POLICE BY NEW LAW, CHIEF PLANS

Chief of Police Garrity plans to add 30,000 persons to the strength of the police force by calling on all city and board of education employés to help him fight crime.

The plan has the hearty indorsement of Mayor Thompson. It is contingent, according to the chief, on the passage of his police reorganization ordinance by the city council.

This ordinance gives the chief power to deputize employés. The present ordinance permits such action only in emergencies.

There are about 15,000 square blocks in the city, and the adoption of the plan would leave few blocks without at least one "confidential policeman," Chief Garrity believes.

Council sentiment seemed to be crystallizing in favor of the Garrity reorganization plan yesterday, though Ald. Guernsey, father of the scheme recommended by the police committee, stood out strong against the newest plan.

WORLD'S TRADE EXPERTS TELL HOW U. S. CAN WIN

Insist Markets Are Open but Cautious.

BY EYE WITNESS

If two Italian gentlemen with a couple of million lira apiece to spend on American goods come into your office to talk business, try to bear it in on your office boys that it is not the moment to indulge in comic byplay relative to the whiskers of the prospective customers, comic and unusual though the adornments of the strangers may be. The strangers might turn on their heels and give the order to England.

In extending local hospitality to customers from Central and South America be a little forehanded in your thinking and don't take them to see a film that shows Douglas Fairbanks throwing six Latin-American generals over his left shoulder. For your guests also have nationalistic feelings, capable of being hurt.

Get Accurate Information.

When you decide to start exporting to South America don't begin by dealing in second-hand information. Take $5,000 and charge it off to advertising, and send one of our own men down there. But before he starts sign a three years' contract with him, for if he is getting only $2,000 a year when he goes he will be worth $25,000 a year to you when he returns.

Don't lend Europe any more money, for Europe is going to work its head off to get our South American trade away from us. It is going to do it by going into intensive production and it would like to do that on our money.

One consignment of bad goods, or obsolete goods, or goods not according to the specifications you have agreed to meet, will undo all the good you may have done yourself in the Argentine by ten years of square dealing. The South American is a shrewd trader—shrewd as they make them in Connecticut. Give him a square deal.

Foreign Trade Club Meets.

Surveying mankind from China to Peru, the reorganized Chicago Foreign Trade club sat down in Mr. King Joy Lo's lacquered chicken and rice emporium in Randolph street last evening and for two hours assimilated with entire amazement and some chagrin the fact that the American business man does not know everything. It heard Mr. S. Y. Hsueh (you pronounce it shoo-ey) tell about trade and investment conditions in China in their relation to American opportunities, and it heard Mr. Charles J. P. Lucas, a North American, who knows Buenos Aires conditions backward in their relation to our trade, tell it that the sooner it cleared its mind of the impression that all persons having the equator and Capricorn for neighbors were "a bunch of cranks," the sooner would it be able to deal pleasantly and profitably in a vast field.

Pleads for Civility.

It heard Mr. Archibald J. Wolfe, author of "Theory and Practice of International Commerce," plead for the exercise toward our customers from abroad of ordinary civility—even, as a starter, civility of the commonest sort—if you can persuade office boys and door men to experiment along those lines.

By this, that and the other returned traveler and commercial ambassador, the club had wafted to it the thought that, "for every mean little trick that the American business man new to foreign trade, plays on his new clients, the American business man already established in those fields pays in a year's damage to the confidence and good feeling he has laboriously erected.

Shanghai Banker's View.

From the Shanghai banker Mr. Hsueh—who did not employ l for r—the club heard this:

"China at present knows her only friendly nation is America. I urge therefore the immediate development of trade and relations between our countries to the end that you may help us to free ourselves from the industrial dominance of neighbors whom we do not like, and at the same time help yourselves. That freedom will be good not only for my country, but for yours.

"Therefore, just now, it is more important that American manufacturers take 10,000 Chinese young men into their factories than that China send boys to Harvard.

Displace Japanese Market.

"Since you have lost the Japanese market because you cannot compete with them, help us by training and by capital to establish our factories, thus creating a new market for yourselves."

Seymour Guthrie, just back from trade observations in Europe, reported Spain "prosperous and ready to buy and pay for anything wanted; Italy apathetic but not as bad as the papers say; France apathetic but not so much so, but not getting down to work as well as she should, and Belgium coming back fast."

The meeting's rather pained consciousness that American foreign trade is facing a new situation about which it has much to learn, and in which it has much to do, was summed up by Banker John W. Thomas. He said the United States is going into a trade war that will bear the same relation to all other trade wars that the recent comprehensive military disturbance bore to all previous ructions.

Drops Dead as He Helps Fallen Horse to Arise

Martin Johnson, 65 years old, of 2506 Payne avenue, Evanston, for more than forty years a resident of the suburb, dropped dead yesterday afternoon from heart disease while he was attempting to assist his horse to its feet after it had fallen on an icy street. Johnson was a retired milk dealer and the father of eight children.

ROADS' PLIGHT GROWING WORSE, REPORT SHOWS

Deficit U. S. Has to Pay Now $700,000,000.

BY ARTHUR M. EVANS.

The financial plight of the railroads, which are to be turned back to private owners March 1, is becoming worse instead of better, according to complete figures justout for November. In that month 95 per cent of the revenue of the roads was eaten up by operating expenses, taxes, and rents, so the bureau of railway news and statistics announces, while the net returns fell about $64,000,000 short of meeting the government's guaranty. The deficit was in the face of the largest gross earnings for the month in the history of American railroads, except for November, 1918, and less than $3,000,000 short of that record mark.

Deficit of $700,000,000.

In the last twenty-four months, the bureau says, the deficit whieh the government is under contract to make good has rolled up to more than $700,000,000.

"Of this enormous sum," it declares, "64 per cent, or $450,000,000, was piled up during 1919, when advanced freight and passenger rates were in full force and retroactive wages were working overtime. But even these figures do not begin to represent the true deficiency which the government is under contract to make good.

In the last five years the revenues of the roads have increased 72.5 per cent, while the operating expenses have advanced 113.5 per cent.

The net income has decreased 29.4 per cent and the operating ratio has increased 23.8 per cent.

The experts point out that the startling feature about the railroad figures is the advance in the operating ratio in the face of the largest earnings on record. For November the total operating revenue was $452,997,000 and the operating expenses were $404,033,000. Thus the ratio of expenses to revenue was 89.19 per cent. A year ago the ratio stood at 82.7 per cent.

Coal Strike Negligible.

"Manifestly the coal strike played a negligible part in making November, 1919, relatively the poorest month in the history of federal control," says the bulletin. "The loss on freight, compared with the largest freight earnings in November on record, was less than $17,000,000, and this was more than made up by the increase in revenues from passengers and express.

"Only an advance in rates remains to save the situation, either now or when the roads are returned to private hands. Atlas could not stagger far under a load that took 95 per cent of his strength, as did the railways under federal control in November. And half the remaining 5 per cent has already been mortgaged by time and a half pay for overtime conceded since Jan. 1 to the maintenance of way men."

SANITARY BOARD NAMES 34 OUSTED TO CUT EXPENSE

The employment committee of the drainage board yesterday made public the names of the first employes to lose their jobs under the curtailment policy announced by President Charles H. Sergel. At the same time, the finance committee sliced about $3,000,000 from the engineering department's budget in accordance with the policy of "no roads nor bridges this year," laid down in the message of President Sergel last week. Among those who lost their jobs are:

Daniel Huguenin, superintendent of efficiency.

Mrs. Jessie Shantz, counter clerk.

Louis J. Pinderski, assistant attorney.

George D. Gallagher, chauffeur.

P. J. Costello, chief clerk.

Sergeants of Police George W. Hopherson and James Haggerty.

Peter G. Nix, 5436 South Wood street, was named superintendent of efficiency and Earl D. Ruckman, 4135 Keystone avenue, secretary. Stanley Vojta was made a first grade patrolman. Francis J. Sullivan, released as clerk, was made a chauffeur.

EX-WIFE ASKS $100,000 OF MILLIONAIRE AND HIS PRESENT SPOUSE

MRS. HANNAH L. RANDALL.

Mrs. Hannah Le Bold Randall, who was divorced in 1911 from Louis E. Randall, millionaire box manufacturer, filed a damage suit yesterday for $100,000, naming Randall, his second wife, and his mother-in-law, Mrs. Margaret Hardy, as defendants. The suit charges conspiracy to have the plaintiff confined in an institution for weak minded persons. Mrs. Randall states these proceedings were carried out to prevent her from appearing in the divorce suit, in which she was charged with infidelity.

Through a petition brought before the late Judge Scully Mrs. Randall was locked up in the psychopathic hospital for two days, but was finally released through the efforts of her attorney, Patrick Harrington.

RICE TELLS JURY OF LIFE RIVALING MONTE CRISTO'S

New York, Jan. 15.—George Graham Rice, now a New York stock broker, charged with the theft of $721 from Rudolph W. Hartman of Mansfield, O., today bared to a jury the story of his life, which ranged from prison sentences to the conduct of a business which he said turned over $35,000,000 in two years.

Rice stated that the money Hartman sent him for the purchase of securities probably had been lost in his office. He said he personally never handled matters which involved less than $40,000.

Rice admitted his real name is Simon Jacob Herzog. He changed it to his present one, which was a pen name by which he won a newspaper story contest in Boston, after his prison record was behind him.

Rice's crime career began in 1895, he said, when he was sent to the Elmira reformatory.

Rice explained that he came to realize the mistakes of his former career and that he had tried to live them down.

In describing the size of his business, to bear out his contention that Hartman's money and order for securities might have been lost in his office, Rice said he occupied two floors of an office building in 1917 and 1918, and employed from 150 to 200 persons, sixty of whom were kept busy in day and night shifts setting type for thousands of circulars he sent out.

STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

Have you a bad taste, coated tongue, poor appetite, a lazy, don't-care feeling, no ambition or energy, trouble with undigested foods? Take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without griping, cramps, or pain.

Take one or two at bedtime for quick relief. Eat what you like. 10c and 25c.

Quick, Harmless Way to Remove Wrinkles

This season brings wrinkles to many sensitive skins that are much exposed to winds and changing temperatures. To make an effective wrinkle remover, mix an ounce of powdered Saxolite and a half pint of witch hazel. Bathe the face in the solution—immediately every wrinkle is affected. It acts wonderfully on sagging facial muscles also, the lotion possessing remarkable astringent and tonic properties. Use it once a day for a while and see how it will improve your facial contour.

This simple lotion cannot harm the most delicate skin. The treatment itself leaves no trace—no one guesses the secret of your increasing youthful appearance. But be sure to ask the druggist for the powdered Saxolite.

CONFERENCE ON WORLD TRADE MEETS FAVOR

Problem Is to Keep Theorists at Home.

The proposal for an international conference on world financial trade and economic conditions generally is cordially indorsed by local banking and business interests that have given the matter consideration.

It is felt that such a conference, rightly constituted, while possibly not able to accomplish all that is suggested in the call, would yet result in good.

It is held that men of substance and large directive influence in the affairs of the country should be chosen as delegates from the United States rather than altruists, theorists, and those given to selfish aggrandizement. Locally, also, the idea is that seven or nine representatives of the character suggested, the government being represented, should guarantee conclusions or recommendations that would command attention.

Considered for Months.

The call for a conference which has been addressed to the United States Chamber of Commerce and certain foreign governments, has been a matter of private consideration for several months. One of those instrumental in bringing about the call has been of the opinion that there should be some international pooling of credit to include all European countries. This feature occasions some skepticism, since it is not believed that altruism can take the place of substantial requirements from the countries that may hope to be benefited by any concerted action.

The proposal for the international conference will be taken up by the chamber of commerce of the United States, which is asked to arrange the conference, at a meeting of its full board of directors on Tuesday, Wednesday, and Thursday next week. It was this body that brought about the international conference in Atlantic City recently and is relied on to lead a country-wide campaign of education on foreign securities which might be used as a basis for floating an international loan.

Buy Commercial Paper.

Several large local banks were reported yesterday as being fairly liberal buyers of commercial paper at the rate of 6 per cent. This is the first time in several months that the big banks of Chicago have seen fit to enter the commercial paper market.

It appears, however, that the collateral time loans made in New York at 8 per cent, as against the 6 per cent commercial rate in Chicago, has reached as large proportions as the banks desire, and further consideration will be given commercial borrowers.

It is still true that country institutions are paying off their loans to Chicago correspondents and returning currency to this center. This change for the better is sufficiently pronounced to give the banks an easier feeling; to enable them to reduce their loans at the reserve institution, and generally take a more comfortable view of the money outlook. But it cannot be said that there are yet predictions of lower rates.

FINANCIAL NOTES

Treasury affairs now are in such shape, officials of the department announced yesterday, that it will not be necessary to issue any additional government bonds or loan short term certificates of indebtedness. Approximately $1,826,661,000 of loan certificates now outstanding will be redeemed in cash, or as they mature, Jan. 15, Feb. 2, and Feb. 16.

Reports are current that the railroad administration has notified the steel mills it will not be responsible for payment for rails unless deliveries are made before March 1, on which date the roads are to be returned to private ownership.

Gov. Harding of the federal reserve board intimated yesterday that the board does not contemplate any immediate increase in discount rates There is a disposition on the part of the federal reserve board to await the action of the forthcoming clearing house conference to be held in Chicago the latter part of the month, before taking any action to change the present level of discount rates.

The J. G. Brill company has restored its preferred stock to a 7 per cent dividend basis by declaring a quarterly return of 1¾ per cent. Accumulated dividends have been paid off. The Poole Engineering and Machine company has deferred the dividend on its stock. The American shares of the Shell Transport and Trading company will receive a dividend of 74 cents on Feb 3.

The Phillips Petroleum company has increased its stock to 1,000,000 shares no par value. There are 225,000 shares outstanding, and an equal amount will be issued to stockholders. The Imperial Oil company is offering to stockholders 200,000 shares of unissued stock, par value $25, at $75 a share, in the ratio of one new share for six now held. This will increase capital to $35,000,000. The [illegible] Gulf Oil company has increased its capital stock from $1,500,000 to $3,000,000.

Regulations of the federal reserve board governing the subscription of bank funds to foreign trade agencies created by the Edge bill probably will be made either the latter part of this week or early next week.

[illegible] S. Oliver of the B. F. Goodrich company and R. Mason Day, president of the American foreign trade corporation, have been elected directors of the Tobacco Products corporation.

CHICAGO BANK STAFF CHANGES

Chicago banks report changes in their official staffs as the result of the annual elections as follows:

STANDARD TRUST AND SAVINGS—Ward C. [illegible], Walter H. Jacobs, Oliver M. Bur[illegible], and George A. Eddy elected directors; [illegible] Lapham elected manager of the bond department.

CHICAGO MORRIS PLAN—Robert I. Hunt elected to vice president. No successor named.

STOCKS RALLY, SHORT COVERING BEING FACTOR

Rise Follows Meeting of Reserve Board.

The New York Times.

New York, Jan. 15.—[Special.]—Stocks rallied briskly today, the covering of previous short sales being an important factor in the movement.

Speculative sentiment appeared to find relief in statements coming from Washington to the effect that the federal reserve board at its regular meeting had not considered the matter of higher discounts at New York. It was after the Washington dispatches were received in the street that stocks began to look up and the advance continued until near the close.

Irregular at Close.

An irregular tendency of quotations in final dealings seemed to indicate that the more pressing demand from the short element had been filled, leaving the market rather uncertain as to tendencies of the immediate future. Steel, copper, and many miscellaneous issues rose 1 to 5 points, together with a number of the oil shares. Where there was evidence of weakness it was one or two of the newer oil and specialty stocks which suffered most.

The money situation was difficult to size up. Call loans were renewed at 9 per cent, but this proved to be the highest rate of the day and in the afternoon there were fairly large offerings down to 6 per cent. At the same time brokers found loans of the longer maturities as scarce as ever, rates for accommodation secured by industrial collateral commanding 8 and 8½ per cent.

Liberty Bonds Decline.

The decline of Liberty bonds this week, which was again substantial today, together with the rapid melting down of certain stocks, both on and off the stock exchange, has caused much discussion in connection with the credit outlook.

Sterling receded 2¼ cents to the pound, the closing quotations of 3.70¾ being the lowest of the year. Francs, lire, and marks also lost ground, the last named falling to 1¾ cents each. Swiss rates were moderately firm.

The silver market executed another of those singular declines which have been frequent in the last few months, the quotation at New York falling 4¾ cents per ounce to $1.30¾. The movement paralleled a decline of 4½d to 79d per ounce in London.

NEW ORPHEUM CIRCUIT STOCK TO BE OFFERED

Details of the financial reorganization of the Orpheum circuit, incorporated, have been completed, and a part of the issue of common stock will be offered in Boston, New York, and Chicago next week at $32.50 a share.

The new capitalization consists of an authorized issue of 100,000 shares of 8 per cent cumulative preferred of the par value of $100 each. Of this issue there is outstanding 63,176 shares. The common stock issue consists of 1,000,000 shares of the par value of $1 each, of which there is outstanding 549,710 shares.

Since 90 per cent of the capitalization has been taken by the owners of the theaters in the combination, only a small amount of the common stock will be offered to the public, the total to be offered being 109,943 shares.

A statement of earnings show the net income in 1919, after all charges, applicable to the preferred and common stocks was $3,802,413. After providing 8 per cent on the preferred stock outstanding the remainder applicable to the common is $3,297,000, or between $5 and $6 per share.

The offering has been underwritten by the Central Securities company of Chicago and Richardson, Hill & Co. of Boston. The offering of the stock to the public will be through the Boston firm. In Chicago the offering will be made through Babcock, Rushton & Co.

CHICAGO....STOCK TRANSACTIONS

Chicago stocks generally moved upward with improved sentiment in New York. Armour & Co. preferred among the packing house shares was the most active issue but moved within a narrow price range. It did not touch the high figure of the preceding session. The street was left to guess what might be the value of the rights in the segregation deal.

The trading in Stewart-Warner was unusually heavy and the price showed an advance of 2 points. The buying was based on the understanding that the dividend distribution of the next quarter will be increased.

Union Carbide showed fractional improvement. Montgomery Ward was also higher, although the trading was in moderate volume. National Leather recovered its loss of the previous day.

Pennsylvania Railroad.

R. R., Viroqua, Wis.—The Pennsylvania railroad company's stock is all of one class. The bonded debt is the lowest of any large railway system in the United States. Before the government took over the railways, Pennsylvania earned its fixed charges about three times. Under government management it has covered them with only a narrow margin. Government compensation meets fixed charges and the dividend on stock. Dividends have been paid without interruption for more than sixty years. The rate has varied from 2 to 10 per cent. For the last thirteen years 6 per cent has been paid.

Allied Packers.

M. G. O.—The $16,000,000 of convertible bonds of the Allied Packers are not secured by mortgage, but the company contracts not to mortgage any of its property and to maintain net quick assets equal to at least 50 per cent of the principal amount of bonds outstanding. The company is a combination of independent concerns formed last summer, and, of course, the bonds are not seasoned. Net earnings of the plants in the year ended April 30 last were nearly three times the bond interest.

Brief Answers.

M. O.—The Mutual Oil and Gas company had leases on 660 acres in Oklahoma at last accounts and some production. No financial statement furnished. Backing is reputable. Stock speculative.

G. P., Anna, Ill.—Government compensation of the Union Pacific company covers its 10 per cent dividend with a fair margin of safety. The road is earning more than its compensation. No extra dividend in sight.

D. E. N.—Stock of the Kitchen Service company has no value as far as we know. It was merely a speculation in the beginning.

J. G. R.—North American oil stock is a speculation, rather than a conservative investment.

CORPORATION EARNINGS

UNITED PAPERBOARD.

For the six months ended Nov. 29, 1919, net earnings before depreciation and income taxes were $165,807, equal after preferred dividends to 98 cents a share on $12,000,000 common stock.

MEXICAN PETROLEUM.

For nine months ended Sept. 30, 1919, net profit after income and profit tax was $4,427,071, equal after preferred dividends to $9.08 a share on $40,[illegible] common stock, compared with $14.13 a share in the entire year 1918.

PAN-AMERICAN PETROLEUM.

Statement for nine months ended Sept. 30, 1919, shows net profits after charges and federal taxes of $3,696,023, equal after deduction of 5½ per cent preferred dividend to $3.92 a share, $50 par, on the $46,247,400 outstanding common stock. This compares with net profits for the year ended Dec. 31, 1918, of $4,666,767, or $5.58 a share on $35,354,200 common stock then outstanding.

BROOKLYN EDISON.

CHANGE OF VIEW ON CAR RULING SENDS UP CORN

Order Is First Taken as Bearish, Then Bullish.

BY CHARLES D. MICHAELS.

Heaviest selling of grains was on at the start, due to the new order giving the Grain corporation preference of 70 per cent of the cars that go to the elevators for shipping wheat, leaving only 30 per cent for moving other grains.

Traders construed the order as bearish for a time, but later some took it the other way. Short sellers at the start were the best buyers later, sending prices higher. The close, while at a good recession from the top, showed corn ⅛ to ⅜c higher; oats, ⅜c higher; rye, ½c lower, and barley unchanged. Gains in the outside markets were about the same as here. Provisions and hogs were higher, pork gaining 20c; lard, 15 to 17½c, and short ribs, 27½ to 30c for the day.

Corn Rallies After Break.

Corn prices fluctuated rapidly within a range of 1⅝@1⅞c. The agreement between the elevator men and the Grain corporation, which allowed the latter to take 70 per cent of the cars for loading out wheat to mills, was construed as bearish, but the local element was generally sort, and while there were numerous sharp breaks there was little pressure other than from local traders, and the close was at a moderate net gain.

While the bulk of the news was of a depressing character, there was an undertone of strength that caused considerable caution on the part of bears in pressing the short side very hard. Hogs were higher and an active export demand prevailed for oats and rye, while the car situation showed no improvement. Sales of 40,000 bu were made here to the seaboard, and Peoria was understood to have sold some grain at 1c advance. The weakness in foreign exchange with sterling and marks down to a new low was ignored after prices started upward.

Large Sales of Cash Oats.

Seaboard and domestic demand for cash oats was keen, with sales of 500,000 bu to exporters, and 345,000 bu to eastern distributors reported. Eastern stocks of oats are light, and liberal purchases necessary, 600,000 bu or more having been taken the last two days. Seaboard bids were on the basis of 11½c over May, track New York, for 36 lb grain. Premiums in the sample market advanced ¼@½c, with fancy No. 2 white about 5½c over the May.

Futures held within a range of 1⅛@1⅜c, and closed within ¼c of the top. Bulk of the trade was of a local character.

Seaboard exporters secured 50,000 bu rye in the west, with further business understood to have been done. Bids of 13c over May, track New York, were made, a new high basis on the crop. Futures were unsettled in sympathy with other grains. No. 2 on track brought $1.81¼@1.81½, and some cars were carried over unsold. Receipts, 15 cars.

Spot barley, 1@2c lower, with a slow demand. Spot sales were at $1.37@1.58. Receipts, 18 cars.

Timothy seed advanced 15@30c to a new high figure, March selling at $14.00@14.15. Country lots, $10.00@13.00 per 100 lbs. Cloverseed strong. Country lots, $40.00@53.00 per 100 lbs. Toledo 80c higher at the best figure in history. March, $34.20 per bu of 60 lbs.

Fair Gains in Provisions.

Higher prices for hogs created more scattered buying in provisions and prices advanced and closed around the best prices with good gains. Liberal selling of May lard by packers' brokers was on early and well taken at the last by commission houses. Meats were said to be in better demand, and it was reported that an order for 20,000,000 lbs had been filled. Green meats were ½c higher. Shipments of lard and meats were larger than last year. WORLD'S GRAIN MARKET NEWS

It is difficult for a majority of the local operators to see anything but depression in prices for grains and everything in the distant future. One of the sharpest observers says there is to be a big decline within a few weeks. It is his belief that under existing conditions there is nothing in sight to make permanent advances in corn, and in case of a largely increased movement lower prices should rule. There is not the same bearishness apparent among all the receiving and the cash handlers in the trade that prevails among the speculators. A few of the cash handlers argue from a different standpoint. They admit that the world's financial and economic conditions are not such as to lead to extensive bullish commitments, but with no surplus of grains at the terminal markets and a demand that exceeds transportation facilities to move, they fail to see the logic in advocating materially lower prices. In short, they say sales should only be made on all sharp advances and purchases on radical declines for fair profits.

Lard stocks in Chicago increased nearly 8,000,000 lbs the last two weeks and are 29,418,000 lbs, against 44,205,000 lbs last year. For the same time last year the increase was 3,011,000 lbs. Short ribs increased 2,189,000 lbs, against 342,000 lbs last year. Total stocks are 3,927,674 lbs, against 768,000 lbs last year. John Tredwell says lard production is liberal and undoubtedly running considerably beyond immediate requirements. New York reports consumptive demand for cotton seed oil very low.

The advance in grains yesterday after the early decline was due to the technical pit situation, which is an important factor and is expected to be so as long as present conditions last and there is an absence of hedging pressure.

No statement was given out by the committee from the Chicago Board fo Trade which went to Washington last week to confer with railroad officials regarding the car situation. It is understood, however, that the officials were glad to have the views of the grain trade presented, as it would aid in helping solve the problem of trying to have one car do the work of three. Some relief is expected in the near future. A slight betterment in the car supply was reported in western Iowa and the corn moving to Chicago. Solid trains of empty cars were reported moving through Watseka, Ill., yesterday for Iowa.

May corn closed Jan. 10 at $1.34¼. After four days' effort on the part of local bears they were able to get the market down 2½c from that figure. At the high point yesterday May was up to $1.34⅝.

Denominations, $1,000 and $500 4% Federal Income Tax Paid

Amortization or Annual Serial Maturities

In accordance with the usual provisions of the *Straus Plan*, a certain number of the bonds come due and are paid off each year as shown in the table below, thus steadily reducing the loan.

Amount	Maturing	Amount	Maturing
$22,500	October 15, 1921	$35,000	October 15, 1927

35,000	October 15, 1926		

Land and Building: The bonds are a direct closed first mortgage on the land and eight story building located on Sixteenth Street between R and S Streets, N. W., Washington, D. C. The building is planned to contain 144 apartments. It is being erected as a direct result of the great demand for apartment accommodations in the adjoining Chastleton Building, which far exceeds the supply.

Borrowing Corporation: The District Apartment Corporation, owned and controlled by responsible and experienced Washington interests.

Net Earnings: Conservatively estimated at more than two and one-half times the greatest annual interest charge. This estimate is based on leases already signed and rentals being obtained in the Chastleton Building adjoining. Under the trust mortgage, the rentals received each month must be applied to the payment of principal and interest of the bonds as follows:

Monthly Deposits: In accordance with the usual provisions of the *Straus Plan*, monthly deposits of principal and interest are required, providing systematically for the payment of both principal and interest in cash on the days when due and making certain that the rents as received each month are applied to the payment of the bonds. Each monthly payment is one-twelfth of the total amount of principal and interest coming due during the year.

NOTICE

Baton Rouge, Louisiana, December 29, 1919.

In accordance with the provisions of Paragraph A, Section 1 of Article 324 of the Constitution, and the resolution adopted by the Board of Liquidation of the State debt prior to issuance, the following described bonds of the State of Louisiana are hereby called in for redemption:

50 bonds of $1,000.00 each, Nos. 10107 to 10156, both numbers inclusive, all dated January 1, 1914, and maturing August 1, 1964.

The holders of these bonds are hereby notified to present them with all coupons due subsequent to February 1, 1920, attached, either to Hon. Henry Hunsicker, State Treasurer, Baton Rouge, Louisiana, or to the State Fiscal Agent Banks in the City of New Orleans, or to Harris, Forbes & Company in the City of New York, who will pay the same at face value, plus a premium of 4 per cent. Interest on these bonds will cease after February 1, 1920.

TWO FACTORIES PLANNED FOR THE WEST SIDE

Lorette Corset to Build a $280,000 Plant.

BY AL CHASE.

Two new factories are announced for the west side and the northwest part of the city. Robert T. Newberry is to construct for the Lorette Corset company a two story fireproof building on the 250x125 at the northeast corner of Crawford and Barry avenues, to cost $280,000. Miltenberg & Guettel were the brokers. Work is to start at once.

The Lorette Corset company now occupies 40,000 square feet on one floor at 500 South Throop street, which it leased eight years through the same brokers. About 500 will be employed in the new factory. The present quarters already have been subleased by Miltenberg & Guettel.

Several big concerns recently have moved into this locality. The Florsheim Shoe company is constructing a large factory half a block from the site of the new corset plant. Several clothing manufacturers have moved into this neighborhood.

Reedware Company Builds.

The Chicago Reedware Manufacturing company, 1523 Carroll avenue, is erecting, through Miltenberg & Guettel, a one story fireproof factory fronting 450 feet on the north side of Grand avenue, just east of Sacramento boulevard, to cost $150,000. The site comprises 108,000 square feet. Davidson & Weiss are the architects.

David Mayer has sold to John E. Stewart the two story building at 2715 South Michigan avenue, occupied by the United Motors Service company, and the four story building at 2721 South Michigan avenue, occupied by the same concern and the Chicago Technical college, 51x170, for an indicated consideration of $80,000.

A reported cash price of $40,000 was paid by Ignaz Schwinn, president of the Excelsior Motor Manufacturing & Supply company, to Dr. Frank W. Baylor, for the three apartment building at 440 Oakdale avenue. Glen C. Tavenner of W. K. Young & Bro. represented both parties.

Buy 13 Bungalows.

Thirteen bungalows, with five and six rooms, on 362x125 square feet of ground at Paxton avenue and East Seventy-eighth street, east front, have been sold by Charles Miller to Julius S. Bellack and Berthold H. Bellack for an indicated consideration of $5,500, subject to $58,500. Bellack Bros. operate a drug store at 1508 East Fifty-seventh street.

Frank Loessler has purchased from Faith Latimer, through John H. Gay & Co., the three story store and flat building, 50x125, at 434-36 West Sixty-third street, for a reported consideration of $22,500, subject to $8,500. The buyer gave a part purchase money mortgage of $13,000.

Building Permits

Ten permits were issued. Those in excess of $5,000 were as follows:

Anthony-av., 2 story factory, Consumers Co., owners; George Garnsey, arch.; Balkin, mason..........$65,000
3227 Carroll-av., 1 story factory, J. Reed, owner; L. E. Russell, arch.. 9,000
5812 S. Racine-av., 1 story garage, Stand Sash and Door Co., owner; A. G. Lund, arch.; Rune & Sons, masons.......... 40,000

Bankers Heavy Sellers of Liberty Bonds

New York, Jan. 15.—Banking interests have been selling Liberty bonds heavily since Jan. 1, it was learned today. Much of this liquidation was said to have been by institutions seeking cash for business loans and unwilling to borrow it because of the high interest and discount rates fixed by the federal reserve bank

DRY GOODS.

NEW YORK, Jan. 15.—New prices named on narrow napped cottons were on a basis of 35 cents a yard for Amoskeag 1921 cloth. Dress goods opened for fall were priced on a basis of 7½@10 per cent up from the last prices. Ginghams and tickings were higher and cotton goods and yarns continued very firm. Burlaps were firm and spot goods very firm.

PROFITEERING SUIT DROPPED.

NEW YORK, Jan. 15.—On motion of United States District Attorney Humes the suit filed Dec. 8 against the Transcontinental company and its officers, charging them with profiteering in oil, was dismissed by United States Commissioner Knox. The officers of the company were exonerated.

How to fight the "flu"

For the prevention of Spanish influenza, there are three precautions to remember.

First:

Keep your system clean. The germs of Spanish influenza multiply with incredible rapidity in the poisonous wastes clogging the intestines. Eliminate constipation and you eliminate the breeding place of the germs.

Pluto Water will soften and flush away the impurities quickly, thoroughly and gently. A slow-acting, uncertain cathartic will afford the germs several hours in which to multiply and attack your system. Pluto Water acts quickly and effectively—puts you in condition to vanquish the disease.

Second:

If you think you have the "flu," call a doctor at once. Medical aid is absolutely necessary.

Third:

Go to bed. Rest and elimination of waste are two most important factors in fighting the "flu." Pluto Water will effect the necessary elimination of poisonous waste matter and increase your resistance.

Get a bottle of Pluto Water today from your nearest drug store. Commence taking Pluto every morning before your breakfast. Take an ordinary tumbler one-third full of Pluto Water and fill it with warm water. You will put your system in clean, working order ready to resist the attacks of influenza and other winter illness.

Your physician prescribes it

Homes for 12,000 workers

now available at Hopewell

The shortage of houses and high rents in the vicinity of your plants affect you, as employers, in exact proportion as they affect your employes.

Your workers, unable to obtain comfortable and attractive homes at fair rents, are bound to become discontented.

Discontent reduces the efficiency of your workers. It lessens loyalty and creates fertile ground for unrest.

Housing conditions at Hopewell are unequaled in the United States. That is *one*, but only *one*, of the big reasons why Hopewell is an ideal location for your manufacturing plant.

Besides discontent, housing shortage prevents concentration of workers in homes near your plant.

Have you considered such a condition in its relation to the number of absentees from work and the amount of tardiness among your employees?

The greater the distance they must travel between home and factory, the greater the temptation to remain home in bad weather.

The chances for delay in reaching work in time also are increased in proportion to this distance.

It is greatly to your advantage to have your employees live near the factory. Proper housing alone makes this possible.

No Housing Problem at Hopewell

Hopewell did not grow in haphazard fashion. It was designed and built as a model manufacturing city. Its residential and industrial areas, while separate and distinct, are perfectly co-ordinated.

Every Hopewell house is within easy walking distance of a Hopewell factory.

In addition, Hopewell's homes are models of comfort and attractiveness. They have electric lights, water, plumbing and all other modern conveniences. They have pretty lawns and gardens and are surrounded by well-paved streets.

There is no rent profiteering. Hopewell workers can buy their own homes cheap and on easy terms or rent them for $11 to $15 a month, and there are no big electric light, water and coal bills to eat up earnings.

For manufacturers and executives there are houses beautifully situated along the James River.

Big Opportunity for Manufacturers

The city's superb housing facilities make it possible for manufacturers to move all or part of their operative forces to Hopewell along with their plants.

This is not necessary, however, as Hopewell has a supply of labor, skilled and unskilled, male and female, adequate for all present and future need.

Hopewell offers a great deal more than homes and labor. It offers factories ready to turn on power, and factory sites with railway sidings already built.

These sidings enable you to load cars right at your factory door for unloading at the Hopewell wharf or at any point in the United States.

You can buy a small factory or a large factory—a small site or a large site. We are not offering Hopewell to one manufacturer, but to many manufacturers.

Hopewell's Great Advantages

As a manufacturing location Hopewell has advantages that are unexcelled anywhere in America.

It is part of the Petersburg-Hopewell Industrial District of Virginia, 23 miles south of Richmond and 82 miles west of Norfolk.

The district is a railway center and a tidewater port and has a climate unsurpassed for health and industrial activity.

Hopewell has low-priced power, light and heat; a water purification plant, capacity 50,000,000 gallons daily; accessible raw materials, low-priced fuel, exceptional fire protection, unique insurance terms, low taxes and adequate banking help to take care of all legitimate needs.

Put a Plant at Hopewell

If you are one of the following classes of manufacturers you need a factory at Hopewell:

The manufacturer whose plant is unfavorably located with respect to labor, housing, transportation, raw materials, etc.

The manufacturer needing a branch factory more strategically located to remove competition handicaps.

The one-plant manufacturer who needs another factory to protect him against loss from a total stoppage of production.

The manufacturer requiring cheaper power, water, etc., to utilize a by-product or to carry on one of his manufacturing processes.

Quick Action Necessary

If you wish to take advantage of the unprecedented opportunities at Hopewell, you must act quickly. We are disposing of our peace surplus factories, factory sites and other industrial equipment. We offer these to manufacturers direct at attractive prices and on liberal terms. Sales have already been made and demand is brisk. Wire or write today for any additional information you may need. All dealings strictly confidential.

Hog values scored a further gain of 25@75c, several packing droves costing around 60c more, with the general average 48c higher and highest in over three months at $15.33.

Day's receipts of hogs at 36,000 were 14,000 below expectations, while shipping orders were large. Packers were compelled to follow the market, which improved as the day advanced, both Armour and Swift paying as high as $15.50.

After a generally steady to strong start, the beef cattle market weakened, some late transactions showing 10@25c decline. Best on sale sold at $17.50. Calves closed 25c higher. Sheep and lambs were largely 15@25c lower, top lambs making $19.60.

Seven western markets received 31,000 cattle, 104,000 hogs, and 36,000 sheep, against 33,000 cattle, 128,000 hogs, and 33,000 sheep previous Thursday, and 37,000 cattle, 141,000 hogs, and 48,000 sheep a year ago.

Receipts for today are estimated at 9,000 cattle, 45,000 hogs, and 10,000 sheep, against 6,756 cattle, 26,083 hogs, and 6,267 sheep at Chicago corresponding Friday a year ago.

PRODUCE MARKETS

Fresh egg prices have dropped 7c in two days and 10c this week, the price yesterday being 61c for firsts. Refrigerator lots were unchanged. Offerings are increasing, arrivals being 4,142 cases, against 1,764 cases a week ago and 2,538 cases last year. Street stocks were the largest in some time, 23,095 cases. Withdrawals from cold storage, 9,601 cases. Eggs for future delivery were sold on the mercantile exchange at lower prices. Firsts for January were 59c and February 47¾@48c. Two cars refrigerators for January delivery sold at 49c.

There are 1,000 tons of Argentine butter being shipped to New York and 5,000 casks of Danish butter are yet to arrive there. At the same time liberal exports of butter are being made from the United States to Europe. Trading in butter in Chicago was slow and market easy with holders more disposed to sell. No surplus offerings were reported from New York, and trade improved. Boston had a dull trade and Philadelphia advanced 1c on top grades. Quietness prevailed in the cheese trade.

JOHN V. FARWELL CO. REVIEW.

John V. Farwell company in its weekly review of trade says:

"Wholesale dry goods and general merchandise business continues well in excess of corresponding week last year. The acute shortage of merchandise in some lines is evidenced by the fact that buyers from New York City and other large retail centers, who do not naturally look to Chicago as their source of supply, have visited this market during the last week. Primary cotton goods market is firm and advancing. Laces are in active demand, as a large season is looked for in the use of laces as trimmings for white dresses. Foreign lace markets are behind in deliveries. Satin bed spreads are scarce, and mills are several months behind in deliveries. Collections are excellent."

READ THIS

Our new car business this winter has been unusual and we have taken in more used cars than we have room to handle.

Our spring season is almost here. We need room and must move 30 used cars before the Auto Show.

These cars are thoroughly overhauled, repainted, first class shape. You can buy them new and save big money. This is our loss and your gain. Prices from $400 to $1,700.

We have Elgin Sixes, sedans, tourings, 4 pass., and roadsters. Prices from $600 and up. Also 1919 Oldsmobile Six, 1919 Oakland Roadster, 1919 Dodge-Wescott Touring, Hupmobile Sedan, Willys Six, Studebaker Six, Overlands, Chevrolets—in fact, anything you want.

This is your chance. Don't wait until spring, when the best used cars are picked out and prices go up.

CARSON PIRIE SCOTT & CO

MIDWAY in this new month of 1920, it is indeed gratifying to pause and to note how splendidly January is fulfilling its traditions as it concerns the selling events at this store.

Fashions of the new season are having their first presentation and by their beauty meeting with instant success.

Sales occasions continue uninterruptedly their worth-while economy opportunities. Constantly incoming assortments keep the groups renewed and replenished. In each instance pricing means definite saving. Included among others are the January sales of—.

Undermuslins
House Dresses
Blouses
Infants' Wear
Corsets
Household Linens
Cotton Dress Fabrics
White Goods
Laces

And the January Clearance Sales of Apparel for Women, Misses and Girls bring fine and desirable modes for immediate wear at substantial price reductions.

Many New Modes of Charm and Distinction in

Misses' Suits, Coats and Frocks

Interest does not grow dull an instant in these sections. Here a mode comes, launching a new fashion. There another affirming a rumored vogue. All new, they are—all different, yet all with one trait in common, the youth and debonair charm of them.

Checkered Suits at $75 Make Clever Use of Buttons

Tinted to tone with checks are these buttons, and they are placed close together to emphasize the line at the back and the pockets. Note the sketch at the right.

The checks are uncommonly smart in coloring—American beauty and old blue, brown and beige, French blue and buff. At this pricing, too, are hair-line striped suits and suits of mixtures—all exceedingly well tailored. $75.

Tourists' Shawl Coats, $100 Entirely New This Season

Youthful they are in line, so that they appeal universally. The fabric is a fine imported woolen, plain and plaid with fringes, as the sketch at center shows.

For southern afternoons and evenings exquisite wraps of duvetyns and moire silks, often with moleskin collars. Velvet coats are first chosen for wear with plaid skirts. And polo coats are the utility coats present in every wardrobe.

New in Frocks—Colorful Nets and Pale Toned Crepe de Chine

At $125 is the crepe de Chine frock sketched at the left. The skirt is closely pleated, the blouses in the newer length. A girdle of metal heavily tasseled and undersleeves and a shallow yoke of dotted net are fashion details to note.

At $125 net frocks with batiste motifs in ashes-of-rose color appliqued have girdles of mauve and orchid silk with a touch of turquoise. Nets in tangerine tones are embroidered in eyelets and each eyelet is wreathed in a bit of lace.

At $175 There Are Net Frocks In Orchid or French Blue with Looped Ruchings Caught In Only at the Hem and Girdle.

Fourth Floor, South.

Frocks That Are Newest

Schoolgirls Choose Here and Now

They've just come. And the fashion message these frocks bring is delightful.

Serge, taffeta and wool jersey are adapted to the purpose of girlhood fashions in a wholly new and strikingly different way.

At $37.50—Taffeta Frocks with Wool Stitching

The quaint charm of this frock is due to the needlework—a worsted chain-stitching in pale rose and white on brown, old blue or navy blue taffeta. Sketched at the left.

At $45—Wool Jersey Frocks with Velvet Girdles

And upon the girdle is worked a wool motif in brilliant colors. Sleeves are short and the neckline, softly rounded, has a beige batiste collar. Sketched at the center.

At $80—Serge Frocks Really Out of the Ordinary

The skirt is accordion pleated and down each side are panels made of red braid studded with round nickeled buttons. The blouse is a bit of an Eton. Sketched at right.

Separate Skirts of Wool Plaids

For Tramps Over Southern Trails

Jauntily swinging lines. Pleats that allow freedom in walking, yet hang straight and slim. Colors unusual yet combined in perfect harmony. By these tokens one knows these separate skirts are 1920 new.

As Smart for the Winter of Our Northern Outdoors

Just the skirts women want to wear skating or tramping—indeed with the fur or leather top-coat nothing could be more desirable.

At $27.50 and $37.50 Two Styles Featured

The skirt at $27.50 (at the right) has a novel belt. Links of metal and folds of fabric cleverly combined are placed upon the girdle. The skirt at $37.50 (at the left) has unusual strappings placed at the sides.

Fourth Floor, East.

Hats of Batavia or Hair Cloth

A Featured Group Presented at $15

Charming—and no two alike. Indeed, in these hats is decided evidence of that artistic adaptation of the new when it is newest, ever apparent in this section.

Color is a prominent feature in millinery this season, and these hats reflect the most favored color themes—

Amber, Aztec Brown, Tapestry Blue Orchid and Rose Tones

Sailors, soft-crowned, and brimmed hats, picturesque and flattering, turbans smarter than ever—these are the styles.

Trimmings are delightfully simple—these fabrics being quite decorative enough in themselves. Some hats especially lovely are flower wreathed, for southern frocks and sweater coats.

A Group of Hats Designed With Skill Most Unusual, $15.

Fifth Floor, South.

Now in the January Sale—

Dainty Blouses for Misses

Crisp and fresh-looking and wholly charming are these blouses. And instantly one knows they are for youth. Collars tell that. Cleverly turned cuffs, jaunty cravats emphasize it.

At $2.50, $3.95 and $7.50—Notable Prices

Are four groups particularly featured. The blouses in each are unusually lovely as well as excellent in value at their pricings.

At $2.50 there are blouses of white batiste with collars appliqued in rose, old blue or beige. And batiste blouses a bit more tailored have Buster Brown collars in color.

At $3.95 dimity blouses with wee frillings edging the long flat collars, the cuffs and the smart front folds.

At $7.50 voile blouses filmy and fine. Filet-mesh lace makes the long flat collar and the vestee banding.

CUTICURA HEALS ITCHY PIMPLES

Large, Hard, Red. Burned and Spread. Lost Rest.

"I was poisoned, breaking out in pimples from my waist down. The pimples scaled over and itched and burned, and when asleep I would scratch until they bled and spread in a solid mass. They were large, hard, and red, and I lost sleep.

"I suffered almost a year when I heard of the Cuticura Preparations. I used the Ointment at night, and in the morning washed with Cuticura Soap. I noticed a change right away, and after using two cakes of Soap and one box of Ointment I was healed." (Signed) Mrs. D. Y. Stout, 1006 W. Main St., Crawfordsville, Ind.

Use Cuticura for all toilet purposes. Splendid for the complexion.

Sample Each Free by Mail. Address: "Cuticura Laboratories, Dept. H, Malden, Mass." Sold everywhere. Soap 25c. Ointment 25 and 50c. Talcum 25c. Cuticura Soap shaves without mug.
